Budget Message

By
GOVERNOR GOODWIN J. KNIGHT
1956-57 Budget

To the Senate and Assembly of the Legislature of California:

I submit the Budget for the State of California for the fiscal year beginning July 1, 1956, and ending June 30, 1957, in compliance with the Constitution.

This is a budget reflecting a sound condition of state finances and a prosperous economy. It presents a forward-looking program of services for a growing State, but it calls for a careful husbanding of expenditures. It is a budget, I am happy to report, which will be financed within the existing revenue structure without new or increased taxes.

Our state revenues, geared as they are to income and business activity, are much higher than our estimates of a year ago, which were in line with the forecasts of the leading economists of the Nation. Economists, so far as I can find, did not have the temerity at that time to predict the present level of prosperity and I for one do not condemn them for their conservatism. I am thankful that increases in revenues, together with savings by careful fiscal management, permit us now to forecast a substantial surplus at the close of the current year instead of the anticipated deficiency we faced a year ago. The revenue estimates in this Budget for the coming fiscal year reflect the present high levels of economic activity, with forecasts of moderate increases based upon careful appraisal of the outlook. As in past years we have had the very valuable assistance of able economists in industry and finance in making these forecasts. Let me remind you, however, that our revenues respond very sensitively to a change in the national and state economy. An increase or decrease of only 1 percent means a difference of \$10,000,000 in General Fund revenues, and our estimates could easily be that much too high or too low.

You will observe that a reserve of \$10,400,000 has been set aside for appropriation for rehabilitation of flood damage in accordance with the recommendations I am making to you in the special session.

EXPENDITURE REQUIREMENTS

It will require a total of \$1,736,112,983 to meet the State's obligations and needs in the ensuing year. This is an increase of \$129,949,012 or 8.1 percent over the estimated expenditures for the current year ending June 30, 1956. Again the increase in expenditures is brought about primarily by the State's continued rapid growth. California, with nearly 13,500,000 people in 1956, has added 2,800,000 to its population in the last six years. We have grown almost three times as fast as the Nation. We have had to crowd into six years the solution of problems which other

states on the average could deal with at a leisurely 16-year pace. There is no prospect for any easing of our pace in the years ahead.

A large part of the operating expenditure and capital outlay schedules for the departments and institutions of the State Government have already been reviewed by the Assembly Committee on Ways and Means and the Senate Finance Committee. I know these committees have found the Budget recommendations to have been well justified and based upon prudent and economical criteria.

STATE OPERATIONS

Generally the expenditure proposals for operating the agencies of the State Government follow the policy of maintaining existing levels of expenditures for an interim budget session year with only the adjustments necessary because of growth. They do not ordinarily make provision for new programs or for expansions in existing programs. We cannot, however, stand still in these days of rapid development and advancement and I am recommending orderly and moderate betterment of staffing and services in a few situations where the needs and the benefits are so well demonstrated that it would be contrary to the public interest to defer them. You have given your support quite consistently to such betterments in previous sessions and I am confident you will continue to do so. Among the most important of these are:

Mental Hygiene

The improvement in staffing and medical allotments in our mental hygiene hospitals is a continuation of our attack upon this great public health problem with the objective of providing the best treatment program that modern science puts at our disposal; and we must extend our efforts to find better methods of dealing with it.

Highway Patrol

The Highway Patrol is the other principal department for which a moderate betterment is proposed in our unending war on traffic accidents. This budget provides for an increase of 270 in the patrol force as another orderly step toward the staff needed to cope with present day needs.

University of California and State Colleges

The number of students enrolling in the university and in the state colleges is increasing at rates greatly exceeding the State's population growth. There will be 7,464 more students enrolled in the state colleges in 1956-57 than in the current year, 22 percent more than the number for which we budgeted this year. The University of California must provide for an increase of 2,913 students, which exceeds the estimate on which this year's budget was based by more than 10 percent.

There are a number of other departments for which next year's requirements make increases greater than population growth unavoidable. The Alcoholic Rehabilitation Commission and the State

Scholarship Commission, for example, will be more fully in operation next year requiring quite heavy rates of increase.

The Budget makes provision for an increase in pay for state employees averaging approximately 5 percent in accordance with the recommendation of the Personnel Board to bring state pay rates into line with comparable employment in private industry and other public jurisdictions.

Provision is also made for a more adequate Emergency Fund. The demands of the flood disaster which followed an extraordinarily heavy forest fire season proved that a \$1,000,000 fund is too small to cover possible needs with any margin of safety. I recommend an Emergency Fund of \$2,000,000 of which \$1,000,000 would be available for the ordinary type of emergency allotments and of which \$1,000,000 would be reserved for meeting emergency needs if we should be so unfortunate as to face another disaster.

It will be seen that for all the activities other than the special situations I have just mentioned, the proposed operating expenditures are closely in line with the State's population growth.

I have no doubt that sound reasons can be given for expanding certain programs beyond the proposals in this Budget. There is a limit, however, as to the amount of such expansions which we can prudently finance in any one year.

Forest Protection

The State Board of Forestry and citizens groups especially concerned with the protection of the State's watershed, forest and range land point to the shocking forest fire losses of the past season and urge that a substantial expansion be made in the Division of Forestry's fire fighting facilities. We have made good progress in our state forest protection service in recent years, but we have not yet attained the ultimate goal. Any large increment in this Budget, however, would have been out of keeping with the policies the Legislature has laid down for a budget session year. I fully appreciate the importance of these natural resources to the general economy of the State and I have asked the Director of Natural Resources to make a careful evaluation of the present fire fighting facilities and present a comprehensive plan for remedying deficiencies for consideration when the next budget is being prepared.

CAPITAL OUTLAY

The Budget proposes expenditures for capital outlay amounting to \$357,926,393, composed of the following separate programs: (1) the State Building Program, (2) the State Highway Program, (3) the Beach and Park Program, including provision for the 1960 Winter Olympic Games, (4) the Wild Life Conservation Program, and (5) Flood Control and Water Conservation.

State Building Program

The major construction projects for state buildings are generally in line with the five-year building program submitted last year. It has been necessary, however, to accelerate the construction

of teaching facilities in the state colleges and the University of California because of a much heavier increase in student enrollments than our conservative estimates of the five-year study. On the other hand, we are pleased to find that populations in our correctional institutions and state hospitals are not as great as had been anticipated and certain projects scheduled for 1956-57 can be deferred for at least one year.

The entire program for the five-year period which contemplates outlays aggregating over \$400,000,000 has had careful review and there are included in this Budget only those projects which must be undertaken without delay in order to provide for badly needed additional capacities in our institutions. There are a good many highly desirable and essential projects which must await a time when we are better able to finance them. It is more and more apparent that we must depend upon the two hundred million dollar bond issue which will be before the voters next November to supplement current revenue funds to meet our state building needs.

State Highway Program

The Budget of highway construction and improvements as developed by the State Highway Commission proposes outlays amounting to \$237,162,456 for 1956-57, which is a slight increase over the present level of expenditures. It is unfortunate that some \$11,000,000 which otherwise would be available for this purpose must be devoted to repairing flood damage on our State Highway System. If, however, the Congress approves the President's program for augmented federal aid to the national highway system, we can anticipate a considerable acceleration in meeting deficiencies in this State.

Beach and Park Program

Since the 1955 Session, the State Park Commission and the staff of the Division of Beaches and Parks have worked diligently on a comprehensive and sound program of beach and park acquisition and development. This has been a most difficult undertaking fraught with many perplexing policy questions and problems in evaluating a great many proposals. The commission has made every effort to adopt a well-balanced program with due regard to geographic location and to the scenic, historical and recreational aspects of the State Beach and Park System. It is, of course, impossible to meet fully the desires of all groups and of all localities. It is impossible too within the limits of time and the available technical staff to make precise cost estimates. There has been the very great difficulty in distinguishing between a facility which has the qualifications of a state park and one which is merely local or regional in character. While questions undoubtedly will be raised as to some of the projects, it is my judgment that the commission overall has developed a good program under difficult conditions and I am submitting it to you without change.

I recommend that the beach and park acquisition program amounting to \$25,606,045 be adopted in full in this Budget. We must recognize that a program of this magnitude cannot be ac-

completed in a single fiscal year. Therefore I recommend that the appropriation for acquisitions be given a five-year period of availability. It is estimated that not more than \$7,500,000 would be expended during 1956-57.

In addition to the above beach and park acquisitions, the Budget proposes more than five million dollars for development and improvements of new and existing parks, extension of the riders and hikers trails, a beginning of a new roadside rest program, and a historic ship project at San Francisco. A further feature is a recommended appropriation of \$1,000,000 for the State Park System costs involved in the Redwood Highway relocation.

The problems concerning a maritime museum and park in San Francisco have not been solved. Since it is quite possible that a state beach or park facility in this general area will be required, it is recommended that a reserve of \$2,000,000 be set aside in the State Beach Fund subject to future action by the Park Commission and the Legislature.

In order to afford additional assurance that the beach and park acquisition program will be carried out with every safeguard I recommend that the property purchasing transactions be made subject to review by the State Public Works Board.

1960 Winter Olympics

The California Olympic Commission has recommended that the initial \$1,000,000 appropriation made by the Legislature last year to finance the 1960 Winter Olympics, which will take place in Squaw Valley, be augmented to the extent of \$4,000,000, and there has been included in the Budget provision for this additional appropriation payable, as was the initial appropriation, from the State Park Fund.

It is my belief that the 1960 Winter Olympics will afford California an opportunity to contribute to international goodwill and understanding and that this will greatly enhance California's prestige. It will likewise advance this State's place in the field of winter sports, and the upbuilding of this important industry as a part of California's economy.

Two engineering firms employed by the California Olympic Commission have reported that Squaw Valley can be developed into a facility to accommodate the Winter Olympics at an outside cost of \$5,000,000 and I am advised that a substantial portion of this money can be recovered out of revenues derived from admissions, television rights and the sale or lease of the physical facilities after the games are concluded. I concur in the recommendation of the California Olympic Commission and urge the appropriation of the necessary funds to assure the success of this internationally important event.

Beach and Park Financing

All of the five-year Beach and Park Program, as well as the 1960 Winter Olympics, can be financed from the accumulated and prospective revenues derived from the beach and park share

of the receipts from state lands, primarily from drilling operations in the state tidelands. In fact, if there should be a marked expansion of tideland drilling operations, with heavy bonus payments as a result of the 1955 leasing legislation, the present formula dedicating 70 percent of these proceeds for beach and park purposes could conceivably provide much more money than prudently could be used for this purpose, and I am recommending that a change in the formula be made so as to continue the amounts for beach and park purposes at approximately the present levels.

Chapter 1422, Statutes of 1945, appropriated \$15,000,000 from the General Fund for acquiring additional state parks and state beaches, with the requirement that the amounts paid from state funds be matched on an equal basis. It is now apparent that the rigid matching requirement is no longer desirable; therefore the program proposed in this Budget does not require matching, although it should be made clear that donations of funds or properties to augment state outlays for certain state beach and park purposes would still be welcome and would still serve a good purpose in advancing the State Park System. Since matching should no longer be continued as an absolute requirement, and since there are ample funds from the tideland royalties to finance the program, and since the General Fund is hard pressed to meet its obligations, this Budget includes a recommendation that the unencumbered amounts remaining in the appropriation made by Chapter 1422 of 1945, estimated at approximately \$3,200,000 as of July 1, 1956, be reverted to the General Fund.

Wild Life Conservation Program

The Wild Life Conservation Program composed of projects approved by the Wild Life Conservation Board to be financed from the continuing appropriation from the General Fund's share of the Horse Race License fees and construction projects for the Department of Fish and Game financed from the Fish and Game Fund are continued at substantially the same level as in the current fiscal year.

Flood Control

The Budget proposes an appropriation from the General Fund of \$2,300,000 for financing the State's share of works scheduled for 1956-57 in the Sacramento River Flood Control Project and the San Joaquin River Flood Control Project. In addition, under Local Assistance, there is an allocation of \$13,340,500 to the Flood Control Districts in Los Angeles, Sonoma, Riverside, San Bernardino and Contra Costa Counties.

Feather River Project

The December floods demonstrated all too forcefully the great urgency for commencing the Feather River Project at the earliest possible moment. This project now has been thoroughly studied and reviewed. It has been found engineeringly and financially feasible by eminently competent authorities both in and outside the state service.

The Water Project Authority at its recent meeting adopted a resolution recommending that we immediately devote \$26,832,000 of state funds to begin the Feather River Project and its related San Joaquin Delta Diversion Project. I am in hearty approval with this recommendation and am implementing it in this Budget. You will find an item to appropriate \$5,160,000 for surveys and construction plans, for acquisition of both the Oroville and San Luis dam sites and for rights of way for the relocation of the state highway and Western Pacific Railroad. These are the initial steps which must be accomplished before any further works can be started.

The adoption of this recommended appropriation will be a commitment by the State of California to proceed without delay with the construction work of relocating the railroad and the highway. It will constitute a further commitment to follow through promptly on the construction of the Oroville Reservoir itself as the next step, involving an outlay of some \$400,000,000. It is probable that contracts could not be let for the relocation construction until July of 1957, although there is some possibility under the most favorable conditions of accelerating that date by a few weeks. We will be better informed as to progress when you reconvene next January, and if at that time it appears that construction funds should be made available for letting contracts before the expiration of the fiscal year, I shall recommend the appropriation of the construction money with an urgency clause so as to make it available well within the time for meeting the earliest possible construction dates.

Between now and your next session we should have information as to what funds we can count upon from the Federal Government and be fully prepared to proceed with action toward early completion of the entire project.

LOCAL ASSISTANCE

The State's financial aid to the Public School System will amount to \$508,034,267 in 1956-57, an increase of more than \$32,800,000 over the current year. This continues to be the largest single item of expenditure from general tax sources; it also continues to be the item involving the heaviest increase. Moreover, the projections of school attendance show a continuing rate of growth in this item for many years ahead.

I have already mentioned the heavy outlay for state aid to local flood control districts. The allocation of \$13,340,500 for 1956-57 is an increase of almost \$8,500,000 over the current year's allotment.

Subventions for social welfare, public health and other purposes are continuing at rates more nearly in line with the general population growth.

Altogether, including both general and special funds, the State's obligations for Local Assistance will amount to \$913,845,918, or 52.6 percent of the total budgeted expenditures.

STATE FISCAL OUTLOOK

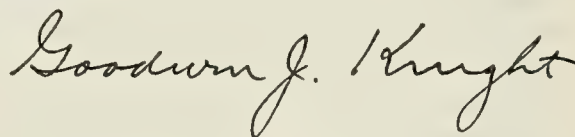

While we may take satisfaction in the fact that our state finances are in a sound current condition, with moderate reserves on which to draw to help finance the Budget for the ensuing fiscal year, we must not be lulled into undue complacency as to our future financial problems. You will observe that the proposed expenditures for the next fiscal year exceed the revenues of that year by more than \$120,000,000 from all funds, that in respect to revenues and expenditures from the General Fund and its related reserve funds, the deficiency is in excess of \$104,000,000. Unless we have a substantial further expansion in our economy we still face a day of reckoning when adjustments in either the revenue structure or the basic expenditure program must be made to attain a balanced budget.

Any informed person who makes a realistic appraisal of the State's obligations and expenditure requirements will find little prospect of a substantial reduction in expenditures. Heavy increases in the costs of education are inevitable as our school and college age group continues to increase. To a lesser degree, the outlays for welfare, corrections, and mental hygiene will continue to grow. By one means or another our water development program must be financed and we must be prepared to meet heavy outlays from state funds. As our fiscal problems become more difficult the need for exercising strict economy in controlling expenditures is all the more apparent. I submit that this administration has shown a good record in this regard and point to the fact that expenditures have been held to amounts well below the amounts appropriated.

Sound and prudent fiscal planning and management are most essential to continue a forward-looking State Government serving the needs of a growing population with a maximum contribution to its welfare and a minimum burden upon its economy. I welcome the assistance of all public spirited groups and citizens in formulating our future fiscal plans.

Please be assured of my full cooperation in your consideration of the State's budget problems.

Respectfully submitted,

A handwritten signature in cursive script, reading "Goodwin J. Knight". The signature is written in dark ink and is positioned above the printed name of the Governor.

Governor

March 5, 1956

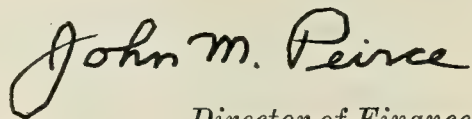

Letter of Transmittal

HONORABLE GOODWIN J. KNIGHT, *Governor of California*
State Capitol, Sacramento, California

DEAR GOVERNOR KNIGHT: Transmitted herewith are the summary tables and detailed statements for the Budget of the State of California for the Fiscal Year July 1, 1956, to June 30, 1957, compiled in conformity with your policies and instructions.

Again I wish to express appreciation for the cooperation received from department heads and staff members in the work of compiling this budget document.

Respectfully yours,

Director of Finance

March 5, 1956

Summary Statements

- Schedule 1. General Budget Summary.

Budget Revenue Estimates

State revenue receipts during the 1956-57 Fiscal Year are estimated at \$1,614,885,351, an increase of \$52,620,970 over the indicated total for the current period. This forecast is based upon a moderately optimistic appraisal of probable economic trends in 1956, with personal income, trade, and business expansion carried to new record volumes. In general, however, the margins of gain anticipated for the present year are modest compared with the booming advances achieved in 1955. There are uncertainties and shadows in the present outlook, such as exist at almost any time, but it is believed these negative factors will be nullified by the underlying forces of strength, technological progress, confidence, and the strong demand for higher living standards.

A total of \$1,013,837,000,* the largest sum in the State's history, will accrue to the State General Fund under the estimates here presented, an increase of \$28,081,000 over the amount expected during the current year. Expansion of the sales tax base, chiefly as a result of larger personal incomes and slightly higher prices, is the principal factor in this revenue gain. Corporate profits are expected to remain fairly stable at current levels. Personal income tax receipts are expected to increase as revenue from this source more fully reflects the rise in taxable incomes during 1955 and the further gain anticipated for the current year. Of the important revenue sources, only the distilled spirits excise tax is expected to show a decline. The nonrecurring floor tax on liquor inventories levied in July, 1955, as part of the liquor tax rate adjustment approved at the last legislative session, added \$3,100,000 to the current year's revenue.

Aggregate receipts for the various special funds are projected at \$601,048,000 for the coming fiscal year, a gain of \$24,540,000 over current figures and also a record volume. Virtually all of this gain is attributable to the increase in ownership and use of motor vehicles. With vehicle registrations up from 6,119,000 at the end of 1954 to 6,650,000 last year and 7,400,000 expected by the close of 1957, receipts from fuel taxes, registration fees, and the "in lieu" tax¹ have risen rapidly and may be expected to attain new heights during the coming year.

Revenues from major sources in the three fiscal periods covered by this budget are shown in the following summary table:

COMPARATIVE REVENUE (Thousands of dollars)

State revenue from virtually all sources during 1955-56 will be substantially above the amount estimated a year ago. A recovery from the 1953-54 recession was anticipated in the projections made last year, with record breaking activity in many sectors of the economy, but the strength of this movement was grossly underestimated. Sparked by intense demand for motor vehicles, a continued high level of building activity and tremendous industrial expansion, national production of goods and services reached \$387.2 billion in 1955, against a projected \$366 billion underlying State revenue computations. Personal income totaled \$303.3 billion, compared with an estimated \$292 billion, and personal spending advanced as a result of both higher incomes and greater use of credit.

California participated fully in these gains, and our progress was compounded by a sustained large-scale population growth. With State revenue yields tied closely to economic activity and population by the nature of California's tax system, receipts began to exceed the expectations by significant amounts in the first quarter of the current fiscal year. These broad gauged economic changes are reflected in the revision

* This and subsequent amounts are rounded to the nearest thousand dollars.

¹ Vehicle license fee levied in lieu of local property taxes on motor vehicles.

of 1955-56 revenues. A comparison of the original and revised estimates for principal sources is shown below:

	1955-56 revenue receipts (millions)			
	Original estimate	Revised estimate	Change Amount	Change Percent
Retail sales and use taxes	\$484.7	\$564.0	\$79.3	16.4
Bank and corporation income taxes	131.6	151.0	19.4	14.7

Totals	\$1,362.2	\$1,562.3	\$200.1	14.7

ECONOMIC OUTLOOK—1956

Fundamentally, the questions to be answered in estimating budget revenues for 1956-57 are: (1) will the rapid business upswing shown last year be continued and, if so, to what level? (2) If not, will the economy remain relatively stable, or (3) will it subside and to what degree?

There are several reasons for discounting a pattern of continued rapid growth. In the first place, the Nation's industrial machine was operating at near capacity rate toward the close of 1955. Some additions to capacity will be made in the present year, but probably not enough to provide another 7 percent increase in aggregate production of goods and services. Second, a considerable part of last year's increase arose from an unusual expansion in credit—an expansion which caused the Federal Reserve System to tighten the money supply and the Federal Government to impose mortgage restrictions. A further sizable increase in credit transactions would undoubtedly result in additional and more stringent controls in the interest of sound financial management. Third, somewhat more than \$6 billion of the growth in product between 1954 and 1955 occurred as a result of a reversal of inventory policy. Whereas business firms in general liquidated inventories in 1954, they added to stocks last year. Although some further inventory building is probable in 1956, particularly if sales volumes remain high, it is not likely that this element will influence production to the same extent as in 1955. Finally, the unparalleled motor vehicle production and near-record home building are unlikely to stretch into 1956. While both industries are expected to perform very well, they will not be the stimulants to further advances which they were through last year.

Though it is doubtful that business activity will repeat the remarkable ascent of last year, some further increase can be reasonably expected. A number of basic factors point to this conclusion rather than to stability or recession. First, is the strong tide of population growth. The Nation is growing at the rate of nearly 2 percent a year and the State at nearly twice that speed. These trends will not be halted or reversed in the immediate future.

The last few years have brought far-reaching technological developments in virtually every segment of the economy—new and more efficient production methods, new products, and new uses for old products. New competitive forces are being unleashed to permeate industry and prevent stagnation and complacency. As a result of both growth and technical progress, industry is planning to spend 13 percent more

in capital investment during 1956 than in 1955² and nonresidential construction is expected to rise 14 percent, offsetting the prospective drop in residential building and carrying total construction to a new high this year.³

Personal income was at a record level last year, both in the aggregate and per capita. More important, however, the improvement in income was accompanied by relative price stability, and real income per capita stood at an all-time high. Thus, consumers were in an excellent position to gratify to a greater extent than ever before their basic desire for an improved standard of living. There will be further salary and wage adjustments this year as a result of the scheduled increase in minimum wage rate from 75 cents to \$1 an hour on March 1, automatic wage increases, and current year wage rate negotiations. In addition, there is some possibility that consumer purchasing power may be augmented by a reduction in the federal personal income tax, especially as this levy relates to lower income groups.

Led by the demand for metals and machinery, unfilled orders in the hands of manufacturers at the end of December were 19.3 percent above the corresponding date of the previous year, and productive capacity of basic metals is booked through the first quarter of 1956. Primary industries, therefore, will get off to an excellent start in the current year. With the prospect of an increase in heavy construction and in purchases of producers' equipment, there is a promise of continued large scale production, despite some decline in the demand for metals by the motor vehicle industry and residential builders.

Governmental expenditures, which accounted for approximately 20 percent of the nation's total production of goods and services last year, will increase moderately in 1956. Federal expenditures will be greater, and outlays by state and local governments will continue the strong upward trend under the pressure of population growth and the demand for new services and new facilities which have characterized the postwar period.

Price levels are likely to be slightly higher this year, reflecting the recent increases in cost of raw materials (other than foodstuffs), the rising wholesale prices of durable goods, and the further increases in wage scales anticipated this year. In fact, this upward trend was evident in 1955, and the stability of general price indexes was due chiefly to the decline in cost of food items. Rising prices, particularly at the retail level, are especially important in appraising revenue prospects; of the State's aggregate receipts, more than one-third comes from the retail sales tax.

Finally, there must be listed among the plus factors the increasing emphasis upon sound economic management both by business and government. The nation's economy is subjected continuously to close scrutiny, with the result that weaknesses are discovered early and remedial action is started. If basically adverse trends set in during 1956, counteracting adjustments will be made in credit, tax, and purchasing policies in an effort to maintain high level production and employment. While such action may not guarantee stability and growth, it is a posi-

² *Business Week*, Nov. 12, 1955, page 27.

³ *Construction Review*, November, 1955, page 11.

tive force to be considered in appraising the current outlook.

Among the uncertainties in the pattern of 1956 are those inevitably accompanying a presidential election year—not only the uncertainties regarding platforms and candidates, but the uncertainties as to individual and business reactions as the year's political events unfold. Since none of these questions can be answered, political matters must be listed as neutral factors in this evaluation.

Unanswerable, also, are the questions concerning international affairs. The situation which appeared so hopeful at midsummer last year has returned to contention and confusion. Though no major conflict is expected, minor discord and disruption are possible in widely scattered areas of the world. Should any of these breed a conflagration, the entire outlook would be open to reappraisal.

Among the weak spots to be listed in the current outlook are the farm situation, the prospective decline in motor vehicle production, and the anticipated drop in residential building. Agricultural experts are fairly well agreed that the problem of crop surpluses cannot be solved in one year. Hence, farm income this year will probably be no greater than in 1955. Though this basic industry remains weak, it is unlikely the decline which occurred in 1955 will be repeated this year. There is, of course, the hope that federal action on this problem may be prompt and effective enough to produce an immediate improvement in the plight of the Nation's farmers.

The consensus regarding automobile production seems to indicate a reduction of 12 to 15 percent from last year's peak volume, though there is a wide difference of individual opinions, ranging from those who anticipate a drop of one-third to those who expect a repetition of 1955 performance. Assuming a 15 percent drop in physical volume, the decline in dollar value may be considerably less. The wholesale price of passenger cars was 4 percent higher at the time new models were introduced last year than in corresponding months of 1954. In addition, there is a growing tendency to equip new vehicles with optional items which add to the final cost. Moreover, it is probable that new models will be introduced earlier this year, thus concentrating a larger proportion of the initial purchases in 1956 and moving the whole volume of motor vehicle business forward one step. Hence, a 5 percent reduction in sales value may be sufficient allowance for change in this sector.

Similarly, there seems to be general agreement that residential building will decline from 1,330,000 units last year to approximately 1,200,000 in 1956. Here, again, an advance in price coupled with a tendency toward custom built homes may mitigate the decline in dollar volume, and the aggregate value of residential construction may compare favorably with the \$16.6 billion of last year.⁴

The most convenient method of summarizing these economic factors is in terms of the gross national product—the aggregate value of goods and services produced by the economy. Comprised in this total are:

(1) personal consumption expenditures for durable

goods, nondurables, and services, i.e. purchases of cars, appliances, clothing, food, professional services, housing, and the other items which make up a household budget. (2) Gross private domestic investment—the purchases of homes, construction of industrial and business establishments, purchases of producers' equipment, and change in business inventories. (3) Net foreign investment—an item of minor importance currently. And (4) government purchases of goods and services—aggregate expenditures by federal, state, and local agencies. Gross national product in terms of these broad segments, and related data for California, are summarized in the following table. Amounts for 1955 are preliminary and for 1956 are projections made to establish the pattern for State budget revenue estimates.

ECONOMIC DATA

(Dollar amounts in billions)

Amounts are estimated by the State Department of Finance. Source: Data for 1954 and 1955 compiled by Federal and State agencies; 1956 estimated by State Department of Finance, Budget Division.

California Situation

Gains registered in this State last year were substantially better than those shown for the Nation in several basic factors. California's rate of population growth was approximately twice that of the Country between 1954 and 1955. The rate of gain in average employment was fractionally greater and the proportionate decline in unemployment considerably more. California's percentage growth in aggregate personal income was nearly twice that of the Nation, and this was reflected in a corresponding comparative gain in retail trade. Broader advances were recorded in the construction field, judging from percentage increases in the number employed, cement shipments, and value of permits issued. Only in corporate earnings did California's rate of gain fall behind that of the Nation. However, corporate income attributed to California increased during 1954, compared with the decline for

⁴ The joint estimate of the U.S. Department of Labor and U.S. Department of Commerce places the value of residential building (nonfarm) in 1956 at \$16.2 billion, as compared with \$16.34 billion in 1955. *Construction Review*, Nov. 1955, page 11.

the Nation; and over the two-year period, 1953-55, California corporations registered a greater than average percentage gain.

This comparatively better showing by California should continue in 1956. The long-term movement of population into this State will supplement the natural increase. Diversity of the State's industrial pattern should better enable this State to ride out rolling adjustments in particular industries. The growing western market will continue to attract manufacturing establishments to this region, and the newer, growth industries—electronics, chemicals, apparel, production of television programs—will broaden still further our industrial pattern. In the field of agriculture, California's important specialty crops are not depressed by market surpluses, and our position as a food center is continually being strengthened by progress in the processing and preserving industries. All told, the relatively favorable 1956 business outlook for the Nation holds even greater promise for this State.

Personal income of California residents last year is estimated at \$29.6 billion, an increase of \$2.6 billion over the total reported for 1954. Under the pattern of economic conditions indicated for the current year, this total may be expected to rise to a new record of \$31.3 billion. Federal and state income taxes will take approximately \$3.6 billion, leaving disposable income of \$27.7 billion. Savings are likely to increase from last year's unusually low level, while the increase in outstanding credit, if any, will be considerably below the record established in 1955. Consequently, the aggregate volume of personal spending is estimated at \$26.9 billion, compared with an indicated \$26.0 billion in 1955 and \$22.5 billion in 1954.

Sales Tax—\$580,000,000

Sales tax revenue is expected to rise moderately during the budget year under the assumption of sustained economic activity outlined earlier. Total sales tax, use tax, and permit fee collections have been estimated at \$580,000,000 for 1956-57, compared with \$564,000,000 apparent for the current fiscal year and \$492,917,000 actually received during the year ending June 30, 1955.

Taxable sales are expected to follow the rising trend of income. The 6 percent increase in income, however, probably will not generate an increase of the same magnitude in taxable sales. Californians made extensive use of credit in their purchases during 1955, and as a result outstanding consumer credit rose more than three-quarters of a billion dollars in this State during the year. An increase of only about one-third this record is anticipated for 1956.

Other considerations underlying the revenue estimates of this tax are: (1) a reduced volume of motor vehicle sales, (2) a relatively small rise in construction expenditures with an increase in nonresidential building offsetting a probable decline in housing, (3) substantially greater purchases of industrial equipment items, and (4) a normal purchase pattern of consumer nondurable goods and consumer durables (other than automobiles) commensurate with the projected population growth and price rises.

Californians are expected to purchase about 10 percent fewer automobiles in 1956, but the dollar volume

of expenditures on vehicles is not expected to decline more than 5 percent from the record level of 1955. Prices of current models are about 5 percent higher than a year ago, and no reductions are anticipated for the remainder of the model year or on 1957 vehicles. Dealers are likely to continue the current practice of giving high trade-in allowances rather than cash discounts, thus preserving the level upon which the sales tax is based. In addition, the trend toward more optional equipment is likely to continue. A minor increase in dollar sales of replacement parts and supplies has been assumed. Total taxable sales of motor vehicles and vehicle supplies and parts have been forecast at 3.7 percent below corresponding amounts in 1955.

Fewer dwelling unit starts are anticipated for 1956, but rising construction costs and the trend to larger units should hold the decline in dollar volume to modest proportions. On the other hand, greater outlays are expected in industrial and commercial building which should more than offset the decline in home construction. In total, expenditures for building materials and supplies are expected to rise about 3.3 percent above last year.

California will undoubtedly share in the large volume of expenditures for plant and equipment forecast for the current year. Available reports on proposed plant expansion in 1956 indicate a greater gain over the previous year for this State than for the Nation. A moderate increase should also be recorded in supplies, replacement parts, and other items consumed in business operations. Total expenditures for producers' equipment and supplies are expected to exceed last year's record by slightly over 9 percent.

Purchases of consumer nondurable goods should rise about 4.5 percent, generally paralleling population growth and the slight price increases anticipated during the current year. Purchases of consumer durables (excluding automobiles) are expected to expand at almost the same rate. Although the decline in the number of new dwelling units foreseen for 1956 will have some depressing effect upon purchases of furniture and appliances, this decline in demand for original equipment should be offset by a stronger demand for replacements and by the desire for an improved standard of living.

Estimated sales volumes for 1956 compared with apparent sales in 1955 and actual amounts for 1954, summarized in five broad groups, are given below:

	(Millions of dollars)			Percent change from 1955
	Actual 1954	Estimated 1955 *	Estimated 1956	
Nondurables	\$6,304	\$6,912	\$7,225	4.5
Consumer durables †	1,459	1,688	1,763	4.4
Motor vehicles and motor vehicle sup- plies and parts....	2,987	4,183	4,027	-3.7
Building materials....	1,773	2,141	2,212	3.3
Producers' equipment and supplies.....	2,772	3,161	3,453	9.2
Total.....	\$15,295	\$18,085	\$18,680	3.3

* Actual for first three calendar quarters and estimated for the fourth.

† Other than motor vehicles and building materials.

As in previous years, another method also has been used to estimate the volume of transactions subject to sales tax during the period covered by this budget.

This employs the average relationship between taxable sales and the estimated spendable resources of civilians in California during the 20 years 1935 through 1954. Based on this relationship, the \$25.7 billion of spendable resources estimated for 1956 should produce taxable transactions amounting to \$18.7 billion. This compares very favorably with taxable sales estimated by analysis of the industry groups comprising the sales tax base.

Total taxable sales forecast for 1956 have been allocated by quarters, assuming a normal seasonal pattern with an allowance made for an early Easter in the current year. Receipts from the sales tax audit program and other miscellaneous assessments have been estimated to total \$13,000,000, compared with \$12,400,000 in 1955. Sales tax on gasoline tax refunds (fuel consumed off the highways) has been estimated at \$1,200,000 compared with the \$1,251,000 withheld during the calendar year 1955.⁵

Bank and Corporation Tax—\$151,500,000

Corporate income subject to the bank and corporation tax reached \$3,325,000,000 in 1955, up 6.7 percent from the corresponding total of the previous year, according to data provided by 363 sample corporations which make up more than half the tax base. Among the 69 industry groups comprised in this survey, 46 reported increases over 1954, while 23 showed no change or declines. Among those scoring the largest improvement were manufacturing, telephone and telegraph, and gas and electric utilities; the important groups with lower profits last year included oil production, banking, nonresidential construction, agriculture, rail and highway transportation, retail food stores, and motion pictures.

The 6.7 percent increase over 1954 reported by California firms compares with an estimated 27 percent gain in profits for corporations in the Nation. Lest this be taken as an unfavorable comparison, it must be pointed out that California corporations showed an increase in aggregate earnings during 1954 while the national earning trend was down. Over the two-year period from 1953 to 1955, California firms registered an 18.9 percent advance, as against 12.8 percent nationally.

The following table compares the percentage change in corporate profits before taxes in 1955 over 1954 for both the United States and California by major industries:

Percentage Change in Corporate Profits Before Taxes
1955 Compared to 1954 by Major Industry

	United States *	California
Mining	+33.0	-7.2
Manufacturing	+35.1	+13.3
Transportation	+57.1	-15.3
Communications and public utilities....	+15.4	+23.4
All other industries.....	+23.6	+0.7
Total all industries.....	+27.0	+6.7

* Based on changes first nine months of 1955 compared to first nine months of 1954.

⁵ In preparing revenue estimates, calendar year data are used almost exclusively in order to take full advantage of such related material as census reports, personal income, and other economic data. All estimates include assessments of additional tax, interest, and penalties as a result of the audit programs of tax administering agencies. Calendar year estimates are apportioned to fiscal years on the basis of ratios during recent years.

In preparing estimates of earnings for 1956, it was assumed that the loss in income experienced by banks due to security operations will be halved, while their net earnings on other operations will increase approximately 3 percent, compared to an 11 percent gain in 1955. In total, therefore, income from banking operations in 1956 is assumed to exceed 1955 earnings by about 10 percent. Income of public utility and communication enterprises should continue upward as greater demands for these services by industry and a growing population are satisfied. Railroads, in 1956, are expected to reverse the downward trend of the last few years and show a slight improvement. Net profits of other industries, in the aggregate, may decline slightly, primarily as a result of more intense competition, higher operating costs, and curtailed activity in the residential construction and motor vehicle fields.

In total, corporate profits subject to the California bank and corporation tax in 1956 are expected to total \$3,340,000,000—slightly above the record level of 1955. Collections from the audit program should amount to \$9,000,000 in both 1956 and 1957 compared with \$8,960,000 for 1955. The second installment of the bank tax, due in January 1957, is estimated at \$11,250,000. After adjustments and distribution on a fiscal year basis, revenue from this source in the budget year is estimated at \$151,500,000, against \$151,000,000 currently and \$133,661,000 in 1954-55.†

Personal Income Tax—\$126,300,000

Income received by Californians during the calendar years 1954, 1955, and 1956 largely determine income tax collections for the Fiscal Years 1955-56 and 1956-57. Revenue estimates, therefore, have been based upon the recently inaugurated personal income series, by states, published by the U. S. Department of Commerce for 1954, and estimated personal income of California residents for 1955 and 1956, prepared by the Department of Finance. The estimate of personal income for 1955 was based upon available data relating to wage and salary disbursements, proprietors' income, property income, transfer payments, and contributions made for social insurance. Income for 1956 was estimated in accordance with the general economic outlook discussed previously.

Income to California residents for the three years under consideration is shown in the following table:

	Personal Income (Millions of dollars)		
	1954	1955	1956
Wage and salary disbursements	\$18,383	\$20,345	\$21,600
Proprietors' income.....	3,559	3,836	3,900
Property income (dividends, interest, and rents).....	3,481	3,674	3,840
Other income.....	2,110	2,303	2,600
Less: Contributions for social insurance.....	507	583	640
Totals	\$27,026	\$29,575	\$31,300

† The supplementary corporation income tax is combined with the bank and corporation franchise tax for purposes of revenue estimating and reporting in this budget. The two levies are identical in essential features. The corporation income tax is estimated to yield \$1,200,000 in 1955-56 and \$1,000,000 in 1956-57. Actual receipts last year were \$885,000.

Income from wages and salaries accrues primarily to the lower and middle income groups, proprietors' income to the upper middle brackets, and property income to the higher income group. Consequently, the source of income as well as the magnitude is of importance in determining the effect of income upon tax receipts. Ten years of relationship between tax receipts attributable to wage and salary disbursements, proprietors' income, dividends, interest, and rental income, and their counterparts in the personal income series was used to estimate collections from each of the above groups. Based upon these relationships and the estimates of personal income shown above, tax liability was estimated for each of these sources. On this basis, approximately 90 percent of the current year self-assessed tax was determined.

The remaining 10 percent of tax liability is generated by two income sources having no such relationship upon which to estimate self-assessments. These are net capital gains and miscellaneous income. The former has no counterpart in the income series while the latter, composed primarily of income from fiduciaries and alimony payments, has no relationship with the miscellaneous income of the personal income series. It was assumed that capital gains reported on 1955 returns would be substantially higher than in preceding years as a result of the profit taking on security holdings immediately following the news of the President's illness. Price increases of real property should have an added effect on this type of income. Capital gains are expected to decline in 1956, assuming no repetition of the profit taking of the previous year. However, gains from transactions in real property should be fairly constant. This sector is highly unpredictable and directional fluctuations in opposition to income trends are not uncommon. Tax receipts from miscellaneous income have been relatively stable in the last few years, and revenue from this source has been held at current levels.

Collections resulting from office assessments are expected to be greater by \$500,000 in 1956-57 than in the current year as a result of enforcement activities. Action by the 1955 Legislature bringing many of the sections of the personal income tax law into conformity with federal provisions is not expected to influence collections.

The personal income tax has been estimated to yield \$126,300,000 during 1956-57 compared with \$120,900,000 in 1955-56. Actual receipts during 1954-55 totaled \$106,738,000.

Insurance Tax—\$41,350,000

Revenue from the 2.35 percent tax on insurance companies during 1956-57 will be based upon gross premiums written last calendar year. Following the method used successfully in previous estimates, 133 major insurers were requested to provide data on the percentage change in the dollar volume of business in 1955 compared with 1954, by types of insurance. Replies from the entire sample show that most major lines increased last year, led by substantial gains in life and disability insurance. However, rate reductions on automobile insurance held premiums for this type of coverage to a modest 2.6 percent advance over 1954. Workmen's compensation premiums,

which account for one-twelfth of the base, remained at the 1954 level despite the increase in employment.

It is estimated that dividends to policyholders continued the long-term upward trend, and the deduction allowed for property taxes paid on principal office buildings in California also rose moderately. As a result, insurance tax payments in 1956-57 are estimated at \$41,350,000, an increase of 5.7 percent over the \$39,104,000 shown for the present year and 7.4 percent over actual receipts of \$38,501,000 during 1954-55.

Inheritance and Gift Taxes—\$36,850,000

Inheritance and gift tax receipts depend primarily upon the number and size of bequests and upon the relationship between decedent or donor and the beneficiary. However, general business conditions and price levels also influence the volume of collections. The higher security values prevailing during recent months are being reflected in current receipts and will continue to exercise an influence for the remainder of the current fiscal year at least. Inheritance tax collections are currently running at an annual rate of more than \$2.64 per capita and, allowing for population growth, it seems reasonable to assume total collections of \$35,000,000 during 1956-57. Inheritance tax collections in 1954-55 were \$28,429,000, and a total of \$32,500,000 is estimated for the current fiscal year.

Receipts from the gift tax are estimated at \$1,850,000 in the budget year, compared with \$1,800,000 in the current period and \$1,821,000 during 1954-55.

Alcoholic Beverage Taxes—\$36,150,000

The increase effected last year in the excise tax rate on distilled spirits is clearly evident in the estimates of revenue from this source during the current year and next. The 1955 adjustment carried this levy from 80 cents to \$1.50 per gallon—median rate for the Country as a whole. As a result, receipts from this tax are estimated at \$31,750,000 for next year, compared with \$33,000,000 in 1955-56 and \$16,108,000 in the last year under the old tax rate. The current figure, \$33,000,000, is abnormal in two respects. It includes receipts from the 70-cent per gallon "floor tax" on dealers' inventories July 1, 1955, imposed at the time the excise tax increase became effective. This supplementary levy produced approximately \$3,100,000 in current year income. Second, so far as revenue computations are concerned, the \$1.50 rate will not have been in effect for the full twelve months of 1955-56. Receipts during July of last year represented tax on sales made during June and subject to the 80 cent rate. Excluding the floor tax, receipts this year will be somewhat below the annual volume of revenue to be expected at the new tax rate.

Distilled spirits consumption continues to increase each year—from a total of 19,704,000 gallons in 1954 to 20,954,000 gallons last calendar year. In terms of the adult population, per capita consumption has shown a slight down trend during the past several years. In the twelve months ending last December 31, taxable consumption amounted to 2.53 gallons per adult, and this ratio has been projected at 2.48 gallons this calendar year and 2.45 for 1957, making totals

of 21,100,000 and 21,300,000 gallons, respectively, in these two periods.

The excise tax on beer and wine is expected to increase slightly over the \$4,172,000 received in 1954-55. After varying only a minor fraction in four years, taxable beer consumption per adult dropped 2.5 percent in 1954 to 21.89 gallons per capita.⁶ This relationship has been estimated at 22.2 gallons in both 1956 and 1957. Dry wine consumption, which has followed a gradual upward trend for several years, is expected to reach 1.26 gallons per adult in 1956 and 1.32 in 1957. Use of sweet wine, which has varied widely in relation to adult population, has been held at approximately 1.9 gallons in projecting budget revenue from this source. Receipts from the tax on each of the principal types of beverages are:

	(Thousands of dollars)		
	Actual 1954-55	Estimated 1955-56	Estimated 1956-57
Distilled spirits-----	\$16,108	\$33,000	\$31,750
Beer-----		3,735	3,800
Sweet wine-----	4,172	315	325
Dry wine-----		100	115
Sparkling wine-----		150	160
Totals -----	\$20,280	\$37,300	\$36,150

Private Car Tax—\$1,350,000

Railroad cars owned by companies other than railroads are taxed by the State in lieu of local levies on this type of property. The tax is based upon assessed value and the number of days each unit of equipment is located in California during the year. The rate imposed is the average tax on real and personal property throughout the State in the preceding fiscal year. On this basis, an assessment of \$1,301,000 was made for 1954-55, including minor amounts of interest and penalties. The average values per unit have been rising slowly in the last five years and this slight up-trend will probably continue. The average tax rate will be \$5.16 per \$100 of value—approximately 7 cents more than last year. This pattern of higher values at increased rates indicates total receipts of \$1,331,000 in 1955-56 and \$1,350,000 in 1956-57.

Other General Fund Revenue—\$40,337,000

For the most part, other revenue to the General Fund represents such nontax items as receipts from the care of patients at state hospitals, oil and mineral royalties, interest income, and departmental charges of various types. In addition, there is included the General Fund shares of liquor license fees, horse racing revenue, and motor vehicle license fees, shown with major taxes and fees in Schedule 2. These account for \$8,801,000, or approximately one-fifth of the total treated as "other revenue."

Departmental revenue available for general use has shown a gradual increase over the years, and will continue to grow in 1956-57. Miscellaneous receipts drop sharply from \$32,405,000 in 1954-55 to \$13,898,000 expected in 1955-56, due almost entirely to the fact that the former amount includes \$19,419,000 released to the General Fund from oil royalty revenue impounded during the controversy with the Federal

Government over ownership of the tidelands. Miscellaneous revenue in 1956-57 is estimated at \$15,163,000.

The total of \$40,337,000 shown as other General Fund revenue anticipated in 1956-57, may be compared with \$37,821,000 in the current fiscal year and \$55,474,000 in 1954-55.

SPECIAL FUND REVENUE

A substantial part of the State's revenue is restricted as to use by provisions of the Constitution or statutes, and under California's financial procedure this money is separately accounted in various special funds. Three categories of income comprised in the special fund total are: (1) the receipts from broad tax levies which are dedicated to specific functions; (2) charges for special services to specific groups; and (3) certain rentals, royalties, and other receipts earmarked for particular purposes. Motor vehicle taxes and fees which must be used for highways and activities related to motor vehicles illustrate the first of these classes. License fees for the regulation of businesses and professions are typical of the second, while oil royalties dedicated to beach and park development are examples of the third group. Interest earned by the investment of special fund money accrues to the fund for which the investments are held.

Receipts from taxes and license fees related to the ownership or operation of motor vehicles account for approximately one-third of all state revenue and 86 percent of the money going into special funds next year. The most interesting development in this area of fiscal operations is the great productivity of these levies during periods of intense business activity. During 1953-54, first year under the higher rates imposed to finance an expanded highway construction program, receipts totalled \$402 million. The following year this increased a little more than 10 percent to reach \$444 million. In the current fiscal period, the aggregate is estimated at \$497 million, and for 1956-57 the projection is \$520 million.⁷ Thus, in a space of three years, receipts have increased more than \$118 million, or nearly 30 percent, with only minor revisions in the scope of the tax and no increase in tax rates. The entire change is the result of growth in the number of registered vehicles, increased prices which have influenced market values of vehicles established in connection with the vehicle license fee,⁸ and to a minor extent, the larger volume of business handled by highway transportation companies.

Motor Vehicle Fees—\$220,527,000

Fee-paid registrations are expected to reach a total of 7,400,000 by December 31, 1957. This includes passenger cars, trucks, trailers, and motorcycles and compares with a total of 6,650,000 at the end of last year. Since 1950, a net of 1,700,000 vehicles have been added to the registration rolls, against an increase of approximately 2,350,000 in civilian population—an addition of more than two cars for every three people. By the

⁷ Including minor amounts from the motor vehicle license fee (in lieu tax) credited to the General Fund.

⁸ The vehicle license fee is levied at the rate of 2 percent of the market value of vehicles, determined in accordance with provisions of this law, and is in lieu of local ad valorem taxes on motor vehicles.

⁶ Computed on the basis of population aged 21 and over.

close of this year there will be one car or truck for every two persons residing in California.

Principal change in motor vehicle fees last year was the extension of registration requirements and the vehicle license fee to cover house trailers, whether or not they are operated on the highways.⁹ This is expected to add approximately \$800,000 to registration fee receipts during the current year and \$1,200,000 in 1956-57.

Average registration and weight fees per vehicle have remained relatively stable over the two years following the 1953 adjustment in these charges. However, average vehicle license fees have risen each year as a greater number of new vehicles enter the tax base. In 1954, the average fee was \$12.69, and in the following year this increased to \$13.22. The effect of the increasing number of higher priced vehicles is clearly evident in the advance of total vehicle license fee collections from \$85,703,000 during 1954-55 to an estimated \$100,300,000 in the current fiscal year and \$108,500,000 in the budget period. Of the latter sum, all except \$5,077,000, appropriated to pay the cost of administration and highway debt service, will be returned to city and county governments for general use.

A summary of actual and estimated motor vehicle fee revenue is given below. The amounts shown as registration and weight fees include approximately \$5,500,000, annually, in transfer charges formerly reported separately.

	(Millions of dollars)		
	Actual 1954-55	Estimated 1955-56	Estimated 1956-57
Registration and weight fees	\$92.5	\$100.4	\$104.6
License (in lieu) fees	85.7 *	100.3 *	108.5 *
Drivers' licenses	5.9	5.7	6.0
Caravan fees	0.7	0.7	0.7
Other fees	0.7	0.7	0.7
Totals	\$185.5	\$207.8	\$220.5

* Including amounts for highway bond interest and redemption, handled through the General Fund.

Motor Vehicle Fuel Taxes—\$282,518,000

Motor vehicle fuel tax revenue arises from two levies on vehicles traveling California's highways; the 6 cent per gallon tax on gasoline and the 7 cent tax on each gallon of diesel fuel consumed. During the 1956-57 Fiscal Year the gasoline tax will produce an estimated \$265,000,000 and the use (diesel) fuel tax \$17,500,000.¹⁰

The projected \$265,000,000 to be derived from the gasoline tax compares with an estimated \$258,000,000 in the current fiscal year and \$230,432,000 in 1954-55. The increase of \$27,600,000 between 1954-55 and the present year, but only \$7,000,000 from this year to next is the result of three factors. First, approximately \$4,000,000 of revenue which normally would have been received in June, 1955, actually came in during July, thus inflating the current total and deflating the sum for 1954-55 by this amount. Adjusted

⁹ Chapter 1653, Statutes of 1955. Provisions of this act exempt certain trailers in the hands of manufacturers and dealers and those with valid registration in other states.

¹⁰ \$18,000 will be derived from the brokers' and producers' license fee imposed in connection with the gasoline tax.

for this lag in collections, the increases would be \$19,600,000 between 1954-55 and the present year and \$11,000,000 between this year and 1956-57.

Second, the tremendous volume of vehicle sales during 1955 carried registrations up sharply from 6,195,000 in December 31, 1954, to 6,732,000 at the same date last year.¹¹ This increase contributes materially to the volume of gasoline consumption in 1955-56. However, the growth in registrations estimated for the current calendar year is more modest—to a total of 7,105,000 on December 31, 1956. The reduced rate of registration growth accounts for approximately \$8,000,000 of the decline in revenue accretion between this year and next.

Third, the rising number of two-car families, more efficient motor operation, and withdrawal of older vehicles has caused a decline in average annual gasoline consumption per vehicle in recent years. This is expected to continue through 1956-57, further reducing the rate of increase in revenue from this source. Diesel fuel consumption should follow the long-term upward trend which has characterized utilization of this commodity. The \$17,500,000 estimated as revenue from this source compares with \$16,100,000 indicated for the current year and \$14,156,000 received in 1954-55.

Comparative revenue from the two motor vehicle fuel taxes is summarized below:

	(Millions of dollars)		
	Actual 1954-55	Estimated 1955-56	Estimated 1956-57
Gasoline	\$230.4	\$258.0	\$265.0
Diesel fuel	14.2	16.1	17.5
Totals	\$244.6	\$274.1	\$282.5

Motor Vehicle Transportation Tax—\$16,636,000

Firms and individuals engaged in the transportation of persons or property for hire by motor vehicles upon the state highways are subject to a tax of 3 percent on gross receipts from such operations. A close relationship exists between total business from these operations and total personal income of the people of California. With the prospect of an increase in income, gross assessments are estimated at \$19,500,000 during the current year and \$21,000,000 in the budget year. However, one-third of the weight fees paid on vehicles used in these operations may be credited against the tax liability. Moreover, three changes in this tax were made at the 1955 Legislative Session which in the aggregate have reduced revenue from this source by approximately \$500,000 per year. Exemptions were provided for gross receipts (1) derived from hauling rubbish and industrial waste, (2) derived from operations entirely within the external boundaries of cities, and (3) taxed by cities. Consequently, the net revenue from this source during 1956-57 will amount to \$16,600,000. In addition, permit fees of \$36,000 will be received. The total of these amounts may be compared with \$15,535,000 this year and \$13,921,000 in 1954-55.

¹¹ Both totals include exempt vehicles, which constitute part of the gasoline tax base but are excluded in computing registration fees.

Horse Racing Fees—\$25,750,000

An additional 42 days of racing during the current season and in 1956-57, coupled with a larger volume of personal income, will augment the volume of state revenue from horse racing this year and next. Racing has been authorized on a total of 510 days each year, compared with 468 during the 1954-55 Fiscal Year. With rising personal income, total wagering in the 1956-57 Fiscal Year has been estimated at \$453 million, compared with an estimated \$446 million in the present year and \$404.8 million in 1954-55. Revenues from the graduated tax on pari-mutuel pools and other sources, and the distribution of this income among the various funds are show below.

	(Thousands of dollars)		
	Actual 1954-55	Estimated 1955-56	Estimated 1956-57
Tax on pari-mutuel pools	\$21,351	\$23,630	\$24,040
Breakage	1,284	1,450	1,485
Unclaimed tickets	204	215	220
Fines and penalties	-	5	5
Totals	\$22,838	\$25,300	\$25,750
General Fund	5,360	5,250	5,390
Fair and Exposition Fund	16,194	17,850	18,125
State College Fund	1,284	1,450	1,485
Wildlife Restoration Fund	-	750	750

Liquor License Fees—\$10,125,000

The increase of approximately one million dollars in revenue from liquor license fees reflects primarily the changes in this law made at the 1955 Session of the State Legislature. At that time the initial fees for licenses to operate liquor stores and drinking places were increased substantially, and fees which formerly had been exempt from the 10 percent surcharge were brought under this requirement. The Department of Alcoholic Beverage Control has undertaken to bring the number of licensed package goods stores into line with the increased population of certain rapidly growing areas as a means of curbing the excessive charges made in connection with private sales of liquor permits.

In total, therefore, receipts from liquor license fees during the coming fiscal year are estimated at \$10,125,000 against \$9,300,000 currently and \$9,213,000 in 1954-55. Distribution of these amounts between the General Fund and Alcoholic Beverage Control Fund is shown in the following summary.

	(Thousands of dollars)		
	Actual 1954-55	Estimated 1955-56	Estimated 1956-57
General Fund	\$379	\$1,075	\$1,050
Alcoholic Beverage Control Fund	8,835	8,225	9,075
Totals	\$9,213	\$9,300	\$10,125

Of the amounts shown for the ABC Fund, above, approximately four-fifths will be returned to cities and one-fifth to county governments for expenditure locally.

Other Special Funds—\$54,293,000

Other special fund receipts during the ensuing fiscal year are estimated at \$54,293,000, an increase of approximately \$1,100,000 over the corresponding amount for the current period. The total includes fees

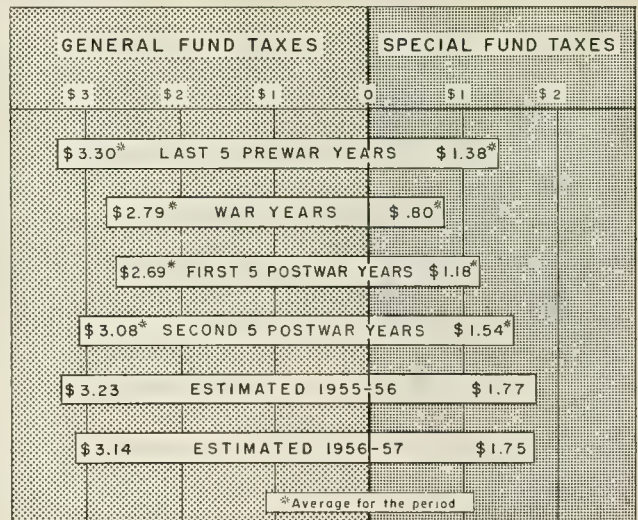

collected by regulatory agencies, receipts from sale of fishing and hunting licenses, charges for special services, oil and mineral royalties, interest on investments held by special funds, and other miscellaneous income items. Detailed information on this revenue is shown in Schedule 2 of the budget.

TAX TRENDS

The record of tax collections during 1954-55 and the current year again demonstrates the great productivity of California's revenue system during a period of prosperity. Most of the State levies are tied directly to the dollar volume of business and income, with a delay of only a few months, or a year at the most, between the taxable event and receipt of resulting revenue.

This direct relationship is clearly shown in the record of collections over the last twenty years. With only a slight increase in the burden upon aggregate income, tax receipts have multiplied more than six-fold since the present system was adopted in 1935. General Fund levies are actually lighter today in relation to total personal income than they were two decades ago. The increase has been entirely in special fund taxes, and this adjustment was made partially as a means of financing an expanded program of State and local highway and street construction, partly as a result of an increase in the motor vehicle license (in lieu tax) rate and higher vehicle values, and partly through a shift of General Fund taxes to special fund uses.

STATE TAX BURDEN
TOTAL STATE TAXES PER \$100 OF
PERSONAL INCOME

With General Fund tax revenue estimated at \$982,301,000 during 1956-57, receipts will represent \$3.14 per \$100 of the estimated personal income of the people of California during 1956. The corresponding ratio for the current fiscal year in relation to 1955 income is estimated at \$3.23, while the relative burden in 1954-55 was \$3.08 per \$100 of personal income. On this basis the heaviest burden was carried in the period just prior to World War II, when the five

year average was \$3.30 and a peak of \$3.35 was reached on two occasions. The long-term decline in this ratio is due primarily to liberalization of tax laws and to the diversion of certain former General Fund levies to special uses. For example, the personal income tax has been materially lightened, a greater share of liquor license fees have been relinquished to local governments, and the motor vehicle transportation tax revenue has been dedicated to State highway uses.

Special fund taxes in the budget year will amount to \$1.75 per \$100 of personal income, compared to \$1.77 currently and an average of \$1.38 before the war. As indicated above, this increase is due to the

combined effect of higher motor vehicle tax rates and the shifting of former General Fund revenues to specific purposes. In total, special fund levies on motor vehicles (including vehicle license fees) have increased 42 cents per \$100 of personal income over the last two decades, while the burden of other special fund taxes has changed by only a minor fraction of a cent.

A comparison of tax receipts per \$100 of personal income over the course of the last twenty years is shown in the accompanying table and chart. For convenience of presentation, generally similar fiscal periods from 1936 through 1955 have been grouped and averaged in the chart.

SUMMARY OF STATE POPULATION, INCOME OF CALIFORNIA RESIDENTS, AND STATE TAX COLLECTIONS *Excluding Departmental and Miscellaneous Revenues*

Year	Estimated Population July 1st (Thousands)	Estimated Personal Income (Millions)	Income per Capita	Fiscal Year	State Tax Collections			Taxes per Capita			Taxes per \$100 of Personal Income

* Amounts shown during period of World War II represent civilian population, estimated income of civilians, and per capita civilian income.

Population data, 1936 through 1949, are based on United States Census Bureau estimates; population, 1950 to date, estimated by the State Department of Finance.

Income of individuals, 1936 through 1954, from United States Department of Commerce estimates, *Survey of Current Business*, Sept. 1955. Reported totals for 1941 through 1945 have been adjusted to exclude income of armed forces personnel. Data for 1955 and 1956 are estimates by the State Department of Finance.

Income per capita computed from population and income data shown. Amounts differ somewhat from U. S. Department of Commerce estimates.

Taxes per capita computed on the basis of population January 1st, the midpoint of the fiscal year.

Schedule 2

COMPARATIVE STATEMENT OF REVENUES FOR THE FISCAL YEARS 1954-55, 1955-56, AND 1956-57

CHART 4

Expenditure Requirements, 1956-57

Continued rapid growth inevitably must be reflected in the State's expenditure program. It affects the constitutional appropriation for support of public schools. It determines both the current needs and future building requirements of higher educational institutions. Growth-crowded thoroughfares must have priority in the State's highway construction program and in the regulation of motor vehicles. Hospitals and correctional institutions not only must meet the pressure of today's population but also must prepare for the patients who will come next year and the next. Vitally influencing some activities and moderately affecting others, growth has carried the 1956-57 Budget to a record expenditure level.

State expenditures during the next fiscal year will total \$1,736,112,983 under the program presented in this document—an increase of \$129,949,012 over the corresponding sum for the current year. Thirty-nine cents of each budget dollar will be spent for some activity in the broad field of education—public school support, special schools, colleges, the University, teachers' retirement, and other purposes. This single function accounts for 47.7 cents of each dollar of increase over expenditures during the current year. Highways, streets, and motor vehicle regulation consume 24.1 cents of each expenditure dollar, but only 9.3 cents per dollar of increase.

Third in order of size are the expenditures for social welfare, public health, and related activities—11.1 cents out of each dollar. These are followed by mental hygiene and corrections—8.7 cents; conservation and development of natural resources—5.8 cents; fiscal affairs—1.9 cents; and all other expenditures—9.4 cents. A summary of State expenditures during the three fiscal years covered by this budget is given in the table below:

Expenditures by Functions
(In millions)

				Increase over 1955-56			
	Actual 1954-55	Estimated 1955-56	Estimated 1956-57	% of Total 1956-57	Amount	%	% of Total
Education	\$551.3	\$614.9	\$676.9	39.0	\$62.0	10.1	47.7
Highways & vehicle regulation	379.6	406.8	418.8	24.1	12.0	2.9	9.3
Welfare, health, & related activities ..	173.0	186.7	192.8	11.1	6.2	3.3	4.8
Mental hygiene & corrections	110.8	144.5	150.7	8.7	6.2	4.3	4.8
Conservation & devel- opment of natural resources	56.1	73.9	101.6	5.8	27.7	37.5	21.3
Fiscal affairs	27.7	32.4	32.7	1.9	0.3	1.1	0.2
Other expenditures...	124.3	147.0	162.6	9.4	15.5	10.6	11.9
Totals ..	\$1,422.5	\$1,606.2	\$1,736.1	100.0	\$129.9	8.1	100.0

Summarized in this way, the 1956-57 expenditure plan shows:

	Total expenditures (million)	Percent of total	Increase over 1955-56	
			Amount (million)	Percent
State operations ..	\$464.3	26.8	\$51.8	12.5
Capital outlay	357.9	20.6	22.0	6.6
Local assistance ..	913.8	52.6	56.1	6.5
Total	\$1,736.1	100.0	\$129.9	8.1

Principal item of increase in state operations is the 5 percent salary adjustment recommended for State employees. This single factor accounts for \$18,557,000* of the \$51.8 million increment shown in the table above. Provision for this adjustment grows out of the State Personnel Board finding that current salary levels are approximately 5 percent below the scales paid in private industry and in other governmental agencies for work of comparable skill and responsibility. Excluding this adjustment, the increase in State operating expense is 8.0 percent. *In this connection it should be noted that in the 1956-57 expenditure data presented in this statement, the appropriation for salary increase has been distributed to the various agencies. In all other budget schedules the salary increase fund is shown separately as a lump sum. The deviation is made at this one point in order to show as accurately as possible the total amount to be spent for each function of government.*

Leading element in the capital outlay section is the \$237,162,000 to be spent on highway construction. Provision is made to continue the orderly plan for meeting the building requirements of educational institutions, hospitals, correctional facilities, and other centers of State government. In total, \$89,878,000 will be expended on this coordinated building program next year, carrying State government one step closer to filling its long-term needs. Beach and park development will require expenditures of \$13,891,000, a sum far above the totals of earlier years. Funds dedicated to this purpose, impounded during the controversy over ownership of the tidelands oil, were released by the decision that this resource belonged to the State.

As in other years, the principal part of the State's expenditures for assistance to local governments represents public school support. This commitment will require payments totalling \$461,232,000, or more than half the aggregate amount budgeted for distribution to local agencies and \$31,505,000 above the same expenditure items in the present fiscal year.

Fixed and Controllable Costs

Less than 34 percent of the total was subject to the discretion of the Governor in compiling this budget and will be subject to review by the Legislature in considering the Budget Bill. The remainder is fixed by provisions of existing law, part of which may be changed only by direct vote of the people and part

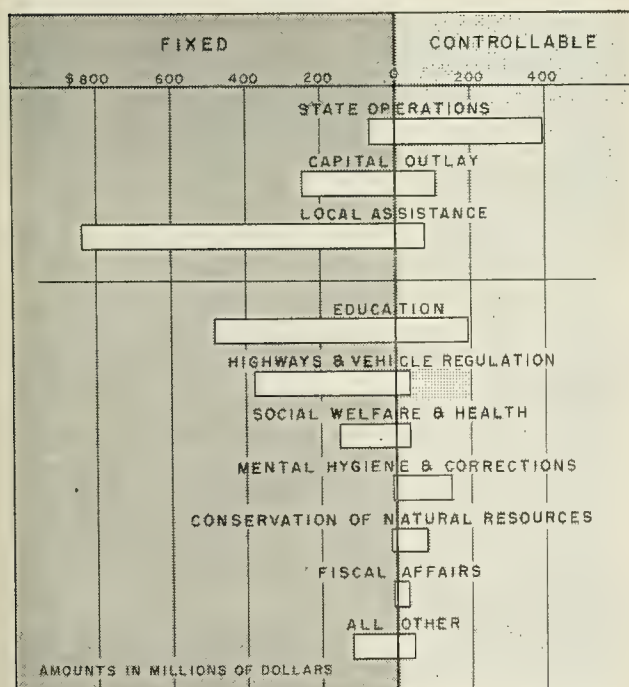

* For convenience this and following amounts have been rounded to the nearest thousand dollars; percentage changes have been computed from whole numbers.

by amendments to the various statutes. A statement of fixed and controllable expenditures in 1956-57 is given in budget schedule 9, with the principal amounts abstracted in the following summary:

(Millions of dollars)			
Fixed:	Fixed expenditures	Change from 1955-56	
		Amount	Percent
Public schools	\$461.5	\$31.5	7.3
State highways	269.4	1.1	0.4
Revenue for local governments	211.1	12.3	6.2
Social welfare	150.2	3.6	2.4
State employees' retirement	25.5	2.0	8.7
Debt service	12.2	—0.5	—4.1
Local fairs	8.7	—3.3	—27.7
All other	11.3	—1.4	—11.2
Total fixed	\$1,149.9	\$45.2	4.1
Controllable:			
State operations			
Education	\$118.8	\$18.0	17.8
Mental hygiene	83.2	10.9	15.1
Natural resources *	47.5	4.1	9.5
Motor vehicle regulation	41.6	5.0	13.6
Corrections	36.8	3.1	9.3
All other	70.3	8.4	13.6
Total	\$398.3	\$49.5	14.2
Capital outlay	112.8	23.6	26.4
Local assistance	75.1	11.6	18.3
Total controllable	\$586.2	\$85.7	17.1

* Includes the following: agriculture, fish and game, beaches and parks, forestry, mining and oil, water resource development, fairs and expositions, and other minor items.

FIXED AND CONTROLLABLE EXPENDITURES BY MAJOR PURPOSE AND FUNCTION 1956-57 Fiscal Year

The degree of control varies widely among the different "controllable" items. A few are completely discretionary. Many, such as the support of educational institutions, operation of mental hospitals, and maintenance of correctional facilities, are controllable

only regarding the level of care and service given: the number of people to be served is fixed by circumstances beyond control of the Governor and the Legislature. In some instances the term is a complete misnomer. For example, there is no control over the number of retired teachers or the retirement benefits established by their program, yet this is a "controllable" item of local assistance. Hence, the significance of this term is only relative, indicating primarily that the appropriation must be reviewed annually by the budget making agency, the Governor, and both houses of the State Legislature.

Education—\$676,889,000

The support of all phases of public education continues to require the largest expenditure of any activity of the State of California. Grade school enrollments remain high, while attendance in secondary schools and institutions of higher education is beginning to reflect the progression of the greater number of children through the educational system.

Support of public schools, as required by Article IX of the Constitution and supplementary legislation, is estimated to total \$461,232,000 in 1956-57. The mandatory requirement of \$180 for each of the 2,555,000 students in average daily attendance during the current year totals \$459,900,000, an increase of 7.3 percent over 1955-56. Automobile driver training in high schools, paid for by a surcharge on fines for moving violations, is estimated to cost \$1,369,000. Miscellaneous adjustments reduce the grand total to \$461,232,000.

In addition to direct support, other expenditures related to the public school system include contributions for teachers' retirement at an estimated cost of \$26,764,000; interest and redemption charges on school building bonds, \$9,013,000; and encouragement of vocational education, \$313,000. The publication of free textbooks is budgeted at \$6,107,000, an increase of \$377,000, reflecting the continued growth in enrollments and the adoption of a new series in geography and history. Support of child care centers, which was extended by the 1955 Legislature, is budgeted at \$4,604,000, compared to an estimated requirement of \$4,392,000 in the current fiscal year.

In total, expenditures for the support of the local public school system are budgeted at \$508,034,000, an increase of \$32,832,000 over the corresponding figure for 1955-56.

The State operation of educational facilities for physically handicapped children will be sustained at the level established for the present year. These include schools for deaf students in Berkeley and Riverside, a school for the blind in Berkeley, and schools in San Francisco and Altadena for children afflicted with cerebral palsy. Aggregate enrollment in these institutions during 1956-57 will average 1,002, and expenditures for maintenance and operation are budgeted at \$3,586,000.

Operations of facilities for training of the adult blind are also projected at approximately the 1955-56 level. Recommended expenditures for support of the four centers amount to \$614,000. Under this program, approximately 700 persons who would otherwise be supported entirely from public funds will become self-supporting or able to provide a substantial portion of their livelihood.

In addition to these residential and employment facilities for physically handicapped, the Bureau of Vocational Rehabilitation will provide assistance to approximately 10,000 needy persons requiring vocational training because of accidental injuries or other physical limitations. Of this number, roughly 4,000 will complete the rehabilitation plan during the year and become wholly or partially self-supporting. The cost of this work is projected at \$3,841,000 or \$539,000 above the total for the current year. Bulk of the increase represents allotments for the examination, treatment, and training of clients. Of the total cost, \$1,644,000 will be paid from the State General Fund and \$2,197,000 by the Federal Government.

Enrollments in the 11 State colleges for 1956-57 are projected at 48,720 full-time students—an increase of 7,464, or 18 percent, over the current year. To furnish the everyday operation of these facilities will require \$34,082,000, an increase of \$6,924,000 over 1955-56.

In order to meet the estimated enrollments in the fall of 1958, it will be necessary to schedule immediately the construction of new facilities costing \$33,417,000. All campuses will participate in the planned improvements, which include classrooms, libraries, noninstructional installations, equipment for buildings now being constructed, and minor repairs needed to place present plants in better operating condition.

The State appropriation recommended for support of the eight campuses of the University, \$74,578,000, represents an increase of 15.2 percent over the current year. This total reflects, in part, an expected increase of 2,913 in regular enrollment, bringing the total to 40,559 students next year (up 7.7 percent) and, in part, a decrease in the amount of University and State funds appropriated in prior years that will be available in 1956-57. Emphasis is placed upon meeting the needs of this larger total enrollment, rather than the inauguration of new or expanded curricula.

The capital outlay program of the University totals \$16,077,000, of which \$12,014,000 is for nonagricultural projects on all campuses and the balance, \$4,063,000, for agricultural projects financed from the continuing appropriations from the Fair and Exposition Fund. This is the second step in a long-term project

designed to provide the facilities necessary to meet the inevitable growth in enrollment during the coming years.

Total expenditures from all sources, including endowments and other University funds, is \$117,565,000, an increase of \$12,903,000 over the sum provided in the present year. Of this amount, \$90,655,000 will be furnished from State revenue—an advance of \$13,229,000 from the current year's appropriation for this purpose.

The State Scholarship Commission was created by Chapter 1846, Statutes of 1955, with an appropriation of \$16,000 for administration in the current year and \$300,000 for scholarships which will not be paid until 1956-57. An additional appropriation of \$46,000 is requested in the Budget Bill to cover operating expenses during the 1956-57 Fiscal Year. The objective of this legislation is that of aiding, within the limits established by this act, qualified and deserving students to pursue their studies at either private or public educational institutions.

Highways, Streets, and Motor Vehicle Regulation—\$418,840,000

The anticipated expenditures for motor vehicle regulation, traffic control and highway construction and maintenance during 1956-57 will amount to \$418,840,000. A total of \$78,474,000 will be expended for support of the Highway Patrol, Department of Motor Vehicles, and State Division of Highways; \$237,162,000 will be used for construction of State highways and \$1,150,000 for facilities to be used by the Highway Patrol and Department of Motor Vehicles. The sum for \$102,054,000 will be distributed to cities and counties as their share of receipts from the gasoline tax, registration fees, and as a grant-in-aid. Expenditures for each of the major items will increase during 1956-57 in comparison with the funds being spent during the current year. Comparative payments for all purposes during the three years covered by this budget are shown in the accompanying table.

Expenditures for Education (Thousands of dollars)					
	Actual 1954-55	Estimated 1955-56	Proposed 1956-57	Change from 1955-56

Grand Totals	\$379,642	\$406,854	\$418,840	\$11,986	2.9

The 1956-57 Budget proposes to add 270 positions in the uniformed strength of the Highway Patrol—24 traffic sergeants and 246 traffic officers, in order to maintain the same level of service that has been authorized in past years and to achieve more adequate policing of the highways. The cost of this increase in personnel will be approximately \$1,130,000 for the coming year. More than 2,300 persons were killed on the rural highways of California last year and 51,000 were injured. Reportable accidents outside incorporated areas increased 8.5 percent, injury accidents were 8.6 percent greater, and fatalities were 7.8 percent above the same totals for 1954. Comparing these figures with the percentage of increase in motor vehicle registrations for last year (8.7 percent), it would appear that there has been too little progress made in the campaign to curb highway accidents and traffic deaths.

The registration of more than 7,400,000 motor vehicles is anticipated during the year 1957 and it is believed the State will have 6,922,000 licensed drivers. Provision has been made for the continuation of the present level of service to the public by the Department of Motor Vehicles with no basic change or expansion of program.

**Welfare, Health, and Related Activities—
\$192,829,000**

Subventions for social welfare purposes, most of which are made through the county governments, are estimated at \$152,753,000 for 1956-57. The largest of the welfare items both from the viewpoint of the number of persons involved and the cost continues to be old age security. There has been little increase in the number of aged aid recipients in recent years, due to the growing effectiveness of the old age and survivors insurance program which now covers approximately 46 percent of persons 65 years of age and over. Amendments to the old age security law enacted by the 1955 Legislature increased the maximum monthly grant from \$80 to \$85, made certain noncitizens eligible, and broadened the program to include patients in public medical institutions. The State's share of this grant to an average of 2,050 more people will result in total expenditures of \$108,408,000, or \$3,493,000 greater than during the current year.

Payments for aid to needy children will aggregate \$35,016,000 and assistance to the blind will amount to \$6,784,000. Amendments to the blind programs enacted in 1955 increased the maximum monthly grant from \$90 to \$95. At that time, blind aid was also broadened to include patients in public medical institutions. Expenditures for both children's and blind aid will be only slightly greater in the coming year than during the present fiscal period—an increase of \$136,000 in the former and \$315,000 in the latter. The cost of inspecting boarding homes for children and aged and the support of the adoption program will amount to \$2,544,000.

The estimated average number of persons to be granted assistance, average monthly payments, and

the State's share of these monthly amounts for the 1956-57 Fiscal Year follow:

	<i>Average number of recipients</i>	<i>Average monthly payments</i>	<i>State's share of aid</i>
Old age security	273,500	\$71.65	\$33.03
Aid to needy children			
Family groups *	185,800	36.97	13.45
Foster homes	9,780	67.45	42.75
Aid to the blind	12,900	89.36	41.38
Aid to partially self- supporting blind	400	94.50	78.79

* Including needy parent.

It is estimated that the cost to the Department of Social Welfare for administering the subvention program, support of the Recreation Commission, and other expenses in this field will be \$2,659,000.

The subvention program for public health totals \$17,425,000, an increase of \$628,000 over the sum provided in the present year. The increase occurs principally in the program of hospital construction due to a change in policy which allows the State to match all federal money available to California, including grants for nonprofit organizations. The State appropriation of \$4,545,000 for this purpose constitutes an increase of \$426,000 over the current year and \$3,341,000 more than was spent in 1954-55. Assistance to crippled children, and increased payments to local health departments are the other major items of increase. These are partially offset by a reduction of \$250,000 in subventions for tuberculosis control, made possible by a drop in the incidence of this disease and better treatment techniques.

State expenditures for support of the Department of Public Health will increase by \$454,000 to a total of \$5,727,000 as a result of the proposed salary adjustment and a decline in the federal share of the over-all program. Federal grants—including those for the polio vaccine surveillance program, prosthetics for child amputees, and the current morbidity study—will be \$409,000 below the totals allotted for this year. Air pollution investigations, undertaken as part of a continuing effort to solve the smog problem, account for the major program increase in the support budget.

Recommended expenditures for the Department of Industrial Relations are based on the fundamental responsibilities of the department to administer the State's labor laws and to promote the welfare of wage earners in California. The amounts reflect work load increases in the fields of industrial welfare, apprenticeship standards, labor law enforcement, industrial safety, and housing. A review of wages, hours, and working conditions for women and minors in industry is proposed at a cost of \$39,000. Twelve orders, which have the same force and effect as law, will be fully reviewed in the light of changing economic conditions and wage scales. Budgeted expenditures for activities in the field of industrial relations amount to \$7,438,000, or \$712,000 more than in the present fiscal period.

The proposed expenditures of State funds for operation of the Department of Veterans Affairs during 1956-57 amount to \$6,567,000, an advance of \$738,000 over the current year's total. The increase is due primarily to the occupancy of new facilities at the Veterans' Home, which will make possible a growth of 165 in the home's 1,853 current average membership.

The cost of educational assistance to veterans and veterans' dependents, which constitutes the largest item in the foregoing totals, will increase \$213,000 over the current year to a total of \$3,269,000.

Proposed capital outlay projects for the Veterans' Home are at the lowest point of the past several years, with a total of \$105,000 for additions and alterations to existing structures and equipping new facilities.

Assistance to counties maintaining veterans service offices will require payments of \$350,000, unchanged from the current year.

Mental Hygiene and Corrections—\$150,691,000

MENTAL HYGIENE

The State will provide food, clothing, housing, medical care, and treatment for nearly 50,000 patients in its 13 mental hospitals during the coming budget period. Current studies indicate that this number will increase to over 60,000 within the course of the next six years. In 1946 an orderly program of gradual improvement in the quality of care and treatment was inaugurated, with a view primarily to keeping this State abreast of developments in the field of mental hygiene. Each budget, therefore, presents three problems: (1) provision for the patient-load anticipated for the coming year, (2) some improvement in the level of service, especially as it relates to treatment and rehabilitation, and (3) provision for additional buildings and other facilities required to meet the patient population two or three years hence.

The recommended expenditures for mental hygiene total \$101,105,000, an increase of \$3,066,000 over the estimated expenditures for the current year. Of the total, \$83,217,000 represents current operating expense (up \$10,941,000), and \$17,888,000 is earmarked for capital outlay to meet the long-term growth (down \$7,875,000 from the particularly large commitment of the current fiscal year). The average of 48,223

resident patients will represent an increase of 2,191 or 4.8 percent over the number in 1955-56.

The budget of the Department of Mental Hygiene includes additional personnel to allow further improvements in the level of service; to meet the work load increase resulting from new facilities and changes in types of patients and prescribed treatment; and to care for the growing patient population. Completion of a new receiving and treatment unit, a new tuberculosis unit, and a new hospital annex during the budget year will further improve the functioning of three of the hospitals.

Additional positions are proposed to augment the initial staff of the Neuropsychiatric Institute at the University of California in Los Angeles. Most of these will be professional people who will carry on a limited teaching, research, and training program and operate an outpatient clinic. The Institute will be housed in temporary quarters, pending the construction of the permanent facility.

Major capital outlay projects proposed for the 1956-57 Fiscal Year will provide 252 net additional beds for mentally ill patients and 690 additional beds for mentally deficient patients, increasing the total capacity to 50,116 on June 30, 1959. Principal features of this program include two large ward buildings at Fairview Hospital in Orange County, additions to Metropolitan Hospital in Los Angeles, and improvements at Patton Hospital in San Bernardino County. A number of other major projects are also included to provide necessary service facilities at the hospitals and clinics.

Pursuant to Chapter 18, Division 9 of the Business and Professions Code, the Alcoholic Rehabilitation Commission " * * * shall investigate, study, and engage in all phases of the treatment and rehabilitation of alcoholics, and shall investigate and study other factors necessary to the reduction and prevention of chronic alcoholism and other excessive uses of alcohol and shall submit its first report to the Governor and the Legislature prior to March 1, 1957, and shall submit a final report with recommendations to the Governor and the Legislature prior to March 1, 1959. The commission shall cease to exist on June 30, 1959."

The commission plans to organize and establish a comprehensive balanced program which will encompass at least (a) the actual treatment and rehabilitation of alcoholics, (b) research into the causes and effects of alcoholism and the treatment of alcoholics, and (c) public information on the subject of alcoholism. Expenditures for work of this agency amounting to \$539,000 in the budget period (up \$329,000) have been included in the total for support of mental hygiene given above.

CORRECTIONS

The number of inmates in correctional institutions has increased at a much lower rate than was anticipated a year ago, due primarily to a reduction in superior court commitments in relation to civilian population. There has been a reduction in the incidence of crime, but important also is a recent court decision restricting the power of authorities to conduct a search for narcotics without a search-warrant. A third factor has been the 50 percent increase in work of the special intensive parole unit which per-

mits earlier release to parole from the institutions. During the 1956-57 Fiscal Year the Department of Corrections is expected to care for an average daily population of 15,893—an increase of 445, or 2.9 percent, over the revised average for the current year. It is estimated that the Youth Authority will have an average of 2,430 wards in the institutions under its jurisdiction, an increase of 81, or 3.5 percent. In addition, there will be an average of 7,235 adults and 6,298 youths on parole, but still under careful State supervision. In both instances the number on parole will be approximately 10 percent greater than during the current year. It is of interest in this connection that the average annual cost of supervision is approximately \$160 per parolee, against an average of \$1,522 for the maintenance of adult prisoners and \$3,332 for the support of inmates in facilities operated by the Youth Authority.

One of the more significant programs proposed for the Department of Corrections is an intensive course of treatment to a group of nonviolent offenders in an attempt to hasten their rehabilitation and thus permit earlier release on parole. By virtue of this earlier paroling, it is expected that the total inmate population will be reduced 1,000 below current projections by June 30, 1959. This adjustment in projected population will not only have a material effect on the future expenditures for support of the institutions, but should permit postponement of capital expenditures previously contemplated for the expanding population.

Expenditures by the Department of Corrections are proposed in the amount of \$26,563,000, an increase of \$2,226,000 over the corresponding figure for the current year. In addition to the intensive treatment program and expansion of the experimental parole program, expenditure increases will be required for occupation of new facilities and normal growth in parole case loads. The Youth Authority budget proposes total support of \$10,238,000, or \$898,000 over the estimated expenditures for the present year. The larger amount is due to increased population of wards on parole and the staffing of new facilities.

The capital outlay program for the Department of Corrections reflects the reduction in projected inmate populations. The total program for 1956-57 amounts to \$3,010,000, a reduction of \$6,479,000 from the current fiscal year. Recommendations include preliminary work for a new medium security prison, originally scheduled for construction next year, along with other additional facilities. Because of the reduction in rate of growth in prison population, actual construction funds are not requested in this budget but will be included in another year. Capital outlay expenditures for the Youth Authority are proposed in the amount of \$8,533,000, an increase of \$6,168,000. The principal project proposed is the initial development for a youth training school providing, in this first step, a 428 increase in capacity, of which 28 will be in a hospital and detention unit.

Payments to counties for correctional activities will amount to \$1,243,000, compared with \$952,000 this year. This provides the State's share of support for existing homes and camps, plus funds for seven additional camps. All facilities provided under this program care for wards committed by juvenile courts in lieu of commitment to the Youth Authority.

Conservation and Development of Natural Resources—\$101,551,000

The activities of several State agencies responsible for the development, protection, and conservation of our natural resources are included in this classification. These entail services to the agricultural and mining industries, conservation and propagation of fish and game, wild life management, operation of park and beach areas, timber and watershed protection, utilization of water resources, flood control, and support of agricultural fairs. Combined expenditures during the fiscal year 1956-57 for these broad activities amount to \$101,551,000, an increase of \$27,680,000 or 37.5 percent above the current year. The two major areas of expense are found in capital outlay expenditures, beaches and parks—\$13,891,000 and local assistance for flood control—\$13,340,000.

A moderate expansion and intensification of program has been proposed to meet the anticipated population increase and to provide adequate funds and personnel for these agencies during the budget year. In the Department of Fish and Game, provision has been made for the addition of 35 new positions, chiefly to augment the warden force and increase the effectiveness of wild life protection. In order to provide for State management of acreage now protected by the United States Forest Service under a contractual agreement, 103 man-months of seasonal help have been added to the Division of Forestry.

The current fiscal year will mark the completion of the initial broad planning for the California Water Development Program. Before the financing and construction of projects is possible, however, more detailed investigations of individual river basins and studies of possible alternatives are required. At a cost of \$1,042,000, provision is made for further investigations and geological explorations in connection with major water conservation projects in the north coastal and Sacramento Valley areas.

The budget for support of the Department of Agriculture (\$13,455,000, up \$718,000) is based upon the continuation of the level of service now authorized with adjustments for work load changes. Two exceptions to this general rule are the programs to assure sanitary and wholesome conditions in the processing of poultry and for the establishment and enforcement of rules governing standardization of poultry meat products. Both of these activities are being undertaken pursuant to legislation enacted in 1955. A substantial reduction is anticipated in the Khapra beetle

suppression program, a factor which to a large extent offsets the increases attributable to the two new activities.

During the 1956-57 Fiscal Year funds will be made available to the Division of Beaches and Parks in the amount of \$7,500,000 for the purchase of sites throughout California for either the establishment of new areas or the acquisition of areas surrounding present State facilities. This will be the first step in placing into effect the long range plan for expansion of the State Park System in California. In addition, \$4,641,000 will be expended on beach and park development and the sum of \$1,750,000 will be used for riders' and hikers' trails, roadside rests, restoration of historic ships, and Redwood highway relocation.

An appropriation of \$1,000,000 was approved last year for the purpose of bringing the 1960 Winter Olympics to California. This objective has been assured, provided the State will allocate sufficient additional funds to build the structures and other facilities required in connection with this event. The current budget recommends a supplementary appropriation of \$4,000,000, and provides for expenditures totaling \$4,901,000, to be used primarily in the development of facilities. Payments in connection with work of the Olympic Commission during the current year are estimated at \$99,000.

Provision is made in a recommended appropriation of \$5,160,000 for large scale preliminary work on the Feather River Project, which eventually will become one of the major units in California's water and power development. This first step involves (1) surveys, explorations, and investigations of dam sites, the aqueduct, and alternative routes to Southern California; (2) construction plans and specifications; (3) negotiations with certain agencies immediately interested in the project; and (4) acquisition of the dam and reservoir sites for the Oroville and San Luis units and rights of way for the relocation of railroad and highway facilities. This initial phase will involve both the dam at Oroville and such work as must be done by the State at the San Luis reservoir irrespective of whether the State or Federal Government ultimately builds this latter unit.

The only other major development in capital outlay items is the decline in amount available for improvements at district fairs. This results chiefly from carrying forward of unexpended balances for expenditure in the present fiscal year. The \$4,739,000 shown for 1955-56 is an unusually large sum, and the \$2,551,000 proposed for the ensuing period represents essentially a return to the normal allotment for this purpose.

Payments to local governments for flood control represent reimbursements for expenses or obligations incurred in cooperating with the Federal Government in construction of certain authorized flood control works. Based upon the anticipated work to be undertaken by the Federal Government, proposed allocations to local agencies in the 1956-57 year are \$13,340,000, an increase of \$8,444,000 over the current year.

Following the pattern shown for district fairs, State aid to county fairs will be substantially lower next year—down from \$4,121,000 currently to \$2,972,000 in the projected period. Here, too, the change represents a return to a more normal distribution of horse-racing revenue which is dedicated by law to support of this activity.

Fiscal Affairs—\$32,732,000

Expenditures for administration of the State's business affairs and principal tax programs during 1956-57 will amount to \$32,732,000, an increase of \$359,000 over the comparable total for 1955-56. This minor increase is the net result of a \$2,461,000 expansion in operating expenses—due chiefly to the salary adjustment proposal, and a \$2,102,000 decline in outlays for buildings and other facilities, as construction funds are channelled to meet more pressing needs.

Business control and management—including budget preparation, centralized purchasing, maintenance and operation of buildings, disbursing of funds, auditing, and financial reporting—is expected to cost \$9,397,000 during 1956-57. This amount exceeds the 1955-56 estimate by \$686,000, of which \$475,000 is for the proposed 5 percent adjustment in salaries and wages.

Assessment and collection of the retail sales, gasoline, bank and corporation, personal income, alcohol excise, insurance, inheritance, gift, and transportation taxes will cost \$21,539,000. This represents an increase of \$1,775,000 for this classification, including \$873,000 for the revision of employee salaries. An augmentation of \$185,000 for the Assessment Standards Division of the Board of Equalization will enable the Board to continue the sample appraisal work required by Section 1831 of the Revenue and Taxation Code in connection with county property tax levies and to expand its program of assisting county assessors. The remaining \$717,000 is in anticipation of expanding work load, particularly in terms of personal income tax returns and retail sales tax accounts.

The proposed expenditures for the Board of Equalization do not include funds for administering the Uniform Local Sales and Use Tax Law. This program

will be financed by reimbursements from contracting counties and therefore will not represent a cost increase, so far as State expenditures are concerned.

Capital outlay for acquisition of building sites, office buildings, and other improvements will decline from \$3,898,000 in 1955-56 to \$1,796,000 during 1956-57. Principal items in the proposed program include acquisition of a garage site in San Francisco and office building sites in Fresno and Stockton.

Other Expenditures—\$162,581,000

General expenses which cannot be assigned precisely to any of the foregoing six broad functions have been combined for convenience in this group of miscellaneous expenditures. They include support of the legislative and judicial branches of government, cost of general administration, maintenance of regulatory agencies, debt service, and the sharing of certain revenues with cities and counties for support of these local units. In total, miscellaneous costs will amount to \$162,581,000, up approximately \$15,554,000 from the present year. However, \$112,373,000 of the total and \$9,065,000 of the increase are comprised in two items of shared revenue—apportionments of receipts from the motor vehicle “in lieu” tax and liquor licenses.

With the longer, general session of the Legislature next year, legislative expense will increase to \$4,568,000, an addition of \$637,000 over the amount required in the present “budget” year. Support of the courts, including the State’s share of superior court judges’ salaries and contributions for judges’ retirement, will require \$4,095,000, an increase of \$226,000. Appropriations for operation of executive offices, administrative agencies, and regulatory bodies amount to \$19,834,000, or \$1,356,000 more than during the current year. Underlying changes include the general salary adjustment and provision for growth in work load. In total, expenses of State operation in this broad miscellaneous field will amount to \$41,818,000, or 7.7 percent above the corresponding sum for the current year.

Capital outlay costs will increase materially due to the inclusion of an unallocated sum of \$5,000,000 under the State building program. To a degree, a comparison between years is artificial, since it involves the relationship of this unallocated sum to the amount remaining to be allotted from a similar, though smaller, fund contained initially in the current year’s budget.

As funds are apportioned to specific projects, they are shifted from this miscellaneous category to one of the other functions. The only other important development in connection with miscellaneous improvements is the drop in appropriations for armory construction from the abnormally large amount spent in the current fiscal year.

The large increase in apportionments of vehicle license fee revenue collected for local governments is the result of the growing number of motor vehicle registrations and higher vehicle values. This levy has proven to be an especially productive source of local revenues, nearly doubling in yield since the present rate of \$2 per \$100 of value was established seven years ago.

EXPENDITURE TRENDS

Aggregate State expenditures have multiplied approximately sevenfold over the course of the last 20 years. From a total of \$243,537,000 in 1937-38, the sum has grown to \$1,736,113,000 in the budget for 1956-57. Of the \$1.5 billion increase, one-fourth (\$362 million) has taken place in State operations, roughly another quarter (\$336 million) in capital outlay, and a little more than one-half (\$794 million) in local assistance. Or, to put the long-term comparison another way, the operations section of next year’s budget is 4½ times the corresponding figure of 20 years ago, the capital outlay portion is 16 times the amount used for this purpose in depression ridden 1937-38, and State assistance to local governments has multiplied more than 7½ times.

Four principal factors have been involved in this increase: (1) a doubling of the State’s population, (2) the present coordinated building program to meet future growth—a move which was not possible with the depressed revenues and unemployment relief needs

of 20 years ago, (3) almost a doubling in price levels, and (4) an increase in the scope and quality of governmental services. It is not possible, of course, to isolate these elements and determine the precise effect of each. Adjusted for the gain in population, however, the growth has been almost $3\frac{1}{2}$ fold from \$36.94 per capita in 1937-38 to \$127.07 in the proposed budget program. Of these two amounts, \$3.31 and \$26.20, respectively, represent capital outlays. Hence, current operations and local assistance payments have increased from \$33.63 twenty years ago to \$100.87 budgeted for the ensuing period. In dollars of 1937-38 purchasing power, the \$100.87 per capita for State operations and local assistance would have amounted to \$53.33.* Thus, in constant dollars, there has been an increase of \$19.70 per capita over the 20-year interval, of which \$17.21 is shown in local assistance and \$2.49 in State operations.

Unemployment relief, one of the most pressing problems of the earlier year, has disappeared from the fiscal picture. It may be contended that this change produces a favorable comparison so far as State operations are concerned. With relief payments eliminated from the 1937-38 data, other State operations in constant dollars have advanced from \$10.50 per capita in 1937-38 to \$17.97 proposed for next year. However, it must be recognized that the necessity of providing unemployment relief severely restricted other costs. These undoubtedly would have been considerably greater, had there been no need for relief payments. Thus, the \$2.49 per capita increase in State operations is not the biased figure it would appear to be at first glance.

The aggregate income of California's expanded population is six times the amount received two decades ago. Growing from a total of \$5.1 billion in 1937, personal income of California residents this year will reach a record \$31.3 billion. As a result of this growth, the ratio of State expenditures to total income of

individuals has increased considerably less than might be expected. From \$4.75 per \$100 of income in 1937-38, the ratio has advanced to an estimated \$5.55 in the budget year, an increase of 80 cents out of each hundred dollars. Payments for State operations have dropped from \$1.99 to \$1.48, but the entire decline is due to elimination of relief payments. Other operating costs have risen 14 cents. Capital expenditures have increased from 43 cents—which 20 years ago was virtually all for highway construction—to \$1.14; and local assistance has grown from \$2.33 per \$100 of personal income in 1937-38 to \$2.92 in the pending expenditure program.†

Annual data showing expenditures by principal purposes, per capita costs, and expenditures per \$100 of personal income are given in the table below. The figures show clearly the decline in spending during the war period, particularly in relation to personal income, and the strong upward trend during the postwar years. A large part of the latter movement represents the cost of activities and projects postponed during the war, financed with war accumulated surpluses and reserves.

By far the largest part of the 20-year increase in State expenditures has taken place in payments for education. Nearly 40 percent (\$592 million) of the \$1.5 billion growth in outgo is to be found in this area of activity. Among the many factors contributing to this change are, of course, the tremendous growth in enrollments at all types of schools, the larger State support per student, the current emphasis upon outlays for buildings at State educational centers, the

* Based upon a consumer price index of 60.8 in 1937-38 and 115.0 for July, 1955, the price level used in preparing the 1956-57 budget.

† In making these and the following computations, expenditures during the State fiscal year, which ends June 30th, have been compared with personal income during the preceding calendar year. See the tabulation on page A-18 for personal income data.

STATE EXPENDITURE TRENDS AND RELATIONSHIP TO POPULATION AND INCOME

realistic provision for teachers' retirement, State assistance to financially distressed districts, and support of child care centers.

Ranking second in volume of increase since 1937-38 are the amounts going for highway operations—including new construction, traffic control, motor vehicle regulation, and related items. As shown in the table below, this function will take \$356 million more next year than in 1937-38. Of this amount, \$221 million represents the expanded highway construction program and \$79 million is comprised in the larger apportionments to counties and cities for roads and streets.

	Budgeted 1956-57 (million)	Change from 1937-38			
		Amount (million)	Percent	Per capita of income	Per \$100 of income
Education	\$676.9	\$592.3	699.8	\$36.70	\$0.51
Highways, vehicle regulation	418.8	356.0	566.3	21.12	.11
Welfare, health, etc.	192.8	142.8	285.2	6.52	— .36
Mental hygiene; corrections	150.7	141.3	1,503.9	9.60	.30
Natural resource development	101.6	92.7	1,046.4	6.09	.15
Fiscal affairs	32.7	27.2	495.8	1.57	— .01
All other	162.6	140.3	630.9	8.53	.09
Totals	\$1,736.1	\$1,492.6	612.9	\$90.13	\$0.80

The most rapidly expanding costs over the two decades have been those for mental hygiene and corrections. It is no exaggeration to say that these were the neglected activities of State government 20 years ago. Total expenditures were less than \$9,400,000, or \$1.43 per capita of total population. Payments for the two functions represented 18 cents per \$100 of personal

income. In sharp contrast, the \$150,691,000 budgeted for these two services next year amounts to more than \$11 per capita and 48 cents out of each \$100 received by all the people of California.

Second place in comparative rate of increase goes to conservation and development of natural resources. The many activities grouped under this broad heading show an aggregate expenditure increase of more than tenfold in the 20-year period. From less than \$9,000,000, the total has grown to \$101,551,000 in the fiscal program proposed for 1956-57. Even this larger figure is merely a fraction of the long-term needs in such areas as water conservation and power development.

Management of fiscal affairs and expenditures for the general operation of State government have shown the least comparative change. Although totals and per capita amounts are higher in both categories, the burden of costs upon individual incomes has changed very little. Support of fiscal affairs requires 10 cents per \$100 of personal income, against 11 cents allotted for this purpose 20 years ago. "Other expenditures" have increased from an amount equal to 43 cents to 52 cents per \$100 of income in the budgeted year. Expenditures included in this group for State operations dropped 11 cents; capital outlay is down 3 cents; but miscellaneous assistance to local governments has increased 23 cents per \$100 of personal income.

Annual per capita expenditures and the ratio of costs to aggregate personal income of California residents since 1936-37 for each of the seven broad functional groups are shown in the accompanying table.

EXPENDITURE TRENDS, BY MAJOR FUNCTIONS, AND RELATIONSHIP TO POPULATION AND INCOME

- There is \$375,025 in the Sacramento State Building Interest and Sinking Fund in excess of the amount necessary to retire all outstanding bonds.
- Money was transferred from the General Fund to the Bond Sinking Fund of 1943 to pay the principal and interest on these issues to final maturity; however, \$5,000,000 was loaned to the Highway Fund for the Golden Gate Bridge and Highway District. This loan will not be repaid until after final maturity of the bonds.
- Money is transferred from the Motor Vehicle License Fee Fund to the General Fund in the amount to meet the annual interest and redemption payments.
- Money was transferred to the School Board Retirement Fund to pay part of the annual redemption requirements on the School Building Bonds. In addition, repayments from school districts and interest earned on the bond funds is available to pay part of the interest and redemption payments.
- The servicing of these bonds is primarily the responsibility of the San Francisco Harbor Improvement Fund and the Veterans Farm and Home Building Fund; however, in the last analysis they are general obligation bonds.
- Callable on or after January 2, 1951, in the amount available in the sinking fund.
- Callable on or after January 2, 1955, in the amount available in the sinking fund.
- \$500,000 callable on or after March 1, 1971.
- Callable on or after January 2, 1941, in the amount available in the sinking fund.

Salaries and Wages

Position Titles

In the detailed departmental and agency budgets, positions included in the state civil service have been set forth under the official class titles established therefor by the Personnel Board. Positions exempt from civil service have been listed by their departmental titles, as set forth on the official roster of employees maintained by the Personnel Board, or as maintained by the State Controller under the central pay installation.

Positions Now Authorized

In general, the positions included under this heading are those which were established as of July 1, 1955, together with those for which funds were provided in the 1955-56 Fiscal Year Budget or otherwise authorized as of that date. Amounts shown for positions now authorized represent actual salary payments for 1954-55 and estimated salary payments during 1955-56 and 1956-57, assuming full-year employment, unless the position is estimated to be established materially later than July 1st. In such cases only the cost from date of establishment is shown and the positions are so noted.

Replacement of positions at a higher level either (a) upon completion of a training period or (b) after temporarily "down grading" are included under this heading. Such transactions are indicated by showing both class titles on the same line, with a salary range of the minimum salary of the lower class and the maximum of the higher class. Examples: (a) administrative trainee-junior staff analyst, \$325-436, (b) junior-intermediate clerk, \$210-295.

Continuation during 1956-57 of positions authorized temporarily until June 30, 1956, are included under "Positions Now Authorized." These positions may be identified by an explanation in parentheses indicating the extent of the continuation, such as: (extended to December 31, 1956) or (extended to permanent).

Proposed New Positions

Proposed positions for the budget year which have not yet been established or authorized have been listed under this heading. Proposed increases in time of part-time positions are also listed under this heading, if the increase amounts to one-half time or more; otherwise the position is shown under "Positions Now Authorized" on the increased time basis.

Proposed new positions include upward replacement of positions only to extent that they involve major organizational changes.

Estimated Salary Savings

Unless indicated to the contrary by experience and anticipated conditions, a lump sum deduction is made

from each group total of salaries and wages in anticipation of savings which are estimated to accrue because of temporarily vacant positions, and the lower entrance rates of salary at which replacement personnel are paid.

The amounts of such estimated savings may not correspond to the number of positions deducted because of adjustments to the latter for positions authorized to start after July 1st. The amounts shown opposite such positions are for the estimated costs for the period of occupancy only and, therefore, there is no money savings to be anticipated.

Number of Positions

Filled positions in 1954-55 are counted to the nearest tenth of full-time and full-year employment, except for members of boards and commissions, temporary help, etc.

Authorized positions for 1955-56 and 1956-57 are counted to the nearest tenth of full time. Full-time positions authorized to start later than July 1st are counted as full positions, but the totals are adjusted for the unused time by a deduction under estimated salary savings.

All items enclosed in parentheses in the number of positions columns are excluded from position totals.

Salary Range

Rates of pay listed under this heading represent salary ranges established by the State Personnel Board for civil service, state college, and Maritime Academy classifications, or fixed by statute or by the appointing authority and approved by the Director of Finance for other exempt positions.

The amounts shown indicate (1) the minimum rate and (2) the maximum rate. The minimum of the range serves as the normal entrance rate for new appointees to any position in a class and represents the lowest rate to be paid to any employee who is considered qualified for appointment to or retention in a position. The maximum of the range represents the highest rate payable to an employee who occupies any position in the class.

Under the revised pay plan adopted by the State Personnel Board on July 25, 1947, the intermediate steps in each salary range have been fixed at a uniform percentage interval of 5 percent, except that no interval is less than \$10. This plan is used also for most salaries fixed for exempt positions. A table of salary ranges in the state service is included at the end of this section. Thus, \$220-268 indicates a monthly salary range having steps of \$220-\$231-\$243-\$255-\$268. Salary ranges for instructional positions in the state colleges and in other state agencies are set forth below.

Schedule of Salary Ranges in Use in the State Service*

Range No.	Steps					Range No.	Steps

EXTENT OF PROFESSIONAL PREPARATION

- CLASS I** Persons whose academic or professional preparation is deemed equivalent to four years beyond high school graduation or holders of recognized bachelor's degrees.
- CLASS II** Persons whose academic or professional preparation is deemed equivalent to five years beyond high school graduation or holders of recognized master's degrees.
- CLASS III** Persons whose academic or professional preparation is deemed equivalent to six years beyond high school graduation.
- CLASS IV** Persons whose academic or professional preparation is deemed equivalent to seven years beyond high school graduation or holders of recognized doctor's degrees.

^a Based on salaries effective September 1, 1955.

^b The positions for C. P. C. (California Polytechnic College) and the Agriculture Division of Fresno State College receive, in addition to the above schedule, three steps, or approximately 15 percent, if employed for 12 months instead of the normal 10-month teaching period.

^c Budgetary limitations on appointment to each rank are 15 percent to 20 percent for instructor or below, 25 percent to 35 percent assistant professor, 20 percent to 25 percent associate professor, and 25 percent to 35 percent for professor, of total authorized teaching positions.

Salary Schedule for Instructional Positions—Other State Agencies

(Ranges and Criteria of Application for Teachers)

Range	Steps					
A-----	\$358	\$376	\$395	\$415	\$436

F-----	458	481	505	530	556	

ACADEMIC
(Preparation)

VOCATIONAL
(Preparation)

CRITERIA FOR RANGE DETERMINATION

Range A	Provisional or special credential, without bachelor's degree.	—
Range B	Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential.	—
Range C	Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential; plus 12 upper division or graduate units which were not counted toward degree or which were taken subsequent to obtaining credential.	Three years' experience as journeyman craftsman.
Range D	Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential; plus 24 upper division or graduate units which were not counted toward degree or which were taken subsequent to obtaining credential. Or regular secondary credential.	Qualification for special secondary vocational Class A Credential in T and I and PS Education.

Ranges

E and F	Used only for "incentive increases" when a teacher receiving less than Range F completes at least six units in college level courses approved by his department and taken after appointment. He shall then be entitled to advance to the corresponding step in the next higher salary range for the class, and such an advance shall be known as an "incentive increase."
---------	---

Merit Salary Adjustments

Subject to availability of funds, Section 18854 of the Government Code requires that each employee in the civil service receive an increase of one intermediate step in his salary range during each year in a position in which his service rating is equal to or above a reasonable minimum, which has been fixed by the Personnel Board as "Standard."

Employees in salary ranges with a maximum step of \$436 and below and who have received permanent appointments may receive an increase from the first step to the second step of their salary range upon completing six months of qualifying service as defined by Personnel Board rules. In addition, employees in salary ranges with a maximum step of \$255 may receive a further increase from the second step to the third step upon satisfactorily completing the second six months of continuous employment.

Provision for the salary adjustments to which present employees will become entitled during the balance of the current year and in the budget year has been included in the amounts shown opposite each position or group of like positions. Inasmuch as turnover of personnel generally results in replacement at a lower step in the salary range, the amount budgeted for salary adjustments opposite each position is offset by a lump sum deduction for downward adjustments included in the deduction for "estimated salary savings."

Similar amounts for salary adjustments have been provided for exempt positions, where requested by the agency. Such adjustments have been computed in accordance with the salary schedule in effect for the respective positions.

Salary Range Adjustments

In determining the appropriate salary level for a class, a number of factors are taken into consideration by the State Personnel Board:

1. Rates of pay of private employers and of other public jurisdictions for comparable work.
2. Internal consistency of rates; equal pay for equal work, and pay differentials based on differences in the kind, difficulty, and responsibility of the work.
3. Conditions of work in the class.
4. The adequacy of existing appropriations which may be used for salary increase purposes.

The rates of pay of a group of approximately 1,350 laborers, tradesmen, and mechanics in the state service are established at the hourly wage rates negotiated by unions with private employers in the county in which they are employed. They receive all the collateral benefits, such as premium pay for night work, travel time, and overtime received by employees in private industry and, in addition, they receive the added state benefits of vacation and sick leave with pay, plus 5 cents and 10 cents an hour increase after one and two years' employment with the State.

The salary ranges shown are those in effect on November 19, 1955, and salaries and wages expenditures for both the 1955-56 and 1956-57 Fiscal Years reflect rates of pay then in effect. Statutory salaries are provided for at rates inclusive of enactment by the 1955 Legislature (Chapter 1168, Statutes of 1955, and other special enactments).

GENERAL ANALYSIS

Number of positions----- 42.8 47 47 -

The increase in total expenditures is due principally to the increase in the number of days in the legislative session. Expenditures are more comparable to those of 1954-55 Fiscal Year. Generally, provision is made to render the same level of service as that provided in the 1954-55 Fiscal Year with no major items of increase.

CONTRIBUTION TO LEGISLATORS' RETIREMENT FUND

EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57	CHANGE FROM 1955-56
SUMMARY AND				
RECONCILIATION WITH APPROPRIATIONS				
General Fund				
Budget Act appropriation (expenditures)-----	\$55,000	\$70,000	\$50,000	—\$20,000
GENERAL ANALYSIS				
State's contribution, equal to so much benefits to be paid during the year as is not provided by accumulated contributions of retired members, as estimated by the Board of Administration, State Employees' Retirement System. The transfer for 1956-57 is lower because of offsetting excesses in previous years transfers.

JUDICIAL COUNCIL

The Judicial Council surveys the condition of business in the courts with the view of simplifying and improving the administration of justice. Suggestions are submitted to the courts for expediting business and helping to secure uniformity. The chairman also equalizes the work of judges by making assignments to courts with heavy dockets. The council also collects and compiles statistics on all courts and makes many special studies looking to the improvement of the administration of justice, some of which are required by the Legislature and others voluntarily undertaken.

GENERAL ANALYSIS

State's contribution represents 2½ percent of the salaries of the Justices of the Supreme and Appellate Courts. The State's contribution for the superior and municipal court judges is included in the Local Assistance Budget.

DISTRICT COURT OF APPEAL, FIRST APPELLATE DISTRICT

The court has jurisdiction over appeals from superior courts in Alameda, Contra Costa, Marin, Monterey, San Benito, San Francisco, San Mateo, Santa Clara, and Santa Cruz Counties, and also handles appeals transferred from the Supreme Court and certain original proceedings. The court consists of two divisions of three justices each.

Governor's Office

OFFICE OF CIVIL DEFENSE

Pursuant to Chapter 1, Division 7, Military and Veterans Code, as amended (Civil Defense Act of 1950) the Governor has assigned the duties thereunder to personnel in his office, known and referred to as the Office of Civil Defense. This office is responsible for coordinating the plan and program for the civil defense of the State.

GENERAL ANALYSIS

Number of positions 111.9 94.7 95.5 0.8

The budget reflects the continuation of the level of operations approved for the current year. The decrease is primarily attributable to the reduction in estimated costs of moving expenses, relocation of stockpiled supplies and equipment and relocation of control centers which are to be accomplished during the current year.

STATE EMPLOYEES' RETIREMENT SYSTEM

Administers the State Employees' Retirement System and the Legislators' Retirement System. This involves determination of membership, computation, collection, and recording of employer contributions and member contributions, service and compensation; the computation and payment of withdrawals of member contributions and death and retirement benefits, including retirement for service, ordinary and industrial disability and industrial death; the investment of funds; the preparation of periodic and special valuations, the preparation of annual and special reports.

Members of the State Employees' Retirement System consist of state employees (including most university employees) and employees of approximately 330 local governmental jurisdictions participating on a contractual basis. Members of the Legislators' Retirement System consist of legislators and elective state officials who elect membership.

The Board of Administration on July 1, 1955, became the administrator of the Old Age and Survivors' Insurance program as related to public employees in California under the Federal Social Security Act and in accord with provisions of state and federal law and a federal-state agreement.

As of July 1, 1955, the board's responsibility for administration of the United States Defense Savings Bond program was transferred to the State Controller in accord with 1955 legislation.

PERSONNEL BOARD

administers the State Civil Service Act and prescribes and enforces rules thereunder. Examines and certifies qualified applicants for appointment to the State Civil Service. Creates, classifies and adjusts classes of positions and adopts suitable pay rates. Maintains records on approximately 64,000 state employees. Assists state agencies in training employees. Performs services for state agencies excepted from civil service and for political subdivisions of the State on a reimbursable basis. Establishes standards of health and safety in state agencies.

GENERAL ANALYSIS

Number of positions-----	330.8	338.1	347.1	9
Provision is made for continuing the existing level of service. Five technical positions have been added to absorb the additional examining, classification and pay work load, and to intensify the investigation of applicants for top-level administrative positions. One personnel training consultant has been added to meet the increased training work load.

OPERATIONS						
This division is responsible for conducting the day-to-day classification and examining work of the agency and recommending civil service and state college pay ranges to the personnel board.						
Analysis						
The increase is due to five positions to meet the increased work load. One position is added to perform the classification of nonacademic personnel of the state colleges; two positions are provided to meet the increased examination work load; and two positions to meet the increased work in reviewing applications and qualifications appraisal board arrangements.

DEPARTMENT OF AGRICULTURE

Administers and enforces the provisions of the Agricultural Code and related statutes. These laws call for regulatory and service activities dealing with the protection of plantings and livestock from infectious diseases, pest animals, weeds and injurious insects, and with aids to insure the marketing of quality agricultural products. In this broad field of activity the department cooperates extensively with the United States Department of Agriculture on the one hand and with county agricultural services on the other. The General Fund finances activities which are of general public benefit and the Department of Agriculture Fund finances other activities for which the beneficiaries are charged.

GENERAL ANALYSIS

59	Number of positions—General Fund	778.6	787.1	844.1	57
60	Number of positions—Department of Agriculture Fund	480.5	499	504.8	5.8

The budget of the Department of Agriculture is based in general upon continuation of the level of service now authorized with adjustment for work load changes. Two exceptions to this general rule are the inspection program to assure sanitary and wholesome conditions in the processing of poultry and the program for the establishment and enforcement of rules governing standardization of poultry meat products, both of these activities being the result of legislation enacted during the 1955 Session of the Legislature. A substantial reduction is anticipated the Khapra Beetle Suppression program, a factor which to a large extent offsets the increases attributable to the new programs.

^a Composed of savings in salaries and wages, \$53,329; operating expenses, \$28,952; equipment, \$40,244; and excess reimbursements, \$122.

^b Composed of savings in salaries and wages.

^c Not included in budget totals. See Schedule 9 for Summary of Federal Receipts and Expenditures.

32	OFFICE SERVICE UNIT						
33	Analysis						
34	This unit was established July 1, 1953, on a pilot basis, and since that time has gradually assumed all duplicating and related services						
35	for the entire department. During the last two months of the past year, the final consolidation of all services was accomplished.						
36	Charges are made to all functions using the service so that reimbursements offset the cost of operation. The current and budget						
37	years represent the first full years of completely centralized service by this unit.

1	DIVISION OF PLANT INDUSTRY						
2	ADMINISTRATION						
3	Analysis						
4	The function and duties of the Chief of the Division of Plant Industry are to supervise, administer and correlate the office and field activities of the six bureaus comprising the division and to correlate the legislative program of the Department of Agriculture.						
5	An assistant division chief is proposed in the budget year because of increased work load and additional responsibilities which have been assigned to the division chief.

28	BUREAU OF ENTOMOLOGY						
29	Analysis						
30	This function includes all administrative activities of the bureau including planning and general supervision of major insect eradication-control programs which are budgeted as special projects; it also includes apiary inspection, insect pest survey, insect identification, conduct of minor insect eradication-control programs, development of commodity treatments, and insect pest control advice to county agricultural commissioners. One additional entomologist is recommended to provide a full-time, competent employee for the state-wide grasshopper survey and control program being conducted in cooperation with the Federal Government. While the cost of this position has been offset by a decrease in seasonal help this fact is not apparent in the detail schedule because of increases due to the absorption in this function of the residual phases of five major pest control programs scheduled to be curtailed.

36	DESTRUCTION AND CONTROL OF BEET LEAFHOPPERS						
37	AND HOST PLANTS						
38	Analysis						
39	This function has as its goal the maintenance of low population levels of the leafhoppers which transmit a serious virus disease of						
40	tomatoes and other susceptible host crops. The current and budget year programs are predicated upon the anticipated						
41	necessity for pest and host control measures on 250,000 acres. The average area requiring treatment during the period 1952						
42	to 1955 has been about 230,000 acres. However, in both 1952-53 and 1955-56 treatment of 255,000 acres was found necessary.

22	GRAPE LEAF SKELETONIZER ERADICATION						
23							
24	Analysis						
25							
26	It is proposed this project be restricted to a seasonal one and the remaining activities be absorbed into general entomology. Not only						
27	has the problem area expanded to a point where it is not economically feasible to maintain it, but the objectives of holding down						
28	outward spread until satisfactory biological control measures could be developed have now been realized. Current and future						
29	participation, therefore, will be restricted to surveys supplementing quarantine action to prevent spread of the insect to major						
30	grape growing areas.

18	MEXICAN FRUIT FLY SURVEY AND TREATMENT						
19	Analysis						
20	Since the initial trapping of a Mexican fruit fly in Tijuana, Baja California, in January of 1954, and with subsequent collections in various Baja California localities continuing into the 1955 season, indicating an established infestation there, extensive survey and protective control measures have been inaugurated north of the border in San Diego and Imperial Counties. Upon trapping of a fly in San Ysidro, San Diego County, these operations have been intensified in that area. The fly species involved is a major pest of grapefruit, oranges, apples, peaches, pears, and plums on the mainland of Mexico, and its establishment in California would pose a serious threat to California growers. This program is therefore proposed to be continued into the budget year. Three permanent positions are proposed in lieu of seasonal help due to continuous year-round activity.						
21	The work, in which there is state, federal, and county participation, involves weekly inspection of nearly 4,000 fly traps and tri weekly spraying of nearly 23,000 host trees within five miles of the Mexican border in San Diego and Imperial Counties.

1	DIVISION OF PLANT INDUSTRY—Continued						
2	KHAPRA BEETLE SUPPRESSION						
3	Analysis						
4	This project, inaugurated in the spring of 1955, has as its objective the ultimate eradication of this most destructive of all known storage pests from California. A cooperative undertaking in conjunction with the United States Department of Agriculture, an increase of \$132,161 in expenditures during the current year is in anticipation of the treatment of 123 premises as compared with 50 in the past year, while a \$260,486 reduction in the budget year reflects continuing needs at a reduced level. Direct federal appropriations were approximately \$80,000 in the past year and are expected to reach about \$270,000 in the current year.						
5	The program includes fumigation of infested properties as follows:						
6	1954-55				50 properties with 18,446,000 cubic feet		
7	1955-56				123 properties with 26,850,000 cubic feet		
8	1956-57				60 properties with 10,000,000 cubic feet		
9	Based on more than 13,000 inspections, 198 infested premises have been found in 17 California counties. The budget year proposal is based on continuing surveys and the treatment of those premises found to be infested.

45	BUREAU OF PLANT QUARANTINE						
46	Analysis						
47	This bureau is charged with the enforcement of the provisions of the Agricultural Code, regulations of the Director of Agriculture and the U. S. Department of Agriculture pertaining to plant quarantine. In addition to directing the plant quarantine activities of the 53 agricultural commissioners, this bureau maintains 17 border stations on the interstate highways entering California, and three maritime stations at the ports of San Francisco, San Pedro and San Diego. Maritime shipping and airplane arrivals were normal during the past year. Border stations increased slightly over the previous year. The bureau program is again projected at the same level during the current and budget years.

1	DIVISION OF PLANT INDUSTRY—Continued						
2							
3	BUREAU OF PLANT PATHOLOGY						
4							
5	Analysis						
6							
7	The work of the Bureau of Plant Pathology is concerned with the infectious and contagious diseases of plants, such as those caused						
8	by bacteria, fungi, viruses, and plant parasitic nematodes, as distinguished from insect pests. It includes the prevention of the						
9	introduction and spread of serious and destructive new diseases, their detection when they become introduced, and their sup-						
10	pression and eradication when outbreaks occur. The bureau cooperates with the county agricultural commissioners and the United						
11	States Department of Agriculture in these functions.						
12	One new laboratory technician position is proposed to assist in meeting increased work load arising from a greater number of speci-						
13	mens being submitted for examination. This increase is attributable largely to the more widespread recognition of nematodes as						
14	a serious agricultural problem. An assistant plant pathologist position plus one of intermediate stenographer-clerk are recom-						
15	mended in lieu of seasonal help to prevent the loss of qualified and experienced employees.

41	BUREAU OF RODENT AND WEED CONTROL AND SEED INSPECTION						
42	Analysis						
43	This function is concerned with the eradication and control of noxious weeds and poisonous plants where found to be detrimental to						
44	agriculture or livestock and the control of field rodents where known to harbor diseases transmissible to humans as well as to						
45	reduce losses to crops. The bureau also carries on seed inspection work for the enforcement of the California Seed Law and in						
46	cooperation with the Federal Government the enforcement of the Federal Seed Act as well as testing all seed certification						
47	samples.						
48	One additional junior seed inspector is recommended for an increased volume of seed produced in the Central Valley area and to						
49	provide a level of inspection in this region comparable to that in other parts of the State.

1	DIVISION OF ANIMAL INDUSTRY						
2							
3	ADMINISTRATION						
4							
5	Analysis						
6							
7	The function and duties of the Chief of the Division of Animal Industry are to supervise, administer, and correlate the office, field						
8	and laboratory activities of the four bureaus that presently comprise the division. In accordance with the requirements of						
9	Chapters 1843 and 1844, Statutes of 1953, a new Bureau of Poultry Inspection is proposed in the budget year.						
10							
11	SALARIES AND WAGES				SALARY RANGE		
12	Chief of division-----	1	1	1	\$782-950	\$10,860	\$11,400

33							
34	BUREAU OF LIVESTOCK DISEASE CONTROL						
35							
36	Analysis						
37							
38	This function is concerned with the prevention, control and eradication of infectious, contagious and serious diseases of livestock and						
39	poultry; the operation of the state-wide program of bovine tuberculosis eradication, bovine brucellosis control based on vacci-						
40	nation of calves and the control of vesicular exanthema in swine; the operation of pathology laboratories at Sacramento, Peta-						
41	luma, Fresno, and San Gabriel for diagnosis of diseases of livestock and poultry; and the operation of pathology laboratories at						
42	Turlock and Lancaster for diagnosis of diseases of poultry.						
43	One additional intermediate stenographer-clerk is proposed for the Sacramento district office due to separation from the headquarters						
44	office and increased clerical work from the vesicular exanthema control program.						
45	One additional laboratory helper is proposed for the Fresno laboratory due to an increasing number of large animal cases and for						
46	additional increases expected when facilities now under construction are completed.						
47

1	DIVISION OF ANIMAL INDUSTRY—Continued						
2	BUREAU OF MEAT INSPECTION						
3	Analysis						
4	This bureau conducts inspection of animals and meat food products in slaughtering and processing establishments, for the purpose of						
5	protecting the public from diseased or otherwise unwholesome meat or products. The bureau also supervises state-approved						
6	municipal meat inspection conducted by four cities in the State. A meat inspection laboratory is maintained by the bureau to						
7	assist the inspectors in detecting the use of adulterants, preservatives, or other unapproved or unsatisfactory materials in meat						
8	food products. The bureau also inspects foreign cold storage meat and enforces laws prohibiting the sale of uninspected meat or						
9	products in the State. Based upon the increased volume of processed meats and to more efficiently utilize the time of the profes-						
10	sional personnel employed in the laboratory one additional position of laboratory assistant is recommended.

		54-55 (Filled)	55-56 (Auth.)	56-57 (Auth.)			
1	DIVISION OF ANIMAL INDUSTRY—Continued						
2	BUREAU OF POULTRY INSPECTION						
3	Analysis						
4	This bureau is for the enforcement of Chapters 1843 and 1844, Statutes of 1955. Chapter 1843 provides for licensing of plants						
5	where poultry is slaughtered, dressed or drawn, cut up, recut, packed or repacked. The act provides for approval of plans and						
6	specifications for intended construction or reconstruction of plants and for regulations to be adopted providing for sanitary						
7	requirements. The organization planned provides for 10 state poultry sanitary inspectors for this function. Chapter 1844						
8	provides for inspection for wholesomeness of poultry and rabbit meat on a state-wide basis. The act provides that actual						
9	inspection shall be done by licensed poultry meat inspectors. It is planned that this will be accomplished under the supervision						
10	of 23 veterinarians.						
11	The chapter provides that the director shall forthwith, after passage of the act, arrange for conducting schools of instruction						
12	for the poultry meat inspectors. They are then to be examined and licensed by the director.						
13	Details of inspection procedure and disposition of carcasses will be established by regulations, following public hearings. It is						
14	estimated that there are from 1,300 to 1,500 poultry slaughtering and poultry processing establishments in the State that will						
15	be affected, and that there will be from 1,500 to 2,000 poultry meat inspectors to train, license and supervise. The standards of						
16	sanitation and inspection for wholesomeness probably will follow very closely those adopted by the Poultry Division of the						
17	U. S. Agricultural Marketing Administration.						
18	The organization proposed provides for a bureau chief, an assistant bureau chief, two area supervisors (veterinarians III), three						
19	assistant area supervisors (veterinarians II), and 17 veterinary inspectors (veterinarians I). It is planned that one of						
20	the area supervisors will be stationed at Los Angeles, one at San Francisco, and that the assistant chief will supervise the						
21	San Joaquin and Sacramento Valley areas. One senior stenographer-clerk, one intermediate stenographer-clerk and one inter-						
22	mediate typist-clerk in the Sacramento office are considered to be the minimum clerical staff necessary for such a bureau.						
23	Due to this being a highly specialized activity and the fact that the bureau will be charged with training and licensing inspectors						
24	and the licensing of establishments, it is necessary that the bureau chief and senior stenographer-clerk be employed approx-						
25	imately seven months in the current fiscal year.						
26	The increase in the budget year is the estimated cost of the staff as outlined above, less an estimated salary saving in the first year						
27	of operation due to anticipated difficulties in filling positions of this new function. The nominal amount provided in the current						
28	year provides for chief of the bureau and clerical help necessary in the proper planning and organization of this new bureau						
29	in order that the regulations, licensing, instruction, and all other related details will be ready and available by the effective						
30	date of this program. The amount of \$1,200 is provided in both the current and budget years as the estimated amount neces-						
31	sary in connection with the hearings to establish regulations in the current year and to further revise and re-establish regula-						
32	tions in the budget year. Other items of operating expenses represent the most realistic estimates possible of the amounts						
33	required based on proposed staffing.

32	BUREAU OF MARKETS						
33							
34	Analysis						
35							
36	This bureau provides assistance in the solution of marketing problems of agricultural groups which are not organized under formal						
37	marketing laws; assistance to new industries in formulating or obtaining marketing programs under the general marketing						
38	laws; and administration of the marketing programs formulated under general marketing laws.						
39	The General Fund is reimbursed for all expenditures for the latter two types of services from deposits received and assessments						
40	collected. This program is projected at the current level in the current and budget years.

31	BUREAU OF MARKET NEWS						
32							
33	Analysis						
34							
35							
36	The Bureau of Market News operates in California under a cooperative agreement with the United States Department of Agriculture						
37	under the title of Federal-State Market News Service. All costs are borne so far as is practicable on an approximate fifty-						
38	fifty basis. Daily reports are published on the marketing of agricultural commodities in intrastate, interstate, and foreign markets.						
39	These reports contain current data on prices, market conditions, demand, supply, truck and carlot movements inbound and out-						
40	bound, daily truck unloads at terminal markets, cold storage holdings, and other related information. Commodity groups included						
41	in this service are fresh fruits and vegetables; livestock and dressed meat; dairy and poultry products; hay, grain and feed-						
42	stuffs; dried fruits; olive oil; bulk wine movement in carlots interstate, winery prices to growers, and a current census of grape						
43	crush tonnage; honey; dried edible beans; hops; rice; and a number of other miscellaneous products.						
44	Provision is made for continuation of the present level of service with necessary adjustment, to convert during early 1956 from radio-						
45	telegaph to leased landline in accordance with a decision by the Federal Communications Commission to withdraw from the						
46	State the use of radio frequencies previously used for the compilation of marketing data.

4							
5	Analysis						
6							
7	The Bureau of Agricultural Statistics functions on a cooperative basis with the Federal Department of Agriculture. Its duties						
8	are to prepare and publish the official estimates pertaining to agriculture, and to otherwise collect, develop, maintain, publish						
9	and disseminate systematic statistical and similar information relating to the agriculture of California.						
10	No increase in activity is planned and the budget proposed is based upon continuation of the current year level of service.

52	STANDARDIZATION						
53							
54	Analysis						
55							
56	This bureau enforces quality standards and deceptive pack provisions of the Agricultural Code relating to fruits, nuts, vegetables,						
57	honey, eggs, and poultry meat. Effective September 7, 1955, Chapter 1718, Statutes of 1955, transferred the certification of seed						
58	potato plantings to Department of Agriculture Fund activities. Also, effective July 1, 1956, Chapter 1849, Statutes of 1955, makes						
59	the department responsible for poultry meat standardization consisting of the regulation of classification standards and marking						
60	requirements relating to meat of chickens, turkeys, and rabbits. To undertake this program 11 new positions are recommended						
61	plus funds for related operating expenses and equipment.

48
49 **FEDERAL COOPERATIVE MARKETING RESEARCH**
50 Projects in marketing research are conducted in cooperation with the United States Department of Agriculture on a matching basis
51 under the provisions of Public Law 733 (79th Congress) and Section 1286 of the Agricultural Code.
52
53 **Bureau of Plant Pathology**
54
55 **Analysis**
56
57 The research of this function is concerned with the development of a methodology for certification that fruit and nut tree and vine
58 nursery stocks are free of serious virus diseases. These diseases cause serious losses and, in addition to damaging the nursery
59 stock and the trees and vines grown from infected stock, they are readily spread through infected propagating materials such
60 as budwood, scions, and rootstocks. Fruit and nut trees and vines once infected continue to carry the viruses indefinitely and all
61 progeny vegetatively propagated from them also are infected. Measures to prevent these diseases and to improve the consumer
62 acceptance and the marketability of the nursery stocks, therefore, are directed toward clean sources of propagating materials.

1							
2	VESICULAR EXANTHEMA INDEMNITIES						
3							
4	To provide funds to match those of the Federal Government in a program of paying indemnities for liquidation of the remaining vesic-						
5	ular exanthema exposed hogs in California. Since March 19, 1954, when vesicular exanthema control regulations became effective,						
6	566 hog ranches, feeding 225,620 hogs, have changed their operations in order to feed only cooked garbage. Two remaining hog						
7	ranches were to change by January 1, 1956, when garbage cooking for hogs becomes mandatory. However, vesicular exanthema						
8	continues to persist on three premises which have been cooking garbage satisfactorily and have been in compliance with quarantine						
9	and other requirements. Approximately 12,000 hogs on these premises have all been exposed to vesicular exanthema and there						
10	is a nearly nonexistent market for such animals in regular trade channels.						
11

1	ADMINISTRATION						
2							
3							
4	Analysis						
5							
6	This is a recapitulation of the amounts chargeable to the Department of Agriculture Fund for a proportionate share of General Fund						
7	financed services rendered to special fund activities.						
8							
9	OPERATING EXPENSES						
10	Pro rata departmental administration -----				\$143,745	\$167,054	\$176,913
11	Pro rata general administration -----				52,118	55,849	58,641
12	Pro rata Attorney General's services -----				57,789	53,850	53,850
13	Workmen's compensation insurance -----				17,834	14,986	15,240
14	Automobile—insurance -----				8,370	6,249	6,292
15							
16	Totals, Administration -----				\$279,856	\$297,988	\$310,936
17	Deduct amounts distributed as "pro rata overhead expense" to						
18	each Department of Agriculture Fund function -----				—279,856	—297,988	—310,936
19							
20	Net Totals, Administration -----				—	—	—
21							
22							
23	DIVISION OF PLANT INDUSTRY						
24							
25	BUREAU OF PLANT QUARANTINE—NURSERY SERVICE						
26							
27	Analysis						
28							
29	This service is charged with the regulation of the movement of nursery stock to prevent the distribution of pests; the licensing of						
30	persons selling nursery stock; the enforcement of nursery stock grades and standards; the registry and certification of trees and						
31	plants as to freedom from pests and the identification of fruit and nut tree root and top stock. An additional permanent clerical						
32	position is proposed in the budget year for expanding certification programs and license work.						
33							
34	SALARIES AND WAGES				SALARY RANGE		
35	Supervisor of nursery service -----	1	1	1	\$530-676	\$7,728	\$7,728
36	Assistant supervisor of nursery						
37	service -----	1	1	1	458-556	6,672	6,672
38	District nursery inspector -----	6	6	6	415-505	35,440	36,001
39	Junior plant quarantine inspector -----	1	1	1	341-415	4,980	4,980
40	Senior stenographer-clerk -----	0.8	—	—	281-358	—	—
41	Intermediate stenographer-clerk -----	1.2	2	2	255-310	6,419	6,733
42	Intermediate typist-clerk -----	1	1	1	243-295	3,540	3,540
43	Seasonal and temporary help -----	(0.3)	(0.7)	(0.4)	(1,180)	2,730	2,000
44							
45	Totals, Positions Now Authorized -----	12	12	12	\$62,315	\$67,509	\$67,654
46	Proposed New Positions:						
47	Intermediate typist-clerk -----	—	—	1	243-295	—	2,988
48	Estimated salary savings -----	—	—0.2	—0.2	—	—600	—600
49

15	SEED TESTING AND CERTIFICATION SERVICE						
16							
17	Analysis						
18							
19	This is an optional service performed in connection with production and marketing of certified seed. Activities are proposed to be						
20	continued at the existing level. It is anticipated that an administrative hearing will be held during the current year to increase						
21	the fees charged to compensate for the increase in costs due to salary increases granted during the past three years.

54	BUREAU OF CHEMISTRY						
55							
56	Analysis						
57							
58	This function is for the control and regulation of economic poisons and fertilizing materials. Two additional positions are proposed						
59	to meet increased work load; one inspector of economic poisons and fertilizers to handle the growing number of applications for						
60	registration of new economic poisons and one laboratory assistant to provide assistance in analyses of an increased number of						
61	samples.

1	DIVISION OF MARKETING—Continued						
2	BUREAU OF MILK CONTROL						
3	Analysis						
4	The Bureau of Milk Control administers and enforces the California milk control statutes relating to the establishment of minimum						
5	prices for fluid milk and fluid cream and dealing with fair trade practices in the marketing of milk and other dairy products;						
6	also the Dairy Produce Exchange Act and the California Dairy Industry Advisory Board Act.						
7	The California Milk Control Act provides for the establishment of milk marketing areas, and today there are 37 separate areas where						
8	minimum producer and minimum resale prices are established. The bureau is also required to license market milk distributors						
9	and secure bonds guaranteeing payment to producers. The statutes provide for an assessment to support these functions.						
10	Two additional stenographic positions are recommended to assist a supervisory auditor and two economist positions which were estab-						
11	lished in lieu of auditing positions during the current year. These positions were established to assure uniformity of audit pro-						
12	cedures; and to translate cost data into minimum wholesale and retail price orders, and for developing stabilization and mar-						
13	keting plans.

25	TION—CANNING TOMATO INSPECTION						
26							
27	Analysis						
28							
29	All canning tomatoes received by processors must be inspected by this agency. Activity is governed by the tonnage of canning tomatoes						
30	marketed. Inspections during the past year were made of approximately 1,400,000 tons and during the current year because of						
31	favorable weather and market conditions it is estimated 2,100,000 tons will be inspected. The budget for 1956-57 is based on						
32	the inspection of 1,700,000 tons which approximates the tonnage of a normal season.

5	TION—SEED POTATO CERTIFICATION						
6							
7	Analysis						
8							
9	This function is concerned with inspection of fields of seed potatoes entered for certification to determine purity of strain and free-						
10	dom from disease and defects. In the current year the funds for this function, from July 1, 1955, to September 7, 1955, are						
11	included in the General Fund budget of the Bureau of Fruit and Vegetable Standardization. Chapter 1718, Statutes of 1955,						
12	changes this function to a special fund effective September 8, 1955. Also, this special fund budget for the current and budget						
13	years includes funds for the Winter Seed Potato Test Plot to determine the presence or absence of diseases in the crop of seed						
14	grown for certification purposes. No change in program level is proposed.

GENERAL ANALYSIS

Number of positions -----	10.5	12.9	12.9	-
The chicken testing program at the test site near Modesto is anticipated to continue random sample egg laying tests, with entry fees increased from \$50 to \$75; a full year of the cage test which starts March 1, 1956, as well as continuing the random sample chicken meat test.				
The turkey testing program at the test site near Keyes is planned to start the first test May 1, 1956, with 20 entrants.

DEPARTMENT OF CORRECTIONS

The department has the responsibility for the coordination of the correctional activities of the State. It is responsible for the administrative control and operation of all state institutions for adult felons. The department also inspects prisons and jails and makes recommendations on plans and specifications of facilities.

DEPARTMENT OF CORRECTIONS—Continued

GENERAL ANALYSIS

The 1956-57 Budget is based on an average inmate population of 15,893, an increase of 445 or 2.9% over the 15,448 average for the 1955-56 Fiscal Year. However, the projected 1956-57 Fiscal Year population is 557 below the 16,450 average population that was anticipated in the 1955-56 Governor's Budget. The average number of active parolees under California supervision is estimated to be 7,235 in the 1956-57 Fiscal Year, an increase of 645 or 9.8% over the 1955-56 Fiscal Year. Of this increase, 340 additional parolees will be assigned to the Special Intensive Parole Unit.

The total increase in the department's budgets in the amount of \$1,390,854 or (5.4%) reflects the effect of the following changes involving more than one institution:

1. New facilities.
2. Initiation of a new intensive treatment program at two institutions.
3. Extension of the group counseling program.
4. Sabbatical leave for instructors who were formerly employed by the respective school districts.
5. Provision for a fifth correctional officer in each state forestry honor camp and each highway road camp.
6. Additional medical technical assistant coverage in the hospitals at three institutions.
7. Additional classification and parole work load.
8. Provision for extension of the clothing ration to three more institutions.

The following changes in individual budgets which contribute to the increase are discussed in the respective budgets:

1. A reorganization in the supervisory custodial staff at the Institution for Women.
2. Increase in the number of parolees supervised by the Adult Authority, Division of Adult Paroles and expansion of the Special Intensive Parole Unit as well as an increase in the number of female parolees supervised by the Board of Trustees, Institution for Women.

NEW FACILITIES

Additional facilities scheduled for occupancy during the 1956-57 Fiscal Year are as follows:

Medical Facility:

Vocational shops, chapels, auditorium, and other facilities

Men's Colony:

Three temporary dormitories

Institution for Men:

Vocational shops at the Tehachapi Branch

State Prison at Folsom:

30-man state forestry spike camp to be operated six months a year

Increase capacity, 30 to 80-man state forestry camp

State Prison at San Quentin:

80-man state forestry camp

Increase capacity, 30 to 60-man state forestry camps

Institution for Women:

120-inmate (fifth) cottage

The required staffing for each of these facilities is discussed in the budgets for the respective institutions.

INTENSIVE TREATMENT PROGRAM

The program involves 25 proposed new positions as follows:

1 Departmental Administration	\$6,672
12 State Prison at San Quentin	53,364
12 Institution for Men, Chino (effective January 1, 1957)	25,167
Operating expenses (approximate)	7,000
Minor capital outlay (approximate)	10,000
Equipment	9,255
25 Total	\$111,458

The proposed program will provide an intensive course of treatment to a group of nonviolent offenders. Its purpose is to bring about more rapid resocialization and thus permit earlier release of inmates better prepared to succeed on parole.

The program would start at San Quentin July 1, 1956, with 350 inmates in the intensive treatment group. Effective January 1, 1957, it will be extended to Chino with a like number in the experimental group. The final phase of the build-up will occur starting July 1, 1957, at Soledad with a like number of inmates. To insure objectivity, control groups made up of inmates of similar type will be established simultaneously with the treatment groups. The latter groups would not receive the intensive treatment.

The period of intensive treatment will be approximately one year. A total of 19 additional professional positions plus six clerical positions will be required to provide the intensive treatment and services incidental thereto. Case loads for professional staff will average 50 inmates for each correctional classification officer. One professional position is budgeted in the central office and will initiate and supervise the program at San Quentin and then move to Chino and establish the program there.

The Adult Authority anticipates that the augmented treatment program can be expected to result in permitting release an average of six months earlier than would have been possible without intensive treatment. For statistical validity, the control group not receiving intensive treatment will likewise be released earlier. The entire project group will be carefully screened; and inmates whose records or behavior while institutionalized indicate danger of antisocial activity of a physically violent nature will not be eligible for earlier release.

Potential savings from this program far exceed its cost. While releases after intensive treatment will not occur until the 1957-58 Fiscal Year the direct savings during the four-year period of 1956-57 through the 1959-60 Fiscal Years will be approximately \$135,000. This estimate is based on the \$341 average cost of supplying one inmate at San Quentin with food, clothing, medical care, and other minor maintenance costs.

Further savings could be realized, if the program should prove successful, through postponing required capital outlay expenditures for additional facilities brought about by a reduction in the length of time in prison for approximately one-half of the total annual parolees.

DEPARTMENT OF CORRECTIONS—Continued

GENERAL ANALYSIS—Continued

GROUP COUNSELING (OVERTIME)

Provision is made to extend the full program to the following institutions:

State Prison at Folsom	\$5,000
Deuel Vocational Institution	3,350
Institution for Men	5,000
Institution for Women	1,000
State Prison at Soledad	4,150
Men's Colony	1,675
State Prison at San Quentin	7,537
Medical Facility	2,000
Total	\$29,712

The group counseling program offers an opportunity for the department to provide additional treatment services without additional staff through the use of vocational instructors, trades and crafts employees, correctional officers, and others as leaders of groups of inmates brought together specifically for self-improvement.

In essence, the program trains employees at all levels to lead inmate groups meeting on a voluntary basis for purposes of character improvement. A text and training material is provided. The discussions follow the text and are aimed at helping inmates better understand the motivating forces behind their criminal behavior in order that they may learn to control these forces or direct them into noncriminal channels.

During the 1956-57 Fiscal Year, the principal expenditure proposed will be to pay correctional officers for leading group counseling classes on an overtime basis. These are officers whose posts preclude the possibility of giving group counseling during their regular work week. It is important to obtain as much correctional officer participation as is possible due to the 24-hour-a-day contact which the correctional officer class has with the inmate body, and the opportunity which their relationships with inmates provides for favorably affecting inmate behavior, both within the institution and after release.

This program was initiated at Folsom early in 1954. The free personnel involved at Folsom donated their time in the beginning and have been paid overtime in the current year. This overtime was financed by the delayed establishment of several new vocational instructor positions.

EDUCATION PROGRAM—SABBATICAL LEAVE

During the 1954-55 and 1955-56 Fiscal Years, the vocational instructors employed by the local school districts and teaching in the various prisons were transferred from the school district pay rolls to the prison support budgets, bringing the total number of instructors employed by the department to 122. Sabbatical leave was authorized by Chapter 1865, Statutes of 1955, for Department of Corrections instructors. Funds requested will provide relief for about one-fourth of the total instructors to take sabbatical leave for a six-weeks' period to enable them to maintain and further their professional achievement through additional education. The funds will be allocated to the various institutions as follows:

Name of institution	Total number of instructor positions 1955-56	Number of personnel qualifying and participating	Estimated cost
Medical Facility	7	2	\$1,250
Men's Colony	1	None	None
Institution for Men	22	4	2,500
State Prison, Folsom	10	3	1,875
State Prison, San Quentin	22	6	3,750
State Prison, Soledad	18	5	3,125
Deuel Vocational Institution	36	9	5,625
Institution for Women, Corona	6	1	625
Totals	122	30	\$18,750

FIFTH CORRECTIONAL OFFICER—STATE FORESTRY AND HIGHWAY ROAD CAMPS

16.5 additional positions proposed at a cost of \$64,911 would be established at the various institutions operating camps as follows:

	State forestry camps	Highway road camps	Totals
Institution for Men	4	1	5
State Prison at Folsom	3.5	—	3.5
State Prison at San Quentin	3	2	5
State Prison at Soledad	3	—	3
Totals	13.5	3	16.5

The present staff of one prison camp supervisor and four correctional officers provides minimum coverage 24 hours per day, seven days a week. This permits one person to be on duty in the camp at all times, but requires the prison camp supervisor to carry a regular shift thereby limiting his time to perform administrative duties. The fifth camp officer will enable the prison camp supervisor to perform his intended administrative function, and will provide for two free people during the day shift (the prison camp supervisor and one officer), permitting one person to leave the camp to pick up the mail, do local purchasing of supplies, care for emergency medical cases and do many other things of this kind required in the normal operation of a camp. The proposed staffing is comparable to that now budgeted for Youth Authority camps.

DEPARTMENT OF CORRECTIONS—Continued

GENERAL ANALYSIS—Continued

ADDITIONAL MEDICAL TECHNICAL ASSISTANT COVERAGE

Provision is made for 11 additional medical technical assistant positions to provide 24-hour, seven-day a week coverage in potential trouble areas of hospitals at three institutions. Detailed descriptions of post assignments are contained in the respective institution budgets. The positions would be distributed as follows:

4	State Prison at Folsom	\$15,984
2	State Prison at San Quentin	7,992
5	State Prison at Soledad	19,980
11	Totals	\$43,956

CLASSIFICATION AND PAROLE

A net increase of three positions at a cost of \$15,888 will be required for classification and parole interviewing based on published work load standards. The adjustments in staff will take place in several institutions as follows:

<i>Institution</i>	<i>Clerical positions</i>	<i>Professional positions</i>	<i>Total</i>
Men's Colony	2	1	3
Institution for Men, Tehachapi Branch	1	2	3
State Prison at Folsom	1	1	2
State Prison at San Quentin	-5	-1	-6
State Prison at Soledad	-1	-	-1
Institution for Women	1	1	2
Totals	-1	4	3

STANDARDIZED INMATE CLOTHING RATION

It is proposed to extend the standardized inmate clothing ration to three more institutions at the cost of \$119,612. Funds to establish the ration were provided for three institutions in the 1955-56 Fiscal Year Budget. Provision for additional funds is made in the budgets of the following institutions:

<i>Institution</i>	<i>Present basis</i>	<i>Proposed ration cost</i>	<i>Cost of establishing ration</i>
Medical Facility	\$52,969	\$79,425	\$26,456
Institution for Men	120,405	177,007	56,602
State Prison at Folsom	92,402	128,956	36,554
Totals	\$265,776	\$385,388	\$119,612

The use of a clothing ration will permit more economical and complete distribution of clothing in the institutions as well as improved budgetary and expenditure control. Eight separate rations will be effected on the basis of inmate classification and assignment. In the past, clothing inventories have been seriously depleted in times of population increase. At present, but allotments for clothing are generally based on actual per capita expenditures for the past fiscal year without regard to beginning or ending inventories.

Department of Corrections

DEPARTMENTAL ADMINISTRATION

General administrative office for all Department of Corrections facilities. Over-all supervision and coordination is provided by the agency.

Office at Sacramento

				(-35.7%)

GENERAL ANALYSIS

Number of positions 65.2 72.3 74 1.7

This budget provides for continuation of the existing level of service with increases due to work load changes.

SALARIES AND WAGES: The increased cost of \$19,575 is mainly due to salary adjustments partially offset by increased estimated salary savings, one new position, and additional temporary help as follows:

Proposed New Positions:

- | | |
|---|---------|
| 1 Intermediate clerk (records office) | \$2,988 |
| This position is proposed to meet the increase in work load specifically affecting the central inmate files. | |
| 1 Temporary help—special consultant | 1,200 |
| These funds will provide the commission with the services of a mathematical statistician for technical guidance in this field. | |
| 1 Correctional classification officer IV | 6,672 |
| This position will provide the leadership for the intensive treatment program which will start at San Quentin July 1, 1956, with 350 inmates and will be extended to Chino with a like number in the experimental group on January 1, 1957. | |

OPERATING EXPENSES: The increase of \$9,557 in operating expenses reflects the transfer of all out-of-state travel for the institutions in the department to this budget, the cost of moving headquarters offices, and the printing of the biennial report and reports of the Special Study Commission.

EQUIPMENT: Included in equipment is \$3,000 for an experimental electronic security system and additional filing equipment for expansion of records, \$1,948.

OTHER CURRENT EXPENSES: The small increase in transportation of prisoners is related to the estimated increase in movement of prison population.

a Composed of savings in salaries and wages, \$20,223; operating expenses, \$2,719; and equipment, \$77.

42					(—12.8%)
43					
44	The institution moved from its old quarters at Terminal Island to the new facility located near Vacaville during the last quarter of				
45	the 1954-55 Fiscal Year while construction was still in progress. As facilities have become available, population has been in-				
46	creased gradually, and is estimated to reach full capacity by March 31, 1956. Also, maintenance and vocational shops, chapels,				
47	auditorium and other facilities are under construction and should be completed by July 1, 1956.				
48	Additional facilities with a capacity of 574 beds are under construction, and will house the reception-guidance center now operated				
49	at the State Prison at San Quentin. These facilities are estimated to be available for occupancy by July 1, 1957, and the pro-				
50	fessional and clerical staff will begin moving from San Quentin during June, 1957.				
51	Reduced per capita costs are due to increasing the estimated average population to near capacity.				
52					
53	SALARIES AND WAGES: The increased cost of \$81,590 is mainly due to salary adjustments partially offset by increased esti-				
54	mated salary savings, and to five new positions as follows:				
55	Proposed New Positions:				
56	1 Correctional officer-----				\$3,996
57	This position will provide coverage for the four vocational and six maintenance shops located adjacent				
58	to the institution proper. These buildings are estimated to be completed during the third quarter of				
59	the current year. The officer on this post, five days per week, must give proper over-all supervision to				
60	the area, make frequent inspections and shakedown of inmates, and prevent contraband from being				
61	made or getting out of the shop area into the main institution.				
62	1 Medical technical assistant-----				3,996
63	One position is now budgeted to cover both the X-ray and surgery functions. At the Terminal Island				
64	location, one position was able to cover both functions as they were on the same floor and the work				
65	load for the 1,100 population, many of whom were older inmates rather than medical cases, was con-				
66	siderably less. At the new institution, the X-ray and surgery departments are located on different floors.				
67	Work load in both functions is expected to increase substantially due to a 22 percent increase in popu-				
68	lation and to a larger proportion of medical cases than was previously treated.				
69	Overtime (group counseling)-----				2,000
70	This item is explained in the general analysis of the departmental summary.				
71					
72					
73					
74	^a Composed of savings in salaries and wages, \$70,593; operating expenses, \$51,043; equipment, \$1,077; inmate pay-work projects,				
75	\$422; and loss in reimbursements, \$4,261.				
76	^b Composed of savings in operating expenses, \$55,492; equipment, \$1,660; and excess reimbursements, \$40,420.				
77	^c Including cost of academic educational program in both the current and budget years for the first time.

6	1 Instructor in mechanical drawing				4,740
7	1 Instructor in agriculture				4,740
8	These three positions were formerly supplied by the local school district at Terminal Island under the				
9	adult education A. D. A. program, and were not transferred to the institution's budget in the 1955-56				
10	Fiscal Year as it was estimated that the construction of the education wing of the new facility would				
11	not be finished until the 1956-57 Fiscal Year.				
12	This will complete the staffing for the vocational education program for a population of 1,350.				
13	Sabbatical leave				1,250
14	This item is explained in the general analysis of the departmental summary.				
15					
16	OPERATING EXPENSES: The increase of \$155,740 in operating expenses reflects an increase in estimated average population				
17	of 24.8 percent and the inclusion of contractual academic instructional services in this budget for the first time at a cost of				
18	\$29,300. Previously, the cost of this service was included in the apportionments to local school districts under the A. D. A. pro-				
19	gram for adult education. Also reflected is the establishment of the clothing ration at an additional cost of \$26,456, which is				
20	explained in the general analysis of the departmental summary.				
21	After a year of experience has been obtained in operating the new institution, more accurate estimating of operating expendi-				
22	tures will be possible.				
23					
24	EQUIPMENT: The decrease of \$5,132 in equipment is due to equipping the new institution with an original complement from capi-				
25	tal outlay appropriations. Equipment costs should gradually increase in future years as it is found necessary to replace the				
26	recently purchased items.				
27					
28	REIMBURSEMENTS: An increase of \$12,900 in reimbursements from the Department of Public Health over the current year,				
29	and an increase of \$54,750 over the 1954-55 Fiscal Year is due to an increase from 20 to 45 in the average number of recalci-				
30	trant tuberculars being confined and treated. Reimbursements are computed on the basis of \$6 per day per inmate.

47					(-4.3%)

This institution, presently housed in the hospital section of Camp San Luis Obispo, was activated in October, 1954, with a planned population of 600. The capacity, increased to 1,000 in the 1955-56 Fiscal Year, will be further increased to 1,200 in the 1956-57 Fiscal Year, with the population reaching the latter figure about September 30, 1956. Over 90 percent of the inmates in this institution are 45 years of age or older, with about 29 percent of these being past the age of 60 years.

Due to the arrangement of this barracks type temporary facility, it is necessary to activate a larger area than would ordinarily be necessary for an increase in population of 200 in order to provide for necessary feeding, warehousing and program facilities.

SALARIES AND WAGES: The increase of \$174,069 is due to salary adjustments, to a decrease in estimated salary savings, and to 30 new positions. The proposed new positions primarily provide for the increased population and are as follows:

56	Proposed New Positions:				
57	1 Storekeeper I-----				\$3,810
58	To provide coverage for the expanded warehousing facilities necessary to care for the increased population.				
59	2 Supervising cook I (effective September 1, 1956)-----				9,942
60	One position will provide coverage on the 10 a.m. to 6 p.m. shift for the additional dining area to be opened due to the increased population, and will supervise the preparation and serving of the noon and evening meals and lay out breakfast.				
61	Two positions are needed for relief of the above position, and for existing feeding staff on a post assignment basis.				
62	1 Associate warden (effective September 1, 1956)-----				7,450
63	To supervise the custodial function of the institution. This will be the second associate warden position, and will provide for the established staffing pattern for increased size of institution.				

^a Composed of savings in salaries and wages, \$15,685; operating expenses, \$5,868; equipment, \$300; loss in reimbursements, \$9,690; and inmate pay-work projects, \$194.

^b Including cost of academic education program in both the 1955-56 and 1956-57 Fiscal Years for the first time.

LINE	EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57	CHANGE FROM 1955-56
1	GENERAL ANALYSIS—Continued				
2					
3					
4	SALARIES AND WAGES—Continued				
5	2 Correctional sergeant				\$9,024
6	To provide eight-hour seven days a week coverage for the receiving and release function. Such a position				
7	is now authorized at other institutions with about the same inmate population.				
8	13 Correctional officer (5 effective September 1, 1956)				48,538
9	3 Positions for new dormitories (effective September 1, 1956).				
10	To provide 24-hour seven days a week coverage on the three dormitories to be activated for the in-				
11	creased population. This is the same level of coverage now provided for existing dormitories.				
12	3 Positions for the outside area.				
13	To provide 24-hour seven days a week coverage for the additional area to be activated adjacent to,				
14	but outside the main confines of the institution. This area contains about 40 acres with 22 buildings				
15	housing the employees' dining room, the automotive equipment, and the warehouse facilities for the				
16	institution.				
17	1 Position for the captain's office.				
18	To provide eight-hour seven days a week coverage for the captain's office. Such a position is now				
19	authorized at other institutions with a comparable inmate population.				
20	1 Position for mail censoring and visiting room.				
21	To provide assistance eight hours a day seven days a week to the existing correctional sergeant				
22	position now budgeted for the visiting and mail censoring function. This is necessary due to the				
23	increase in population.				
24	1 Position for the detention unit.				
25	To provide forty hours a week coverage for the detention unit. This unit is operated only when				
26	necessary, and inmates requiring close supervision are transferred to other institutions offering				
27	greater security at the first opportunity. This position will either provide the supervision, or fur-				
28	nish relief in granting compensating time off to other officers required to work overtime to pro-				
29	vide the necessary coverage.				
30	4 Positions (two effective September 1, 1956).				
31	These positions are required for relief of the above posts.				
32	1 Intermediate typist-clerk (switchboard and teletype)				2,988
33	To operate the switchboard and teletype located in the control room. Due to increased population, it is				
34	not feasible for the one sergeant position currently budgeted for the control room during the day shift				
35	to perform his duties and operate the switchboard and teletype. This level of staffing is comparable to				
36	other institutions.				
37	1 Intermediate clerk (mail censoring) (effective September 1, 1956)				2,478
38	This position, together with the currently budgeted correctional sergeant and the proposed new cor-				
39	rectional officer for mail and visiting, will censor and record inmate mail. This level of staffing is com-				
40	parable to other institutions of about the same inmate population.				
41	1 Physician and surgeon II (effective September 1, 1956)				9,500
42	To provide for the increased population, and for the additional medical care needed by the aged inmates				
43	housed at this institution. The primary duty of the position will be to furnish surgical services.				
44	1 Medical technical assistant (effective September 1, 1956)				3,314
45	To supervise the surgery and physiotherapy functions eight-hours a day, five days a week. This position				
46	will provide for the increased population, and the heavy work load in these activities caused by the pre-				
47	dominantly aged population.				
48	1 Supervisor of prison education				6,672
49	To supervise both the education program and the library.				
50	1 Correctional classification officer II				4,980
51	2 Intermediate typist-clerk				6,276
52	These three positions are for the classification and parole function based on the accepted work load				
53	formula, and are explained in the general analysis of the departmental summary.				
54	Overtime (group counseling)				1,675
55	This item is explained in the general analysis of the departmental summary.				
56	1 Instructor in landscape gardening				4,740
57	To provide instruction in landscape gardening, and to be responsible for the maintenance of the grounds.				
58	1 Correctional officer (truck driver)				3,996
59	To pick up and deliver materials and supplies both within and outside the institution, and to supervise				
60	the garage and gasoline station.				
61					
62	OPERATING EXPENSES: The increase of \$117,201 is mainly due to the increase in average population of 234 inmates or 24.9%,				
63	and to the inclusion of contractual academic services in this budget for the first time at a cost of \$25,121.				
64					
65	EQUIPMENT: The total of \$15,244 is an increase of \$4,081 over the 1955-56 Fiscal Year. Most of the increase is due to equip-				
66	ment for the proposed new positions, reference and textbooks for the educational program, and a replacement automobile.				
67					
68	REIMBURSEMENTS: The increase of \$2,700 is for meals served to employees anticipated to occupy the 30 proposed new positions.				
69					
70	OTHER CURRENT EXPENSES: \$11,625 is proposed to provide additional materials and supplies for the 200 increase in inmate				
71	population.

76							

c This position reclassified from correctional officer during the 1955-56 Fiscal Year to operate the switchboard and teletype, and is proposed as a new position in the 1956-57 Fiscal Year.

d This position was reclassified from chief psychiatrist for recruiting purposes.

e This position was authorized to June 30, 1956 only, and is not proposed for continuance as a new position.

† Salary range determined by education and experience in accordance with "Ranges and Criteria of Application for Teachers."

Department of Corrections

INSTITUTION FOR MEN, CHINO

A minimum custody institution for adult offenders. A reception-guidance center processes new offenders from Southern California. The institution also operates a branch facility near Tehachapi.

Located Near Chino, San Bernardino County

14	Cost per inmate -----	\$1,237	\$1,319	\$1,390	\$71
15					(5.4%)
16	The institution's average population is estimated to increase by 175 over the 1955-56 Fiscal Year. Capacity will be increased by 100				
17	beds about July 1, 1956 by completion of the addition to the west dormitory. A new experimental intensive treatment program				
18	is proposed to begin January 1, 1957. Reduced per capita costs are due to increasing the estimated average population.				
19	The Tehachapi branch was activated during the third quarter of the 1954-55 Fiscal Year. Population is estimated to reach				
20	the full capacity of 500 by the fourth quarter of the 1955-56 Fiscal Year and will be maintained at that level during the				
21	1956-57 Fiscal Year.				
22	The federal forestry camp program operated by the institution for several years has been eliminated in the 1955-56 Fiscal				
23	Year.				
24	Increased per capita costs at the highway road camp and the state forestry camps is primarily due to the additional position				
25	proposed for each of these camps.				
26	SALARIES AND WAGES: The increase of \$145,661 is mainly due to salary adjustments partially offset by increased estimated				
27	salary savings, and to 29 new positions as follows:				
28	Proposed New Positions:				
29	1 Correctional officer -----				\$3,996
30	This position will provide additional coverage between the hours of 4.30 p.m. and 9 p.m. seven days				
31	per week for an increased population of 100 inmates in the west dormitory. Movement of the inmate				
32	population is heaviest during this period of the day. The west dormitory is a two-story building housing				
33	360 inmates, most of whom are newly received. They are held here in a medium custody status for their				
34	first 30 days or more in the institution. Two officers are now budgeted for this dormitory on the 4 p.m.				
35	to midnight shift.				
36	1 Clinical psychologist -----				3,030
37	7 Correctional classification officer II -----				17,430
38	3 Intermediate typist-clerk -----				4,707
39	These 11 positions are for the intensive treatment program to begin January 1, 1957, and are explained				
40	in the general analysis of the departmental summary.				
41	Overtime (group counseling) -----				4,000
42	This item is explained in the general analysis of the departmental summary.				
43	1 Instructor in sheet metal -----				4,980
44	1 Instructor in plumbing -----				4,980
45	These two positions will complete the staffing for the new vocational shop building activated during the				
46	last part of the 1954-55 Fiscal Year, and are a part of the original planning for this new shop facility.				
47	Sabbatical leave -----				1,875
48	This item is explained in the general analysis of the departmental summary.				
49	5 Correctional officer -----				19,980
50	These positions will provide the fifth officer for the one highway road camp and the four state fore-				
51	stry camps operated by the institution. They are explained in the general analysis of the depart-				
52	mental summary.				
53	Position Deleted:				
54	—1 Intermediate typist-clerk -----				—2,988
55	This position is abolished based on accepted work load standards for the reception-guidance center.				
56	TEHACHAPI BRANCH UNIT				
57	Proposed New Positions:				
58	1 Supervising cook I -----				3,996
59	This position is again proposed for 1956-57. Kitchen operations for an institution of this size requires a				
60	food manager or a supervising cook II five days a week to supervise the feeding function, plan the				
61	menus, prepare estimates for all food requirements and culinary supplies, supervise the meat cutting				
62	and bakery operations, and supervise the employees dining room. In addition, one supervising cook is				
63	needed on the morning shift seven days per week eight hours a day and one is needed on the after-				
64	noon shift seven days per week eight hours a day. This position is proposed to provide week-end relief				
65	or 32 hours per week for these two positions, with the remaining eight hours of the position's time de-				
66	voted to giving partial relief for holidays, sick leaves and vacations. In total, a minimum of four				
67	positions is required for the feeding function. This institution is only budgeted for three at the present				
68	time—a supervising cook II and two supervising cooks I.				

^c Does not include administrative services rendered by main institution personnel.

Department of Corrections

INSTITUTION FOR MEN, CHINO—Continued

LINE	EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57	CHANGE FROM 1955-56
1	GENERAL ANALYSIS—Continued				
2	TEHACHAPI BRANCH UNIT—Continued				
3	SALARIES AND WAGES—Continued				
4	Proposed New Positions—Continued				
5	3 Correctional officer for Barracks C, D, and H				\$11,988
6					
7					
8					
9					
10					
11	Hodder Hall and Barracks H	1	1	1	
12	Culver Hall and Barracks C	1	1	1	
13	Davis Hall and Barracks D	1	1	1	
14	Barracks C, D, and H	1 *	—	1 *	
15	It is proposed to provide two positions on an outside roving assignment on the 4 p.m. to midnight and				
16	the midnight to 8 a.m. shifts, as the present personnel assigned to Hodder, Davis, and Culver Halls				
17	cannot provide supervision for Barracks C, D, and H because of the physical layout of these units. One				
18	position will be required for relief of the two positions.				
19	1 Instructor in agriculture				4,980
20	1 Instructor in welding				4,980
21	1 Instructor in auto mechanics				4,980
22	These three positions will complete the staffing for the vocational education program.				
23	1 Correctional classification officer I				4,740
24	1 Prison records officer I				4,194
25	1 Intermediate stenographer-clerk				3,138
26	These three positions are for the classification and parole function on a work load basis, and are ex-				
27	plained in the general analysis of the departmental summary.				
28	Overtime (group counseling)				1,000
29	This item is explained in the general analysis of the departmental summary.				
30	Sabbatical leave				625
31	This item is explained in the general analysis of the departmental summary.				
32					
33	OPERATING EXPENSES: The increase of \$182,571 is mainly due to an increase in population of 175, or 9.7 percent and the in-				
34	clusion of contractual academic instructional services in this budget for the first time at a cost of \$70,528. Previously, the				
35	cost of this service was included in the apportionments to local school districts under the A. D. A. program for adult education.				
36	Also reflected is the establishment of the clothing ration at both the institution and Tehachapi branch at an additional cost of				
37	\$56,602 which is explained in the general analysis of the departmental summary.				
38	The 1955-56 Fiscal Year operating expenditures for the Tehachapi branch are estimated to increase considerably over the amount				
39	currently budgeted. After a full year of experience has been obtained in operating this new facility, more accurate estimating of				
40	operating expenditures will be possible.				
41					
42	EQUIPMENT: The increase in equipment of \$22,652 is primarily due to additional items at a cost of about \$9,000 at the Tehach-				
43	api branch to equip new positions, furnish a moving picture projector, provide an additional automobile, and generally place				
44	the new facility in full operation. Also, \$5,433 is required to equip the 11 new positions for the intensive treatment program,				
45	and a refrigerated truck at a cost of \$6,545 will be purchased to transport meat and milk to other state institutions. Rental				
46	for this vehicle will be charged to the Correctional Industries Revolving Fund.

STATE PRISON AT FOLSOM—Continued

LINE	EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57	CHANGE FROM 1955-56
1	GENERAL ANALYSIS—Continued				
2					
3					
4	Analysis				
5					
6	The institution population is estimated to increase 25 in the 1956-57 Fiscal Year. However, the estimated populations for the 1955-56				
7	and 1956-57 Fiscal Years represent decreases of 137 and 112, respectively, from the 1954-55 Fiscal Year. Per capita costs will				
8	increase \$28 or 2.3 percent which is primarily due to seven additional positions.				
9	Honor Camp No. 12, Vallecito, is to be increased from 30 to 80 inmates about October, 1956. A new 30-man camp at Beaver Creek				
10	is proposed to be operated as a spike camp out of Vallecito for six months during the summer. Increased per capita costs of				
11	the state forestry camps is due to the one additional position for each of these camps.				
12					
13	SALARIES AND WAGES: The increase of \$62,531 is mainly due to merit salary adjustments partially offset by increased salary				
14	savings, and to 16 new positions as follows:				
15	Proposed New Positions:				
16	2 Correctional officer (former canal)-----				\$7,992
17	Two positions for Post No. 6, one on the 4 p.m. to midnight and one on the midnight to 8 a.m. shifts,				
18	are proposed for extension until June 30, 1957. They were approved temporarily in the 1954-55 Budget				
19	and in the 1955-56 Budget until June 30, 1956, on the basis that construction of Folsom Dam had				
20	eliminated the custody barrier on the west side of the institution by virtue of diminished water in the				
21	canal. Major capital outlay funds appropriated in 1955-56, together with minor capital outlay funds pro-				
22	posed in this budget will provide an additional barrier which, when completed, will eliminate the need				
23	for coverage on the two night shifts on Post No. 8. The positions for these two shifts can then be trans-				
24	ferred to Post No. 6. However, until such time as the barrier is completed, these positions are required				
25	for adequate custodial coverage of this area.				
26	1 Correctional officer (No. 5 Post, Sally Port Gate)-----				3,996
27	This position is proposed for the 8 a.m. to 4 p.m. shift, five days per week until June 30, 1957. It is				
28	needed to control truck traffic into the lower yard where the maintenance department will move upon				
29	completion of the new license plate factory. A new road will be constructed inside the security area in				
30	connection with a site clearing project funded in the 1955-56 Fiscal Year. It is anticipated that the new				
31	road will not be available before July 1, 1957.				
32	1 Correctional officer-----				3,996
33	This position is required for relief of the above three positions.				
34	1 Correctional classification officer I-----				4,512
35	1 Intermediate typist-clerk-----				2,988
36	These two positions are for the classification and parole functions based on the accepted work load				
37	formula and are explained in the general analysis of the departmental summary.				
38	4 Medical technical assistant-----				15,984
39	These positions will provide complete 24-hour coverage by one medical technical assistant, nurse, or				
40	correctional officer for each of the three floors of the hospital, except the second floor on the 8 a.m. to				
41	4 p.m. shift, which has five-day-a-week coverage. In addition, there will be one medical technical assist-				
42	ant for the outpatient clinic on the 8 a.m. to 4 p.m. shift seven days a week, a pharmacist, and one				
43	clerical position. The hospital contains 100 ward beds and 24 cells.				
44	In addition to their regular hospital ward duties, medical technical assistants visit other areas of the				
45	institution when called. Due to custodial measures necessary at a maximum security institution, espe-				
46	cially in the evening and night hours, such calls to cell blocks practically monopolize the time of one				
47	man, leaving coverage in the hospital to two positions for the three floors.				
48	Overtime (group counseling)-----				5,000
49	This item is explained in the general analysis of the departmental summary.				
50	Sabbatical leave-----				1,875
51	This item is explained in the general analysis of the departmental summary.				
52	0.5 Prison camp supervisor II (one for six months)-----				2,616
53	2 Correctional officer (four for six months)-----				7,992
54	These positions will operate Beaver Creek summer spike camp out of Vallecito for six months of the				
55	year. This size staff is currently used for all other forestry camps.				
56	3.5 Correctional officer (three full time, one for six months)-----				13,896
57	These positions will provide the fifth officer in the three existing state forestry camps and the pro-				
58	posed new Beaver Creek spike camp.				
59	Positions Deleted:				
60	—1 Instructor in auto mechanics-----				—4,970
61	This position is eliminated due to change in the vocational education program.				
62	(—0.1) Institution fire fighter (intermittent)-----				—460
63	This part-time intermittent position is abolished in order to bring the staffing for this function into				
64	conformance with that of the other penal institutions.				
65					
66	OPERATING EXPENSES: The increase of \$103,356 is mainly due to the expansion of the state forestry camps at a cost of				
67	\$13,520, to additional recurring maintenance cost of \$11,205, and the inclusion of contractual academic services in this budget				
68	for the first time at a cost of \$34,645. Previously, the cost of this service was included in the apportionments to local school				
69	districts under the A. D. A. program for adult education. Also reflected is the establishment of the clothing ration at an addi-				
70	tional cost of \$36,554, which is explained in the general analysis of the departmental summary.				
71					
72	EQUIPMENT: The increase of \$22,689 is primarily due to the original complement of equipment for a new state forestry camp at				
73	a cost of \$9,753, and to replace educational equipment formerly supplied by the local school district at a cost of \$6,101. Also,				
74	proposed additional equipment to improve sanitation in the kitchen at a cost of \$1,848 and an additional proof box for the				
75	bakery at a cost of \$1,960 is included.				
76					
77	REIMBURSEMENTS: An increase of \$23,833 is mainly due to reimbursements received from the Division of Forestry in payment				
78	for increased forestry camp operations.				
79

^a Composed of savings in salaries and wages, \$31,202; operating expenses, \$3,595; equipment, \$1,951; inmate pay-work projects, \$4,051; and loss in reimbursements, \$14,139.

^b Composed of savings in operating expenses, \$161,180; and inmate pay-work projects, \$24,565.

^c Excluding cost of operating reception-guidance center, but includes cost of feeding, housing, and other expenses of the inmates being processed therein. Academic education costs are reflected in both the 1955-56 and 1956-57 Fiscal Years for the first time.

Department of Corrections

STATE PRISON AT SAN QUENTIN—Continued

LINE	EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57	CHANGE FROM 1955-56
1	GENERAL ANALYSIS—Continued				
2					
3					
4	The estimated average institution population is expected to decrease 444 or 11.4 percent from the 1955-56 Fiscal Year, and 1,218 or				
5	26.1 percent from the 1954-55 Fiscal Year. The large reduction in population reflects the decrease in the rate of felony commit-				
6	ments, and is greatest at this institution because it has been the policy of the department to overcrowd San Quentin in order to				
7	keep the other prisons at or near their rated capacities. A new experimental intensive treatment program is proposed to begin				
8	July 1, 1956. Also, additional costs for a second shift for the new cotton textile mill are reflected, and will be reimbursed by the				
9	Correctional Industries Revolving Fund.				
10	Increased per capita costs are primarily due to the 29 proposed new positions and to a decrease in the estimated average population.				
11	The state forestry program will be expanded with the High Rock Camp increasing from 30 to 60 men on July 1, 1956, and a new 80-				
12	man camp to be opened about October 1, 1956, in Shasta County. Reduced per capita costs are due to the increase in estimated				
13	average population.				
14	The reduction in Federal Forestry Camp costs is due to an estimated decrease in fire fighting overtime.				
15	The increase in highway road camp per capita costs is primarily due to the proposed new positions for each of the two camps.				
16					
17	SALARIES AND WAGES: The increase of \$137,879 is mainly due to salary adjustments partially offset by increased esti-				
18	mated salary savings, and to 29 new positions as follows:				
19	Proposed New Positions:				
20	1 Supervising cook I				\$3,996
21	Overtime (feeding second shift, cotton textile mill)				383
22	2 Correctional officer				7,992
23	Overtime (second shift, cotton textile mill)				1,901
24	To provide additional feeding and custodial staff for the second shift of the cotton textile mill five days				
25	a week. The correctional officers will work a nine-hour shift from 11 p.m. to 8 a.m. The cost of these				
26	positions is fully reimbursed by the Correctional Industries Revolving Fund.				
27	1 Correctional officer				3,996
28	To provide custodial coverage eight hours per day, five days a week on the new industrial area gate				
29	leading into the cotton textile mill. Due to the large number of inmates working in the cotton textile				
30	mill, it is necessary to fence off the area and process them through a separate gate.				
31	2 Medical technical assistant				7,992
32	To provide additional coverage on the 4 p.m. to midnight shift for the third floor of the hospital,				
33	which is primarily a psychiatric ward. The one position presently budgeted for this area is unable to				
34	give adequate care and treatment to the acutely disturbed patients in this ward.				
35	1 Supervising clerk I				4,194
36	To provide clerical assistance for the educational program. The major part of the educational serv-				
37	ices, including the confidential clerical work for the teaching staff, were obtained through the local				
38	school districts under the adult education program. Educational services are now provided for directly				
39	by the institution, and one clerical position is needed to supervise inmate clerks doing educational work				
40	and to maintain the security of the educational records.				
41	Sabbatical leave				3,750
42	This item is explained in the general analysis of the departmental summary.				
43	1 Correctional classification officer IV (effective January 1, 1957)				3,030
44	1 Clinical psychologist				6,060
45	7 Correctional classification officer II				34,860
46	3 Intermediate typist-clerk				9,414
47	These positions are for the intensive treatment program, and are explained in the general analysis of				
48	the departmental summary.				
49	Overtime (group counseling)				7,537
50	This item is explained in the general analysis of the departmental summary.				
51	1 Prison camp supervisor II (effective October 1, 1956)				3,924
52	4 Correctional officer (effective October 1, 1956)				11,892
53	To provide custodial staff for the new 80-man state forestry camp to be activated October 1, 1956, in				
54	Shasta County. This size staff is currently used for all other state forestry camps.				
55	5 Correctional officer (one effective October 1, 1956)				18,957
56	To provide the fifth correctional officer for the two state highway road camps, and for the three state				
57	forestry camps operated by the institution. One state forestry camp is new and will be activated				
58	October 1, 1956.				
59	Positions Deleted:				
60	—1 Correctional classification officer I				—4,740
61	—5 Intermediate typist-clerk				—14,940
62	These positions are abolished based on accepted work load standards for the classification and parole				
63	function.

STATE PRISON AT SAN QUENTIN—Continued

LINE	EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57	CHANGE FROM 1955-56	
1	GENERAL ANALYSIS—Continued					
2						
3						
4	OPERATING EXPENSES: The increase of \$126,131 is mainly due to the expansion in the state forestry camp program at a cost					
5	of \$55,080, to additional recurring maintenance of \$13,500, to an expansion of the cotton textile mill activity, and to the inclu					
6	sion of contractual academic services in this budget for the first time at a cost of \$120,084. Previously, the cost of this service					
7	was included in the apportionments to local school districts under the A. D. A. program for adult education. These increases are					
8	partially offset by a decrease in institution population of 11.4 percent.					
9						
10	EQUIPMENT: The proposed \$63,178 for equipment is a decrease of \$6,548 from the 1955-56 Fiscal Year. Significant items are					
11	additional office equipment for the proposed new intensive treatment positions, \$3,822; two replacement automobiles, \$2,375; and					
12	additional equipment for the new state forestry camp, \$5,823.					
13						
14	REIMBURSEMENTS: The increase of \$116,357 is primarily due to expansion of the state forestry camp program with increased					
15	reimbursements of \$67,775, and to the activation of the second shift at the cotton textile mill operated by Correctional Industries					
16	Revolving Fund with increased reimbursements of \$44,552.

------	--------------	-------------------	----------------------	---------------------	------------------------

GENERAL ANALYSIS—Continued

Analysis

Institution average population is estimated to decrease 43 or 2.1 percent from the 1955-56 Fiscal Year and 123 or 5.6 percent from the 1954-55 Fiscal Year. The principal reduction is due to the farm barracks declining from 700 to 600 inmates. Per capita costs have increased by \$55 which is primarily due to five proposed new positions and to merit salary adjustments. Increased per capita costs of \$121 in the state forestry camps is mainly due to three proposed new correctional officer positions which will provide the fifth officer for each of the three state forestry camps operated by the institution.

SALARIES AND WAGES: The increased cost of \$61,828 is mainly due to salary adjustments partially offset by increased estimated salary savings and to eight new positions as follows:

Proposed New Positions:

5 Medical technical assistant..... \$19,980

These positions, together with existing staff, are to provide minimum coverage 24 hours a day, seven days a week for the 30-bed, two-story hospital. The entire staff, including the proposed new positions which will be located on the second floor, will be assigned as follows:

Post	Total	Shifts			Relief for:	
		12 m.-8 a.m.	8 a.m.-4 p.m.	4 p.m.-12 m.	Vacation and sick leave	Holidays and reg. days off
Supervising nurse (surgery and general nursing).....	1	—	1	—	Yes	No
Barracks	1	—	1	—	Yes	Yes
Outpatient clinic	1	—	1	—	Yes	Yes
Pharmacy and X-ray	1	—	1	—	Yes	No
Correctional sergeant (entrance)	1	—	1	—	Yes	Yes
Hospital (general nursing)	2	1	—	1	Yes	Yes
Hospital (second floor)	3	1*	1*	1*	Yes	Yes
Relief	5	—	—	—		5
Totals	15	2	6	2		5
Positions now authorized	10					
Additional positions required	5					

Two positions for each of the two night shifts will permit one person to remain in the hospital when the other is called out to cell blocks.

Sabbatical leave

This item is explained in the general analysis of the departmental summary.

Overtime (group counseling)

This item is explained in the general analysis of the departmental summary.

3 Correctional officer

These positions will provide the fifth officer for the three state forestry camps operated by the institution. They are explained in the general analysis of the departmental summary.

OPERATING EXPENSES: The increase of \$80,514 is due to the inclusion of contractual academic instructional services in this budget for the first time at a cost of \$88,669 and to additional recurring maintenance cost of \$5,225, partially offset by decreases in other operating expense items due to a small decline in average population.

EQUIPMENT: The increase of \$9,224 includes the following significant additional items: air vent canopy, one tumbler and dryer and 10 laundry baskets for \$4,810; vocational equipment for the electric shop and auto mechanic shop for \$1,047; portable aluminum scaffolding for \$750; two duplex pumps for water treatment \$990; and a flexible sewer rod for \$1,250.

44					(2.9%)
45					

The new institution, located near Tracy, was occupied in August, 1953. The population is to remain at 1,200 in the budget year, and is composed of 680 youths, 400 adult felons and 120 youths in the Reception-Guidance Center. The latter operation is conducted in one of the cell blocks of the main institution. A new intensive counseling unit was initiated in the current year as a two-year experimental program.

^a Composed of savings in salaries and wages, \$67,457; operating expenses, \$40,675; equipment, \$680; inmate pay-work projects, \$930; and loss in reimbursements, \$10,591.

^b Composed of savings in operating expenses.

^c Excludes costs of operating reception-guidance center, but includes costs of feeding, housing, and other expenses for the inmates being processed therein. Academic education costs are reflected in both the 1955-56 and 1956-57 Fiscal Years for the first time.

DEUEL VOCATIONAL INSTITUTION—Continued

LINE	EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57	CHANGE FROM 1955-56
1	GENERAL ANALYSIS—Continued				
2					
3					
4	SALARIES AND WAGES: The increased cost of \$56,718 is mainly due to salary adjustments partially offset by increased esti-				
5	mated salary savings and to three blanket positions as follows:				
6	Proposed New Positions:				
7	Temporary help (psychological test analysis)-----				\$1,500
8	This amount is proposed to provide outside technical help to analyze psychological test data being				
9	accumulated in connection with the Pilot Intensive Counseling Organization (PICO). The minimum				
10	analytical work required will be to obtain a description of the population tested and to evaluate the				
11	change in each individual tested.				
12	Overtime (group counseling)-----				3,350
13	This item is explained in the general analysis of the departmental summary.				
14	Sabbatical leave-----				5,625
15	This item is explained in the general analysis of the departmental summary.				
16					
17	OPERATING EXPENSES: The increase of \$56,282 in operating expenses reflects the inclusion of contractual academic instruc-				
18	tional services in this budget for the first time at a cost of \$24,987. Previously, the cost of this service was included in the				
19	apportionments to local school districts under the A. D. A. program for adult education. Also reflected is the normal cost of the				
20	clothing ration. The 1955-56 estimated expenditures were abnormally low due to the excess clothing inventory on hand at the				
21	time the ration was established.				
22					
23	EQUIPMENT: The increase of \$9,041 is mainly due to the replacement of four motor vehicles and other equipment items. Increasing				
24	replacement equipment costs may be expected in the next few years as the original complement items purchased in 1953				
25	need replacement.

15	GENERAL ANALYSIS				
16	Number of positions-----	97.8	111	129.3	18.3
17	POPULATION AND UNIT COSTS				
18	Average inmate population-----	533	574	622	48
19	End of year population-----	(568)	(600)	(640)	(8.4%)
20	Cost per inmate ^c -----	\$1,399	\$1,569	\$1,600	(40)
21					\$31
22					(2%)
23	Analysis				
24	Average daily population is estimated to increase by 48 or 8.4 percent over the 1955-56 Fiscal Year reaching a year-end population of 640 by June 30, 1957. The new fifth inmate cottage is expected to be occupied April 1, 1957. This cottage will increase the capacity of the institution by 120. Total rated capacity will then be 574 with the institution being overcrowded by 66 inmates at the end of the 1956-57 Fiscal Year.				
25	The size of the institution has increased substantially in the past few years. Average daily population in the 1950-51 Fiscal Year was 354 as compared to the 622 inmates estimated for this budget, or an increase of 75.7 percent. The number of women committed is expected to continue to rise, and the latest estimates indicate a population of over 800 by 1965. The supervisory structure, particularly in the field of custody, has failed to develop with the growth of the institution. This budget proposes to reorganize the custodial section to provide a minimum number of supervisory personnel.				
26	SALARIES AND WAGES: The increase of \$71,208 is primarily due to salary adjustments partially offset by estimated salary savings and to 17.3 new positions.				
27	The proposed reorganization of the supervisory positions in the custodial staff is a major item in this budget and will provide for the following posts plus full relief for each:				
28	CUSTODIAL SUPERVISORY STAFF				
29			Shifts		
30		Total	10 p.m.-6 a.m.	6 a.m.-2 p.m.	2 p.m.-10 p.m.
31	Supervisor-counselor IV-----Captain-----	1	—	1	—
32	Supervisor-counselor III-----Charge-of-shift-----	3	1	1	1
33	Supervisor-counselor II-----Control room-----	3	1	1	1
34	Supervisor-counselor II-----Receiving and detention-----	1	—	1	—
35	Subtotal-----	8	2	4	2
36	Relief-----	5	—	—	—
37	Total-----	13	—	—	—
38	Less positions provided-----	—9	—	—	—
39	Positions needed-----	4	—	—	—
40	The proposed staff would be provided through the addition of four new positions, the retention of the existing supervisor-counselor III, and the reclassification of eight existing positions as follows:				
41	1 Supervisor-counselor IV-----				\$6,360
42	This position will head up the custodial function.				
43	1 Supervisor-counselor III-----				5,232
44	3 Supervisor-counselor III (replacing 3 supervisor-counselor II)				1,260
45	These positions, together with one existing supervisor-counselor III position, will provide 24-hour, seven-day-a-week coverage of the charge-of-shift posts, and relief for the supervisor-counselor IV position.				
46	5 Supervisor-counselor II (replacing 5 supervisor-counselor I)				1,200
47	These positions will provide 24-hour, seven-day-a-week coverage of the control room posts. They are currently providing this coverage at the lower classification, but are proposed to be upgraded in keeping with their duties and responsibilities.				

^a Composed of savings in salaries and wages, \$16,516; operating expenses, \$4,291; equipment, \$753; excess reimbursements, \$1,058; and inmate pay-work projects, \$1,008.

^b Composed of savings in operating expenses, \$20,571; and excess reimbursements, \$1,655.

^c Including cost of academic educational program for both the 1955-56 and the 1956-57 Fiscal Years for the first time.

CALIFORNIA INSTITUTION FOR WOMEN—Continued

LINE	EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57	CHANGE FROM 1955-56
1	GENERAL ANALYSIS—Continued				
2					
3					
4	SALARIES AND WAGES—Continued				
5	2 Supervisor-counselor II				\$9,024
6	These positions will provide seven-day-a-week supervisory coverage on the receiving and detention unit				
7	and will aid in processing the heavy inmate movement in this area during the day shift. At present 24-				
8	hour, seven-day-a-week, supervisor-counselor I coverage is provided. This is the maximum security area				
9	of the institution where new inmates are processed and recalcitrant inmates segregated.				
10	Other proposed new positions are as follows:				
11	0.3 Butcher-meat cutter II (intermittent)				1,175
12	This position would provide the necessary cutting for proper distribution and use of fresh meat prior to				
13	final processing by the female inmate cooks.				
14	10 supervisor-counselor I				15,792
15	5 positions for new inmate cottage No. 5				
16	These positions effective April 1, 1957, will provide the same coverage for the new inmate cot-				
17	tage as is presently provided for the other four cottages.				
18	1 position for escort and transportation				
19	This position will provide eight-hour, seven-day-a-week service transporting inmates on necessary				
20	trips outside the institution, and escorting tradesmen and service repairmen to various areas				
21	within the institution. Approximately 1,700 hours per year are now used in this function, tak-				
22	ing the time budgeted for other services.				
23	4 positions for relief				
24	These positions are needed for relief of the above six posts.				
25	1 Chief prison medical officer (replacing one physician and surgeon II)				1,800
26	This reclassification will provide for supervision of the increasing medical work load of the institution.				
27	1 Clinical laboratory technician				3,996
28	This position will operate the pharmacy, and supervise the clinical laboratory, the X-ray room and the				
29	medical stores.				
30	Sabbatical leave				625
31	This item is explained in the general analysis of the departmental summary.				
32	1 Correctional classification officer I				4,740
33	1 Intermediate file clerk				2,988
34	These two positions are for the classification and parole function based on established work load stand-				
35	ards. They are explained in the general analysis of the departmental summary.				
36	Overtime (group counseling)				1,000
37	This item is explained in the general analysis of the departmental summary.				
38					
39	OPERATING EXPENSES: The net increase of \$60,163 is due primarily to the increase in population of 48, and to the inclusion				
40	of contractual academic instructional services in the budget for the first time at a cost of \$47,903.				
41					
42	EQUIPMENT: The increase of \$5,437 includes the following significant additional items: preventive maintenance record system.				
43	\$1,000; water treatment equipment, \$3,123; and an automobile for \$1,212. Increasing replacement costs may be expected in				
44	the next few years as the original complement items need replacement.

Department of Corrections

ADULT AUTHORITY

This is the paroling agency for adult male prisoners of the State. The Adult Authority issues and revokes paroles, fixes and refixes terms of imprisonment, and determines punishment of prisoners. The Division of Adult Paroles supervises all adult male parolees within the State.

In the 1953-54 Fiscal Year two experimental programs were established. The Special Intensive Parole Unit permits early release of certain prisoners and the Parole Outpatient Clinic offers psychotherapy to certain parolees.

33	GENERAL ANALYSIS				
34					
35	<i>Number of positions</i>	<i>171.5</i>	<i>190</i>	<i>207</i>	<i>17</i>
36					
37	PAROLEE RATIOS AND UNIT COSTS				
38	Division of Adult Paroles:				
39	Number of parolees supervised, end of year	5,543	6,025	6,400	375
40					(6.2%)
41	Number of parole officers, end of year	89	100	106	6
42					(6%)
43	Ratio of parolees to parole officers, end of year	62	60	60	-
44	Average number of parolees supervised	5,333	5,910	6,195	285
45					(4.8%)
46	Cost per parolee	\$145	\$153	\$160	\$7
47					(4.6%)
48	Special Intensive Parole Unit:				
49	Number of parolees supervised, end of year	254	400	600	200
50					(50%)
51	Number of case load parole officers, end of year	14	14	21	7
52					(50%)
53	Ratio of parolees to parole officers, end of year	18	29	29	-
54	Average number of parolees supervised	248	260	600	340
55					(130.8%)
56	Number of parolees processed	992	1,040	1,200	160
57					(15.4%)
58	Cost per parolee processed	\$143	\$153	\$204	\$51
59					(33.3%)
60					
61					
62	Analysis				
63					
64	The increase is primarily due to increased parole case load supervised by Division of Adult Paroles personnel and a 50 percent				
65	increase in parole officer positions in the Special Intensive Parole Unit to handle an increase in the number of parolees super-				
66	vised by this experimental unit.				
67					
68	^a Composed of savings in salaries and wages, \$14,087; operating expenses, \$40,203; equipment, \$14,310; and loss in reimburse-				
69	ments, \$121.				
70	^b Composed of savings in operating expenses, \$9,791; and excess reimbursements, \$170.

Department of Corrections
ADULT AUTHORITY—Continued

LINE	EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57	CHANGE FROM 1955-56
1	GENERAL ANALYSIS—Continued				
2					
3					
4	SALARIES AND WAGES: The increase of \$132,502 is due to salary adjustments, the full-year cost of positions authorized during				
5	the 1955-56 Fiscal Year, a decrease in estimated salary savings, and the following:				
6	Proposed New Positions:				
7	1 Parole officer II (effective September 1, 1956)-----				\$4,150
8	5 Parole officer I (effective various dates)-----				10,665
9	2 Intermediate stenographer-clerk (effective various dates)-----				2,844
10	These additional positions are proposed on the basis of the approved over-all ratio of 60 parolees per				
11	officer and accepted ratios of parole officers to clerical personnel.				
12	2 Parole officer II-----				9,960
13	6 Parole officer I-----				28,440
14	3 Intermediate stenographer-clerk-----				9,414
15	Parole officer reclassifications-----				1,080
16	These positions are proposed to provide staff for a 50 percent increase in the total case load supervised by				
17	the Special Intensive Parole Unit. The average case load per officer was increased from approximately 18				
18	cases per officer to 30 per officer beginning in January, 1956. The parolees are supervised by personnel of				
19	this unit for six months rather than three months as in the past. The change in time on parole under				
20	special supervision and an increase in the total case load supervised will result in a change in the ex-				
21	periment to determine the optimum degree of supervision. The increase in the total case load is necessary				
22	in order to have a sufficiently large sample to make a statistical evaluation of the revised experiment				
23	in a minimum length of time.				
24	Positions Now Authorized:				
25	Parole officer reclassifications (increase over 1955-56 Fiscal Year)-----				15,335
26	Surveys by the Department of Finance and the State Personnel Board indicate the necessity of extensive				
27	reclassification of parole officer positions in this agency. The recommendations were not yet approved by				
28	the State Personnel Board at the time the budget was completed. The budget is based on these re-				
29	classifications being effective in January, 1956. The 1955-56 Fiscal Year cost for positions now author-				
30	ized is estimated to be \$13,000 while the full year cost for the 1956-57 Fiscal Year is estimated at				
31	\$28,335.				
32					
33	OPERATING EXPENSES AND EQUIPMENT: The increase of \$54,052 is primarily due to increased parole case load and proposed				
34	new positions related thereto.

GENERAL ANALYSIS

19					
20					
21	Number of positions-----	11.3	13.4	14	0.6
22					
23	PAROLE RATIOS				
24	Average number of parolees supervised-----	406	420	440	20 (4.8%)
25					
26	Average number of parole officers-----	6.3	7	7	
27	Average case load per parole officer-----	64.4	60	62.8	2.8 (4.7%)

The increase in expenditures is primarily due to additional staff and other expenses related thereto.

SALARIES AND WAGES: The increase of \$5,332 is caused by the following two new positions:

31	1 Supervising women's parole officer-----				\$6,285
32	This position was approved by the Legislature in the 1955-56 Budget to supervise the parole officers and to carry a one-half case load. It is proposed that, in order to allow the position time to develop administrative procedures and policies, the one-half case load requirement be removed for the current and budget year.				
33	1 Intermediate stenographer-clerk-----				3,138
34	This position is required to meet a chronic backlog of work in the Los Angeles office; to provide for a small increase in paroles over the current year; to give stenographic services to the supervising women's parole officer, and to give some relief to the secretary-stenographer of the Board of Trustees. Temporary help—clerical has been reduced accordingly.

DEPARTMENT OF THE YOUTH AUTHORITY

This department has the responsibility for classification, segregation, rehabilitation, and parole of all young offenders committed to it. It exercises over-all supervision of the two reception centers and various correctional facilities for youths including custody and rehabilitation. It also administers the parole program.

Consultant services are provided to judges, probation officers, juvenile halls, and law enforcement bureaus. Inspections of county-operated camps are made and standards set for payment of subsidies. Advisory services are rendered to community agencies interested in youth welfare and delinquency prevention.

DEPARTMENT OF THE YOUTH AUTHORITY—Continued

LINE	FACILITY OR FUNCTION	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57	CHANGE FROM 1955-56
1	GENERAL ANALYSIS				
2					
3					
4	The significant increases budgeted for the 1956-57 Fiscal Year include the following:				
5					
6	INSTITUTION POPULATION —The total average population is estimated to increase to 2,430, an increase of 81, or 3.5 percent				
7	Southern California Reception Center and Clinic—The population of this facility is estimated to increase from 269 to 280 during				
8	the 1956-57 Fiscal Year. This is primarily due to an expected adjustment in processing time to a normal level of approxi-				
9	mately six weeks for the average ward.				
10	Forestry Camps for Boys—The camp populations are expected to increase from 250 to 265. An increase in length of stay in the				
11	camps is expected due to a change in Youth Authority Board policy. This will result in an increase in camp population.				
12	Fricot Ranch School for Boys—Completion of a 20-boy segregation unit in March, 1957, is expected to result in an increase of 13				
13	in year-end population to a total of 170. The fiscal year average population is expected to increase from 153 to 157.				
14	Fred C. Nelles School for Boys—Construction during the 1955-56 and 1956-57 Fiscal Years will result in a net increase of 20				
15	"sleeping beds" by the end of the budget year. The timing of the completion dates and necessary housing shifts within the				
16	institution result in an estimated change of only two in the average population. A 50-boy restricted-detention building will be				
17	completed in February, 1956. The existing detention-admissions unit will be closed in March, 1956, to be remodeled into two				
18	30-boy dormitories to be completed in March, 1957, when two condemned 36-boy units will be discontinued. A new 30-boy admis-				
19	sions building will be completed in June, 1957.				
20	Paso Robles School for Boys—A 40-boy restricted-detention building will be completed in January, 1957. This structure replaces				
21	a temporary 20-bed detention unit. An increase of 20 in year-end population to a total of 335 is expected although the fiscal				
22	year average is estimated to increase by only three to an average of 315.				
23	Preston School of Industry—The average population in the 1956-57 Fiscal Year is expected to increase to 620, an increase of 16				
24	over the 1955-56 estimate. Year-end population is estimated to remain at 640 for both fiscal years. Four new replacement				
25	dormitories were completed in September, 1955, and three more were occupied in December, 1955. The latter three replace two				
26	smaller units and add an additional 50-boy structure, with a total increase in capacity of 66 beds. During the budget year the				
27	K Company building will be remodeled resulting in a temporary capacity loss of 42 beds. Additional educational facilities will				
28	also be completed during the 1956-57 Fiscal Year.				
29	Los Guilucos School for Girls—An increase in average population from 160 in the current year to 190 in the 1956-57 Fiscal				
30	Year is anticipated. This is not due to new construction but rather results from an expected increase in total girl population				
31	in the department. The increase will all be at this facility since the Ventura School for Girls has been operating at maximum				
32	capacity for several years.				
33	PAROLE CASE LOAD —The average number of parolees is expected to increase 568 to a total of 6,298 in the 1956-57 Fiscal Year.				
34	This increase is related to the continued growth of the Youth Authority in recent years.				
35	PROPOSED NEW POSITIONS:				
36	Proposed new positions total 44.6. They are summarized and discussed as follows:				
37	3 Supervisors of Academic Instruction—These positions are budgeted on the basis of a full time supervisor at Youth Au-				
38	thority schools when average daily attendance and population require ten or more credentialed teachers under the approved				
39	pupil-teacher staffing ratios. This staffing formula is the result of a Department of Finance management analysis study. The				
40	proposed positions are at the following institutions:				
41	Fred C. Nelles School for Boys:				
42	1 Supervisor of Academic Instruction-----				\$6,060
43	Paso Robles School for Boys:				
44	1 Supervisor of Academic Instruction--				6,060
45	Los Guilucos School for Girls:				
46	1 Supervisor of Academic Instruction-----				6,060
47	5 Teacher Positions—These positions are budgeted on the basis of the approved pupil-teacher ratio of 15 average daily attend-				
48	ance to 1.				
49	In addition, the following positions are proposed:				
50	12 Parole case load increase.				
51	8 Staffing additional housing facilities.				
52	16.6 Miscellaneous work load adjustments.				
53	POSITIONS ABOLISHED:				
54	Positions now authorized which have been abolished total 11.5. Ten of these positions have been abolished in both the 1955-56 and				
55	1956-57 Fiscal Years.

Department of the Youth Authority

DEPARTMENTAL ADMINISTRATION

Departmental Administration includes a number of divisions supervising or exercising central control over all phases of the Youth Authority program. Included are Youth Authority Board in which is budgeted the expenses of four members of the five-member board, the chairman (who is the director) being included in the Division of Administration. The Division of Administration provides central control and unified business management of the several divisions and facilities, and maintains central case files. The Bureau of Probation and Delinquency Prevention Services functions in direct contact with community agencies interested in youth welfare and delinquency prevention and includes the administrative expenses of the interstate probation compact and the Interstate Compact on Juveniles. The Bureau of Paroles provides parole supervision of wards released on parole from the reception centers or after a training period in the various schools and camps. The Division of Diagnosis and Treatment supervises the operation of the reception centers, schools and camps and is responsible for the continuing re-evaluation and development of their programs, handles deportations, and provides transportation of wards between the Youth Authority facilities.

GENERAL ANALYSIS

The increases in support are primarily due to increased parole population.

21	Number of positions-----	205.5	231.5	246.1	14.6
22					
23	PAROLE RATIOS AND UNIT COSTS				
24	Number of parolees supervised end of year-----	5,424	5,992	6,560	568
25					(9.5%)
26	Number of parole officers end of year-----	81	93	102	9
27					(9.7%)
28	Ratios of parolees to parole officers-----	67	64	64	—
29	Average number of parolees supervised-----	5,253	5,730	6,298	568
30					(9.9%)
31	Cost per parolee-----	\$136	\$148	\$146	—\$2
32					(—1.4%)

SALARIES AND WAGES: The increase of \$99,442 is due to the full-year cost of positions established during the 1955-56 Fiscal Year, salary adjustments, decreased salary savings, and the following:

Proposed New Positions:

1 Junior staff analyst----- \$4,404

This position will assist in meeting work load increases in the personnel office which have taken place in recent years. Certain duplicate records of the institution's personnel transactions which have been maintained in the central office will no longer be kept there. This position and the personnel officer will increase field review of personnel transactions to offset the need for the duplicate records. In addition, this position will relieve the personnel officer of part of the professional personnel work which has increased in recent years with the growth of the department.

2 Field representative (expires June 30, 1957)----- 11,498

1 Intermediate stenographer-clerk (expires June 30, 1957)----- 3,138

The field representatives were authorized in the 1955-56 Budget to meet increasing work load due to increasing delinquency rates, the expanding state population, and the larger number of local personnel in the law enforcement, probation, and juvenile halls and camps fields. They were only authorized for the 1955-56 Fiscal Year with further continuation contingent upon submission of a report indicating the effectiveness of their activities. Recruiting difficulties and other problems prevent completion of this report in time for consideration with the 1956-57 Budget request. Continuation is proposed to allow sufficient time to make the required study. The clerical position is requested to provide stenographic assistance on the recognized ratio of two field representatives per stenographer.

2 Parole officer III----- 5,555

1 Parole officer II----- 3,735

6 Parole officer I----- 14,220

3 Intermediate stenographer-clerk----- 4,132

The parole officer positions are proposed on the over-all ratio of 64 parolees per parole officer to meet the increasing parole case load. The clerical positions are proposed on the basis of parole officer-stenographer ratios which have been used for several years.

(0.5) Overtime (extraditions)----- 2,500

This position is proposed to meet the increasing work load created by recent increases in the number of extradition trips made by the transportation unit. This work load can no longer be absorbed by the transportation unit.

OPERATING EXPENSES: The increase of \$36,415 is primarily due to the increased parole case load, full-year cost of contractual research and analysis services, and miscellaneous adjustments.

EQUIPMENT: The total of \$38,837 is a decrease of \$10,864 below the 1955-56 Fiscal Year. Major items include replacement motor vehicles, \$11,251, and equipment for additional parole officers, \$12,138.

OTHER CURRENT EXPENSES: Increases in these items are related to changes in work load with the exception of the following: Maintenance of Parolees Placed in Foster Homes:

The part of foster home care of Youth Authority wards which has been financed by the Aid to Needy Children appropriation in the past has been combined with this appropriation in order to budget all foster home payments for Youth Authority wards in one item. This accounts for \$38,850 of the increase of \$46,000 for this purpose.

Deportation of Nonresidents and Interstate Compact on Juveniles:

The expenses of the Interstate Compact on Juveniles, Chapter 1363, Statutes of 1955, have been combined with the appropriation for deportation of nonresidents pursuant to the provisions of the statute applying to the 1955-56 Fiscal Year. It is anticipated that the expenses of the compact may be offset partially or in full by decreased deportation costs.

2	RECONCILIATION WITH APPROPRIATIONS				
3					
4	SUPPORT				
5	Budget Act appropriation-----	\$619,487	\$682,510	\$722,491	
6	Allocations from Salary Increase Fund-----	-	23,115	-	
7	Transfer from another institution-----	23,117	-	-	
8					
9	Total Available-----	\$642,604	\$705,625	\$722,491	
10	Unexpended balance, estimated savings-----	-34,564 ^a	-4,955 ^b	-	
11					
12	TOTALS, SUPPORT -----	\$608,040	\$700,670	\$722,491	\$21,821
13	Contributions to State Employees' Retirement Fund-----	27,154	38,300	40,300	2,000
14					
15	TOTAL EXPENDITURES FOR SUPPORT -----	\$635,194	\$738,970	\$762,791	\$23,821
16					(3.2%)
17	OTHER CURRENT EXPENSES				
18	Initial Inventory and Supplies and Employees' Moving				
19	Expenses:				
20	Budget Act appropriation-----	\$12,270	-	-	
21	Unexpended balance, estimated savings-----	-107	-	-	
22					
23	Total Expenditures for Initial Inventory and Supplies and				
24	Employees' Moving Expenses-----	\$12,163	-	-	-
25					
26	TOTAL EXPENDITURES -----	\$647,357	\$738,970	\$762,791	\$23,821
27					(3.2%)
28					
29	GENERAL ANALYSIS				
30					
31	Number of positions-----	103.9	113	115	2
32					
33	WARDS PROCESSED AND UNIT COSTS				
34	Average population-----	123	127	127	-
35	Total wards processed-----	1,220	1,312	1,316	4
36					(0.3%)
37	Cost per ward processed-----	\$521	\$563	\$580	\$17
38					(3%)
39	The increased cost per ward is due to increased salaries and wages costs.				
40					
41	SALARIES AND WAGES: The increase of \$28,160 is due to salary adjustments, decreased salary savings, and the following				
42	Proposed New Positions:				
43	Temporary help (food service assistants)-----				\$540
44	This amount is proposed to finance vacation and sick leave relief for the limited food service assistant				
45	staff of only two positions. The absence of one of the two positions on sick leave or vacation results in				
46	serious operational problems in the kitchen and dining rooms.				
47	0.5 Groundsman and flower gardener (six months)-----				1,530
48	This will provide a second position during the heavier growing season to supervise a boy work crew and				
49	otherwise assist in maintaining the 10 acres of lawns, trees, shrubs, flowers and ground cover. It is				
50	impossible for one position to properly maintain this large area even though the wards maintain most				
51	of the grounds within the security fence.				
52	OPERATING EXPENSES: The decrease of \$6,325 is primarily due to the purchase of certain commodities from Preston School of				
53	Industry and an adjustment in laundry costs.				
54					
55	^a Composed of savings in salaries and wages, \$20,147; operating expenses, \$17,981; equipment, \$132; and loss in reimbursements				
56	\$3,696.				
57	^b Composed of savings in operating expenses.

SOUTHERN CALIFORNIA RECEPTION CENTER AND CLINIC

A reception center for boys and girls received from Southern California.

Located Near Norwalk

LINE	EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57	CHANGE FROM 1955-56
1	SUMMARY AND				
2	RECONCILIATION WITH APPROPRIATIONS				
3					
4					
5	SUPPORT				
6	Budget Act appropriation-----	\$940,345	\$1,036,674	\$1,105,916	
7	Allocation from Salary Increase Fund-----	-	37,117	-	
8	Transferred to other institutions-----	-41,555	-	-	
9					
10	Total, Available-----	\$898,790	\$1,073,791	\$1,105,916	
11	Unexpended balance, estimated savings-----	-158,035 a	-26,722 b	-	
12					
13	TOTALS, SUPPORT -----	\$740,755	\$1,047,069	\$1,105,916	\$58,847
14	Contributions to State Employees' Retirement Fund-----	29,588	56,100	59,400	3,300
15					
16	TOTAL EXPENDITURES FOR SUPPORT -----	\$770,343	\$1,103,169	\$1,165,316	\$62,147
17					(5.6%)
18	OTHER CURRENT EXPENSES				
19	Initial Inventory and Supplies and Employees' Moving				
20	Expenses:				
21	Budget Act appropriation-----	\$35,600	-	-	
22	Unexpended balance, estimated savings-----	-9,491	-	-	
23					
24	Total Expenditures for Initial Inventory and Supplies and				
25	Employees' Moving Expenses-----	\$26,109	-	-	-
26					
27	TOTAL EXPENDITURES -----	\$796,452	\$1,103,169	\$1,165,316	\$62,147
28					(5.6%)
29					
30	GENERAL ANALYSIS				
31					
32					
33	Number of positions-----	137.1	172	176.5	4.5
34					
35	WARDS PROCESSED, AND UNIT COSTS				
36	Average population-----	171	269	280	11
37					(4.1%)
38	Total wards processed-----	1,083	2,143	2,143	-
39	Cost per ward processed-----	\$711	\$515	\$544	\$29
40					(5.6%)
41	The increased cost per ward processed is primarily due to new positions and merit salary increases.				
42					
43	SALARIES AND WAGES: The increase of \$46,702 is due to salary adjustments and the following:				
44	Proposed New Positions:				
45	1 Intermediate stenographer-clerk-----				\$3,138
46	This position will provide stenographic and clerical help for the medical section including doctors, den-				
47	tists, and X-ray and clinical laboratory technicians. No other clerical assistance is available.				
48	1 Intermediate typist-clerk-----				3,138
49	This position will augment the casework typing pool. This unit was staffed on the same basis as the				
50	casework pools in Department of Corrections reception-guidance centers on a ratio of five hours per				
51	case processed plus one position for "administrative" typing, a working supervisor, and a file clerk. On				
52	this basis a total staff of seven casework typist positions is required compared to the six now author-				
53	ized. In addition to casework typing this unit must also handle additional work related to an esti-				
54	mated 335 parole releases.				
55	1 Dental assistant-----				2,988
56	This position plus the position now authorized will provide two dental assistants for three dentists. In				
57	addition to assisting the dentists in their work these positions also maintain the dental charts and				
58	records. This will permit the dentists to more efficiently utilize their time in dentistry rather than				
59	devoting much of their time to details which could be handled by an assistant.				
60	0.5 Groundsman and flower gardener (six months)-----				1,530
61	This will provide a second position during the heavier growing season to supervise a boy work crew				
62	and otherwise assist in maintaining the 17 acres of lawns, trees, shrubs, flowers and ground cover. It				
63	is impossible for one position to properly maintain this large area even though the wards maintain				
64	most of the grounds within the security fence.				
65					
66	OPERATING EXPENSES AND EQUIPMENT: The increase of \$12,145 is primarily due to increased population.				
67					
68	a Composed of savings in salaries and wages, \$68,396; operating expenses, \$96,605; equipment, \$248; and loss in reimbursements,				
69	\$7,214.				
70	b Composed of savings in salaries and wages, \$672; and operating expenses, \$26,050.				
71					
72					
73

35					
36					
37					
38	GENERAL ANALYSIS				
39					
40	Number of positions -----	63.6	64.4	64.4	—
41					
42	POPULATION AND UNIT COSTS				
43	Average Population:				
44	Pine Grove Camp -----	83	85	90	5
45	Coarsegold Camp -----	102	100	105	5
46	Ben Lomond Camp -----	65	65	70	5
47					
48	TOTALS, ALL CAMPS -----	250	250	265	15
49					(6%)
50	Average cost per boy (excluding boy's pay) -----	\$2,081	\$2,181	\$2,118	—\$63
51					(—2.9%)
52					
53	During the 1956-57 Fiscal Year the main camp at Coarsegold will move to a new location at Mount Bullion. One of the present spike				
54	camps will be discontinued and the present main camp at Coarsegold will become a spike camp.				
55	The decrease in per capita cost is due to the increased population.				
56					
57	SALARIES AND WAGES: The increase of \$4,200 is due to salary adjustments partially offset by increased salary savings.				
58					
59	OPERATING EXPENSES: The increase of \$10,803 is largely due to the increased number of boys plus other miscellaneous				
60	adjustments.				
61					
62	EQUIPMENT: The total of \$6,873 represents an increase of \$1,193 over the 1955-56 Fiscal Year. Major items include a replacement				
63	automobile, \$1,062, and a replacement carryall, \$1,904.				
64					
65	INMATE PAY-WORK PROJECTS: The increase of \$2,145 is due to the increased population.				
66					
67	^a Composed of savings in salaries and wages, \$6,230; operating expenses, \$20,552; equipment, \$3,532; inmate pay-work projects,				
68	\$3,642; and loss in reimbursements, \$14,445.				
69	^b Composed of savings in operating expenses.

19					(9.2%)

GENERAL ANALYSIS

Number of positions----- 58.1 63.4 71.6 8.2

POPULATION AND UNIT COSTS

Average pupil population----- 136 153 157 4
(2.6%)
Average cost per pupil----- \$2,942 \$2,899 \$3,086 \$187
(6.5%)

The change in per capita cost is primarily due to new positions, salary increases, and increased equipment. Completion of the 20-boy segregation-administration unit attached to the present infirmary-hospital is contemplated in March, 1957.

SALARIES AND WAGES: The increase of \$24,797 is due to salary increases partially offset by increased salary savings, and the following nine positions:

Proposed New Positions:

1 Senior group supervisor (effective March 1, 1957)-----	\$1,432
5 Group supervisor (effective March 1, 1957)-----	6,500
These positions will provide four post coverage in the new segregation unit. This will allow single 24-hour coverage plus double coverage during the hours of greatest activity. The double coverage will be from 6 a.m. to 8 a.m., noon to 2 p.m. and 4 p.m. to 8 p.m. One half-time hospital aid position is being eliminated, since coverage in the hospital during the night will be provided from the new unit.	
2 Youth Authority teacher (one effective January 1, 1957, and one April 1, 1957)-----	3,555
These positions will provide staff on the basis of 15 ADA per academic teacher.	
1 Chief of institution maintenance I-----	5,496
This position, as a working supervisor, will head the maintenance program in the institution. This will provide a minimum maintenance program for the existing buildings and the new segregation building to be completed in the 1956-57 Fiscal Year.	
Positions to Be Abolished:	
0.5 Hospital aid (intermittent)-----	1,215

OPERATING EXPENSES: The increase of \$6,810 is primarily due to a small increase in population, and an increase in maintenance and laundry costs.

EQUIPMENT: The significant items include dining room tables, \$1,885; mobile radio units, \$1,560; and a used school bus, \$2,000.

SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57

GENERAL ANALYSIS

Number of positions----- 142.2 144 144.5 0.5

POPULATION AND UNIT COSTS

Average pupil population----- 280 304 306 2

Average cost per pupil----- \$3,060 \$3,056 \$3,058 (\$0.7%)

The increase in per capita cost is due to increased salaries and wages.

The 50-boy restricted-detention building will be completed in February, 1956. The existing detention-admissions unit will be closed in March, 1956, to be remodeled into two 30-boy dormitories to be completed in March, 1957, when two condemned 36-boy units will be discontinued. The admissions function will be handled in the hospital until the new 30-boy admissions unit is completed in June, 1957. At the end of the 1956-57 Fiscal Year the construction program related to changes in capacity should be completed with a net increase of 20 "sleeping beds" over July, 1955, to a total of 315. In addition, there will be 37 hospital and detention beds.

SALARIES AND WAGES: The increase of \$7,015 is due to salary adjustments, partially offset by the abolishment of one position, and proposed new positions. These increases are partially offset by increased salary savings. The proposed new positions and the position now authorized, which has been abolished, are as follows:

Proposed New Positions:

1 Supervisor of academic instruction----- \$6,060

This position is discussed in the general analysis in the departmental summary.

Temporary help (repair projects)----- 1,260

This position will provide labor for two maintenance projects. They are replace plumbing in superintendent's residence and fabricate and install equipment safeguards to meet safety requirements.

Abolishment of Positions Now Authorized:

1 Tailor----- -5,232

OPERATING EXPENSES: The increase of \$5,680 is primarily due to increased population, a change in the clothing program, and increased maintenance and operation of plant costs.

EQUIPMENT: The total of \$12,241 represents a decrease of \$3,704 below the 1955-56 Fiscal Year. Major items include replacement of housekeeping equipment, \$2,442; additional education equipment, \$1,716; and replacement of two automobiles, \$2,174.

^a Composed of savings in salaries and wages, \$10,302; operating expenses, \$17,381; equipment, \$346; and loss in reimbursements, \$2,800.

PASO ROBLES SCHOOL FOR BOYS

A correctional school for boys in the 14 to 17 age group.

Located Near Paso Robles, San Luis Obispo County

LINE	EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57	CHANGE FROM 1955-56
1	SUMMARY AND				
2	RECONCILIATION WITH APPROPRIATIONS				
3					
4	General Fund				
5					
6	SUPPORT				
7	Budget Act appropriation-----	\$756,257	\$796,756	\$851,347	
8	Allocations from Salary Increase Fund-----	-	28,365	-	
9					
10	Total Available-----	\$756,257	\$825,121	\$851,347	
11	Unexpended balance, estimated savings-----	-59,758 a	-18,911 b	-	
12					
13	TOTALS, SUPPORT -----	\$696,499	\$806,210	\$851,347	\$45,137
14	Contributions to State Employees' Retirement Fund-----	31,716	38,900	44,400	5,500
15					
16	TOTAL EXPENDITURES FOR SUPPORT -----	\$728,215	\$845,110	\$895,747	\$50,637
17					(6%)
18					
19	GENERAL ANALYSIS				
20					
21	Number of positions-----	114.5	124.5	128.8	4.3
22	POPULATION AND UNIT COSTS				
23	Average pupil population-----	295	312	315	3
24					(1%)
25	Average cost per pupil-----	\$2,469	\$2,709	\$2,844	\$135
26					(5%)
27					
28					
29	The increase in per capita cost is primarily due to merit salary adjustments and proposed new positions. A new 40-bed restricted-				
30	detention unit is scheduled for completion in December, 1956. This unit, replacing a 20-bed detention building, will consist of a				
31	20-bed restricted wing and a 20-bed detention wing.				
32					
33	SALARIES AND WAGES: The increase of \$35,212 is due to salary adjustments partially offset by increased salary savings and the				
34	following:				
35	Proposed New Positions:				
36	1 Supervisor of academic instruction-----				\$6,060
37	This position is discussed in the general analysis in the departmental summary.				
38	2 Group supervisor (effective January 1, 1957)-----				3,900
39	These positions, together with positions from the discontinued detention building, will staff the new				
40	40-boy restricted detention unit. They will add sufficient custodial staff to provide one post on each wing				
41	for two shifts and one post for both at night.				
42	1 Building maintenance man-----				3,630
43	This position is proposed to meet the increasing backlog of maintenance work which has accumulated				
44	because of insufficient staff. It is impossible to conduct a preventive maintenance program with the				
45	number of positions now authorized. Additional facilities to be completed in the budget year will add				
46	further to the maintenance problem.				
47					
48	OPERATING EXPENSES: The increase of \$7,240 is due to population increase and special repairs and maintenance projects.				
49					
50	EQUIPMENT: The total of \$8,871 represents an increase of \$2,685 over the current year. Major items include additional laundry				
51	equipment, \$1,506; replacement of a tractor, \$2,009; and other farm equipment, \$1,790.				
52					
53					
54

GENERAL ANALYSIS

Number of positions-----	248	264.1	271.6	7.5
POPULATION AND UNIT COSTS				
Average Pupil Population:				
School-----	564	604	620	16
Diagnostic clinic c-----	7	-	-	-
Totals-----	571	604	620	16
Average cost per pupil-----	\$2,719	\$2,850	\$2,889	\$39 (2.7%) (1.4%)

The increase in per capita cost is primarily due to increased salaries and wages and equipment.

Four new dormitories were occupied in September, 1955. These replaced four condemned buildings. Three more dormitories were occupied in December, 1955. These replaced two smaller units and added a new 50-boy dormitory. A 42-boy dormitory will be remodeled during the 1956-57 Fiscal Year resulting in the loss of this capacity for approximately six months. The academic school addition is scheduled for completion in May, 1957, and the vocational trades building should be completed in August, 1956.

SALARIES AND WAGES: The increase of \$50,074 is largely due to salary increases and the full-year cost of authorized positions delayed pending completion of new facilities, partially offset by increased salary savings. In addition, a large part of the increase is due to the following:

Proposed New Positions:

5 Group supervisor-----\$19,980

These positions will provide one shift of double coverage for each of the three new 50-boy dormitories which were occupied in December, 1955. The shifts will be arranged so that there will be two group supervisors on duty from 6 a.m. to 8 a.m. and from 4 p.m. to 10 p.m. in each dormitory. These are the hours of greatest activity in the housing units.

3 Youth Authority teacher (effective May 1, 1957)-----2,370

Upon completion of the academic school addition it will be possible to provide academic classes for the increasing ward population. Until the addition is completed, an undesirably large number of boys must be assigned to work details since the needed academic education program will not be available for them.

OPERATING EXPENSES: The decrease of \$2,984 is primarily due to decreased special repairs and maintenance projects largely offset by costs relating to the increased population.

EQUIPMENT: The total of \$43,195 represents an increase of \$18,799 over the 1955-56 Fiscal Year. Major items include replacement of a dishwasher, sinks, and slides, \$8,500; an ice-making machine, \$1,000; an electric organ, \$1,460; two light poles, \$3,400; a hot water tank, \$1,800; four motor vehicles, \$6,472; a hay press, \$3,350; cattle, \$1,500; and poultry, \$1,140.

INMATE PAY-WORK PROJECTS: The decrease of \$2,962 is due to emergency forest fire suppression which occurred during the 1955-56 Fiscal Year. This cannot be anticipated in the budget year.

a Composed of savings in salaries and wages, \$9,508; operating expenses, \$4,751; equipment, \$4,503; and excess reimbursements, \$3,684.

b Composed of savings in equipment.

c These boys were fed, housed, and otherwise cared for by Preston School of Industry.

Department of the Youth Authority

LOS GUILUCOS SCHOOL FOR GIRLS

A correctional school for younger girls. Located near Santa Rosa, Sonoma County.

LINE	EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57	CHANGE FROM 1955-56
1	SUMMARY AND				
2	RECONCILIATION WITH APPROPRIATIONS				
3	General Fund				
4	SUPPORT				
5	Budget Act appropriation-----	\$618,241	\$648,834	\$680,426	
6	Allocations from Salary Increase Fund-----	—	25,365	—	
7	Transfer to other institutions-----	—	20,599	—	
8	Total Available-----	\$618,241	\$653,600	\$680,426	
9	Unexpended balance, estimated savings-----	—128,335 ^a	—48,147 ^b	—	
10	TOTALS, SUPPORT-----	\$489,906	\$605,453	\$680,426	\$74,973
11	Contributions to State Employees' Retirement Fund-----	26,326	33,900	38,700	4,800
12	TOTAL EXPENDITURES FOR SUPPORT-----	\$516,232	\$639,353	\$719,126	\$79,773 (12.5%)
13	GENERAL ANALYSIS				
14	Number of positions-----	87.8	99.4	109.2	9.8
15	POPULATION AND UNIT COSTS				
16	Population:				
17	Average pupil population-----	120	160	190	30 (18.8%)
18	End of year pupil population-----	146	180	195	15 (8.3%)
19	Average cost per pupil-----	\$4,302	\$3,996	\$3,785	—\$211 (—5.3%)
20	The decrease in per capita cost is due to increased population. All but one of the housing units will be occupied during the budget year. Positions previously authorized to staff this unit and other positions related to increased population have been abolished.				
21	SALARIES AND WAGES: The increase of \$57,480 is due to salary adjustments, a proposed new position, and decreased salary savings. The relatively high salary savings in the 1955-56 Fiscal Year is due to delayed filling of authorized positions because the population has increased at a slower rate than anticipated and because of the exercise of administrative controls to prevent the filling of certain other positions as they became vacant.				
22	Proposed New Positions:				
23	1 Supervisor of academic instruction-----				\$6,060
24	This position is discussed in the general analysis in the departmental summary.				
25	Positions Abolished:				
26	1 Senior group supervisor-----				—4,626
27	5 Group supervisors-----				—20,970
28	3 Youth Authority teachers-----				—13,446
29	1 Recreation and physical education teacher-----				—4,476
30	These positions have been abolished for both the 1955-56 and 1956-57 Fiscal Year.				
31	OPERATING EXPENSES: The increase of \$20,660 is primarily due to increased population.				
32	EQUIPMENT: The total of \$4,492 represents a decrease of \$277 below the 1955-56 Fiscal Year. The only major item is a replacement automobile, \$1,062.				
33	REIMBURSEMENTS: The rental to employees of rooms in a remodeled dormitory results in an increase of \$2,890 in rent.				
34	SUPPORT EXPENDITURES

GENERAL ANALYSIS

23	Number of positions	105.3	110.8	112.4	1.6
24					
25	POPULATION AND UNIT COSTS				
26	Average pupil population	164	170	170	—
27	Average cost per pupil	\$3,996	\$4,338	\$4,366	\$28 (0.6%)

The increase in per capita cost is primarily due to increased salaries and wages.

SALARIES AND WAGES: The increase of \$15,912 is due to salary increases partially offset by increased salary savings and the following:

Proposed New Positions:

34	0.3 Chaplain—Catholic (increase to half time)				\$2,028
35	0.3 Chaplain—Protestant (increase to half time)				2,028
36	These increases in chaplain service from 0.2 to half time are proposed to replace voluntary services				
37	which are no longer available to the extent they have been in the past and to increase the chaplain				
38	service to the level provided at the other Department of the Youth Authority institutions.				
39	1 Plumber				4,404
40	This position is to maintain the 35-year-old steam, water, gas, and sewer lines. No major replace-				
41	ments are being undertaken pending construction of the new institution, thus emergency repairs are				
42	becoming increasingly frequent.				

OPERATING EXPENSES: The increase of \$1,390 is due to small miscellaneous adjustments.

EQUIPMENT: The total of \$12,349 represents a decrease of \$13,751 below the 1955-56 Fiscal Year. Major items include replacement of two refrigerators, \$1,300, replacement of housekeeping equipment, \$4,129, and replacement of a motor vehicle, \$1,125.

DEPARTMENT OF EDUCATION

General Activities

performs administrative, supervisory, and advisory functions for the Public School System under the general direction of the Board of Education. Also responsible for the administration of 10 state colleges, California Maritime Academy, five special schools for physically handicapped children, three workshops for the blind, the Vocational Rehabilitation Program, and the state-federal program of vocational education. These activities are carried on through the Divisions of Departmental Administration, School Administration, Instruction, State Colleges and Teacher Education, Special Schools, and Services and Libraries.

GENERAL ANALYSIS

Number of positions ----- 387.3 395.8 407.3 11.5

An expansion is provided in the Division of State Colleges to enable the department to render more assistance to the State Board of Education in the further development and administration of basic policies in the State College Program.

The Opportunity Works Centers, formerly a part of the California Industries for the Blind have been included in the budget for the Field Rehabilitation Services for the Blind. Work load increases are found in the Division of Administration and the Credential Unit, Division of State Colleges.

^c Composed of savings in salaries and wages, \$20,126; operating expenses, \$84,223; equipment, \$14,389; and loss in reimbursements of \$35,681.

^d Composed of savings in operating expenses, \$20,878; and loss in reimbursements of \$9,138.

45	TEACHER EDUCATION						
46							
47	Administrative Unit						
48							
49	Includes over-all administration of the 10 state colleges and the California Maritime Academy, the issuance of credentials, and gen-						
50	eral supervision of the state program of teacher education.						
51							
52	Analysis						
53							
54	A professional position is provided for intensive study necessary to the development of a central policy on criteria to be used in the						
55	selection of students to be admitted to the state colleges. A second professional position is budgeted to be assigned to studies in the						
56	area of state college curricula with special emphasis being given to the coordination of curricula and the capital outlay programs.						
57	A research technician is included to assist in the development of basic data in the several program areas assigned to this unit and						
58	a budget analyst is provided to handle the increased work load in the fiscal unit.						
59

63	Field Rehabilitation Services for the Blind						
64							
65	Acquaints newly blinded persons with the opportunities available to them, trains the blind to the making of handieraft articles, and						
66	arranges the sale of such articles on a consignment basis.						
67							
68	Analysis						
69							
70	Under the provisions of Chapter 1020, Statutes of 1955, the Opportunity Work Center program is transferred to the Field Rehabili-						
71	tation Services for the Blind in the Division of Special Schools and Services. Prior to this legislation the program was admin-						
72	istered in connection with the California Industries for the Blind.						
73	The 1956-57 Budget transfers the center at San Jose from the California Industries for the Blind, terminates two existing centers at						
74	Los Angeles and San Diego and establishes new centers at Visalia and San Bernardino.

WESTERN REGIONAL HIGHER EDUCATION COMPACT__ - \$7,000 \$7,000

Analysis

Chapter 1694, Statutes of 1955, provides for California entry into the compact with nine other western states and the Territory of Alaska to promote better cooperation in higher education in medicine, dentistry, veterinary medicine and public health. Seven thousand dollars was appropriated to the Department of Education to be expended as California's share of the expenses of the Western Interstate Commission during 1955-56 and provision is made for continuance of the program in 1956-57.

Charges for small school building plans		-	2,000	2,000
Miscellaneous		835	800	800
Totals, Revenue		\$252,995	\$262,150	\$262,150

Department of Education

VOCATIONAL EDUCATION

The California program for vocational education is based upon a cooperative plan between the local school districts, the Department of Education, and the U. S. Office of Education. The program is administered through the Bureaus of Agricultural Education, Business Education, Homemaking Education, and Industrial Education, under the Division of Instruction in the Department of Education. Funds are made available for the operation of the total program by the local school districts, the State of California, and the Federal Government. These funds are expended for state-level supervision and teacher training, and for reimbursement to local school districts which meet standards of the California Plan for Vocational Education. The reimbursement is based on the amount of excess costs in meeting the prescribed standards.

The Smith-Hughes Act provides for agricultural education, industrial education, and homemaking education, while the George Barden Act covers agricultural education, industrial education, homemaking education, and business education. Each of these federal acts requires expenditures from federal funds be matched by at least an equal amount of state and local expenditures. The George-Barden Act allows reimbursement for salaries, travel, and instructional equipment. The Smith-Hughes Act allows reimbursement for salaries only.

a Does not include reimbursements to school districts maintaining approved vocational instruction. See Local Assistance budget.

b Neither federal aid revenues, nor expenditures therefrom, are included in the over-all budget totals.

c These state appropriations, together with all federal grants, are deposited in the Vocational Education Fund, from which expenditures are made.

d Appropriations for these programs included in single Budget Act Item for Vocational Education.

e Salary increase funds provided for Fire Training and Related Instruction.

f Distribution of these funds by program shown in Local Assistance budget.

29					
30	GENERAL ANALYSIS				
31					
32	Number of positions-----	203.6	227.5	242.1	14.6
33					
34	This budget continues the basic program approved in conjunction with the passage of Chapter 1647, Statutes of 1953, which recognized the State's primary responsibilities in the area of vocational rehabilitation.				
35	The intent of the bureau is to continue the program emphasis of accepting disabled clients most in need of rehabilitation services; however, the policy is to accept only those cases which come within the priority categories below:				
36	(1) Those applicants most clearly in need of rehabilitation service. Need here is broadly defined in terms of severity of disability, extent of vocational handicap, as well as financial problems.				
37	(2) Those cases most clearly representing a social and economic liability. Included in this category will be all types of public assistance cases for whose rehabilitation the State has a strong obligation.				
38	(3) The industrially injured, as required by statute.				
39	(4) Clients with dependents.				
40	Within these restrictions, the estimated allocation of staff time to specific areas is as follows:				
41					
42	Percent of				
43	Staff Time	Program Area			
44	50	Recipients of Public Relief. (Disabled recipients under the aid to needy children program, general relief recipients, those receiving aid to partially self-supporting blind and those receiving blind aid.)			
45	10	Industrial Accident Cases.			
46	10	Referrals from Mental Hospitals. (The State Department of Mental Hygiene, through its Bureau of Social Work, is urging the Bureau of Vocational Rehabilitation to accept as many referrals as possible. The Bureau of Social Work estimates a minimum of 2,400 referrals should be made in a fiscal year period.)			
47	5	Arrested Tuberculous Cases. (A case study is being made to determine the extent of the tuberculosis load by the San Francisco and San Diego Tuberculosis and Health Associations, who are now fully supporting a vocational rehabilitation officer I and clerical assistance in each of those areas. Those staff members are working only with arrested tuberculous or those approaching discharge.)			
48	10	Blind Aid Cases.			
49	15	Severely Disabled. (Certain cases which do not fall into the other groups will be given priority. Included in this group will be the deaf and severe hearing loss cases, severe orthopedic defects, severe cardiacs, epileptics, and cerebral palsied.)			
50					
51	a Composed of savings in salaries and wages, \$6,279; operating expenses, \$120,674; equipment, \$9,664; and decrease in reimbursements, \$63,262.				
52	b Composed of savings in operating expenses, \$328,138; and decrease in reimbursements, \$301,257.				
53	c Grants from the Federal Government and the expenditures therefrom are not included in the over-all budget totals. See Schedule 7 for summary of aid grants and expenditures.

VOCATIONAL REHABILITATION—Continued

LINE	EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57	CHANGE FROM 1955-56
1	GENERAL ANALYSIS—Continued				
2					
3					
4	Operating within the priority system the characteristics of the cases accepted for service in 1953-54 and 1954-55 were as follows:				
5		1953-54		1954-55	
6		Number	Percent	Number	Percent
7	TOTAL INTAKE -----	2,981	100	3,426	100
8					
9	BY SOURCE OF SUPPORT:				
10	Public welfare -----	1,446	48.5	1,530	44.7
11	Other (unemployment insurance, workmen's compensation, fam-				
12	ily, savings, etc.) -----	1,535	51.5	1,896	55.3
13					
14	BY DISABILITY:				
15	Blind -----	210	7	219	6.4
16	Tuberculosis -----	450	15.1	580	17
17	Mentally handicapped -----	200	6.7	240	7
18	Other -----	2,121	71.2	2,387	69.6
19					
20	ESTIMATED NUMBER OF:				
21	Industrially injured -----	255	8.5	275	8
22	Severely disabled -----	1,400	47	1,650	48
23					
24	This budget continues the present counselor staff through 1956-57.				
25	Case service funds have been increased by \$376,830 over the current year to continue the present level of expenditures for experienced				
26	counselors as adjusted for estimated price changes.				
27	Nine clerical positions have been added to relieve the professional staff from clerical duties as a long-term economy measure. This				
28	will release an estimated five-man years of professional time which is absorbed into the program; however, the increase in profes-				
29	sional time made available through this augmentation will be credited against future increases in staff for population growth.				
30	Equipment for vending stands is budgeted at \$76,000 which will allow the establishment of new stands equivalent in number to the				
31	average number of new stands established during the last three years.				
32					
33

Department of Education

DIVISION OF LIBRARIES

Provides library facilities for state legislators, employees, and agencies. Maintains state-wide library services for the blind, including loans of talking-book machines. Assists in establishing public libraries in those parts of the State without such service. Lends books not available locally and does reference work requiring materials not in smaller libraries. Collects library statistics, acts as a clearinghouse for library information and supervises, inspects, and advises county libraries.

Department of Education

STATE COLLEGES, SPECIAL SCHOOLS, AND BLIND CENTERS

STATE COLLEGES

The primary function of state colleges is the training of teachers. They may also offer courses appropriate for a general or liberal arts education; offer vocational training in such fields as business, industry, public service, homemaking, and social service; and offer the pre-professional courses needed by students who plan to transfer to universities for advanced professional study. The 1949 Legislature authorized the colleges to grant the master's degree. Until 1955, such degrees were limited to individuals who met the State's requirement for one of the various teaching credentials. As a result of extensive study over the past few years, multiple criteria have been established which must be met before a curricular field may be approved for a master degree by the Board of Education. Under this, seven master degree programs in occupational curricula were approved in 1955 by the Board of Education for various colleges.

Three technical schools are administered by the Department of Education: California State Polytechnic College, which offers occupational training in agriculture, engineering, and industry, plus limited courses in the liberal arts; Fresno State College Division of Agriculture, patterned after the agricultural instruction program at California State Polytechnic College, but specializing in problems affecting the central valleys; and the California Maritime Academy, which trains officers for the Merchant Marine and the Naval Reserve. Because of their vocational nature, instructional costs of these schools are normally greater than at the liberal arts type state colleges.

Analysis

In view of the growing teacher shortage now facing California's public schools, the state colleges are continuing to emphasize and encourage teacher training as their most important function. Major factors of change influencing the colleges during 1956-57 are:

1. The growth of regular session enrollment to an all-time peak of 48,720 full-time equivalent students representing an increase of 7,464 students over the 41,256 F. T. E. for 1955-56, predicated on actual fall semester experience. As the three new state colleges and the Kellogg-Voorhis campus of California Polytechnic attain additional permanent facilities, growth will be almost automatic from these newly-tapped population centers. State-wide long range forecasts based on birth rate and immigration factors indicate continued heavy growth in both high school graduates and attendance at higher education institutions. In addition, the drop in World War II veteran enrollment is more than offset by Korean veterans attending school under Public Law 550, who are influenced into enrolling at public colleges and universities because of the financial incentive of low tuition fees. Another factor is the enrollment of 300 women students on the San Luis Obispo campus of California Polytechnic for the first time in many years. In general, enrollment increases are anticipated to be moderate at colleges in the rural areas, and heavy at California Polytechnic, San Diego, and San Jose and at the new schools at Long Beach, Los Angeles, and Sacramento. Enrollment estimates for all colleges have been based on admissions standards established by the State Board of Education. However, enrollment estimates are not necessarily related to the existing college plant enrollment capacities. First, the count of student stations in classrooms and libraries and the utilization standards to be applied to the classroom student stations are still incomplete. Secondly, the tentative classroom capacity count that has been made indicates that the 1956-57 enrollments will slightly exceed the capacities at San Diego, Chico, Sacramento, San Francisco, and San Jose. Part of this plant shortage has been met by provisions for rental of classroom and faculty office space and by the diversion of large numbers of day students to extensive evening sessions. A certain amount of overcrowding of students in existing classrooms will also be necessary. The Department of Education has adopted a policy of temporarily overcrowding college plants in lieu of restricting enrollment in the hope that sufficient building space can be financed and constructed to meet future enrollments. Shortage in plant capacity includes space shortages in libraries, administrative and faculty offices, health facilities, corporation yards, cafeterias, and specialized instructional facilities, as well as classrooms.
2. The budget proposes the addition of 449.1 new faculty positions upon the basis of the teacher-staffing formula. The basic idea of the formula is that it allows staff in relation to the total work load of the college, which is the number of units of course work which the college offers. The total work load is then divided by the work load per individual instructor in order to determine the number of teaching positions necessary for a college. The work load per individual instructor is based on a work week of 45 hours which includes 36 hours of instructional work and nine hours in advising students, work on college committees, and work on student activities. Three minor corrections in the formula account for 13.8 of the proposed new teacher positions. The first is the introduction into the formula of a new small class size category to enable proper instruction in the new four-year nursing programs now offered at several state colleges. Implementation of this requires two new teachers. The second correction requires 3.4 teachers to provide for smaller class sizes at the graduate level and in certain engineering courses. The need for this recognition came with the growth of the graduate and engineering programs. The third correction consists of reducing the number of graduate students supervised by each teacher to enable effective supervision of these preparation and field studies. This requires 8.4 teachers.
3. Under legislative authorization, the Department of Education has completed a pilot study of an expanded student health service program at San Diego State College. At its 1953 Session, the Legislature adopted the first part of the plan which defined those services to be supported by the State. These were classified as physical examinations, health counseling, emergency care, first aid for sick or injured persons, and campus public health services such as food and housing inspections. The completed plan now defines those health services to be supported by student fees under the classifications of outpatient care and prevention (colds, poison oak, etc.), immunization and vaccination, X-ray services, physiotherapy, medical care for intercollegiate sports and laboratory services. The staffing believed necessary to perform all those services herein contemplated includes one doctor and one nurse per 1,000 regular students and clerical help and laboratory technicians in number sufficient to handle the work load. Necessary facilities and equipment are also itemized. Additional services desired by any college, such as infirmary overnight care, dental care, and incidental staffing and facilities would also be financed by the students, possibly through a separate local organization. Based upon the results of the pilot study, the present health fee of \$2 per regular student per year would be increased to \$6 upon implementation of the program at any college. The State's share of the program cost would be increased from \$7 per regular student per year to approximately \$11. It is also proposed that the expanded program be authorized only at those colleges where facilities are specifically budgeted to house the expanded program. In 1956-57, continuation of the expanded program at San Diego and its implementation at San Francisco is proposed since both colleges have new health facilities.
4. Professional and administrative staffing has been augmented in the budget by a total of 69.3 positions. These include 32.4 positions for the student personnel functions of student counseling, student activities, student placement, student admissions, and student health services. Counselors, physicians, and other officers are required in proportion to the increase in enrollment. Seven positions have been added in the executive office to coordinate the development of long-range educational and building programs for anticipated future enrollments. The remaining 29.9 positions are division chairmen and curriculum specialists for the instructional divisions. Their need is determined by the number of teachers provided.
5. Additional facilities provided by the present college construction program will be occupied at nearly all colleges during 1956-57. These facilities result in the provision for 108 additional maintenance positions.

Department of Education

STATE COLLEGES, SPECIAL SCHOOLS, AND BLIND CENTERS--Continued

STATE COLLEGES--Continued

Analysis--Continued

6. State college libraries are budgeted under a library staffing formula adopted in 1953-54. It provides a measurement of work load in the staffing areas of administration, technical services, public services, clerical services, and student assistant coverage. In addition to this formula, an organizational pattern is recognized to permit subdivision of work into logical functions, patterned in part from the organizational structure of the State Library. Application of this staffing pattern results in the addition of 38.5 professional and clerical positions, caused by additional demands on public service points resulting from increased enrollments and new library buildings and by increases in library book allotments to meet the enrollment growth.
7. Clerical and technical staffing is necessarily provided in conjunction with professional positions and new building operations, resulting in 152 new positions during 1956-57. Of these allowances, the majority are provided for instructional assistance and student personnel needs.

In addition to the above factors, individual allowances in positions, specialized operations, and equipment needs are provided at each school to meet special problems and substandard conditions. Over-all expenditures also include programs for summer sessions and extension, which are wholly offset by student fees for such purposes.

The budget for California State Polytechnic College is substantially in excess of the amount anticipated to be available from that school's share of the Fair and Exposition Fund. The deficit is proposed to be financed by Budget Act appropriation from the remainder in the Fair and Exposition Fund allocated by Section 19626(c) of the Business and Professions Code.

SPECIAL SCHOOLS FOR PHYSICALLY HANDICAPPED CHILDREN

Five special schools for the education of blind, deaf, and cerebral palsied children will be in operation during 1956-57; the School for the Blind at Berkeley, Schools for the Deaf at Berkeley and Riverside, and the Schools for the Cerebral Palsied at San Francisco and Altadena. Residential care and treatment needed for the proper training of these handicapped children is provided in addition to formal academic instruction. The two schools for the deaf and the school for the blind provide educational facilities from the primary grades through high school. The schools for the deaf also give extensive prevocational training. Education and medical treatment is provided for children afflicted with cerebral palsy at the two cerebral palsy schools. The student is usually enrolled for a period of 3 to 24 months of education and observation, after which he is returned to the local district to receive continued medical supervision and treatment and to enroll at special classes where possible to do so. Diagnostic and treatment clinics are operated in conjunction with these two state cerebral palsy schools for children who are not residents of the schools. Under the provisions of Chapter 1766, Statutes of 1955, these schools may accept for enrollment children with other similar handicaps, such as aphasia.

Analysis

The budget for the School for the Deaf at Berkeley provides for an increase in enrollment of 15 students with no increase in the school staff.

The School for the Deaf at Riverside provides for continuation of present enrollment. A teacher has been added for a course in motor winding. This course was included in the initial planning for the vocational education program.

The Schools for Cerebral Palsied Children and School for the Blind are budgeted at the current program level. The budget for the School for Cerebral Palsied Children, Northern California, reflects a transfer of positions to the operating staff that was formerly financed through a contract with the University of California. These positions were originally scheduled for transfer in 1955-56, however, it was found necessary to defer the transfer until 1956-57.

ORIENTATION CENTER FOR THE ADULT BLIND

The Oakland Orientation Center admits blind persons as residents and trainees in an intensive program designed to assist blind persons in becoming more self-sufficient, and in cases where feasible, partially prepare them for useful and remunerative work in trades, professions, private business, private industry, or public service. The program of the orientation center is closely coordinated with the services of the Bureau of Vocational Rehabilitation, with the home teacher and field service programs, and with programs for training teachers and other personnel directed toward serving the blind.

Analysis

The program is effectuated through a curriculum made up of the following courses:

- (a) Travel training,
- (b) Communication skills--Braille and typing,
- (c) Habits of daily living,
- (d) Counseling and guidance,
- (e) Business practices,
- (f) Physical education,
- (g) Shop.

The program for 1956-57 provides for an increase in enrollment of 12 students and a decrease in residents of two. The increase in work load attributable to the orientation program will be absorbed by the present teaching staff.

CALIFORNIA INDUSTRIES FOR THE BLIND

The California Industries for the Blind consist of three subsidized production centers located at Los Angeles, Oakland, and San Diego. These centers supply sheltered factory employment to blind and partially sighted persons. Such items as brooms, mops, pillowcases, surgical drapes and wrappers, aprons, rugs, brushes, rubber mats, and leather goods are manufactured in addition to fabrication and assembly of many products on a subcontract basis.

The administrative and related expenses are a direct charge against the General Fund, and the manufacturing activities are financed from working capital supplied by the Workshops for the Blind Manufacturing Fund into which the proceeds of sales of products are deposited.

Analysis

During the 1954-55 Fiscal Year, approximately 336 blind or otherwise physically handicapped persons were given employment at the three centers. Sales for the three centers amounted to \$2,198,000 and the cost of goods sold was approximately \$2,102,000. Sales are estimated to continue at about the same level for 1955-56 and 1956-57.

During 1954-55 approximately 30.1 percent of the persons given employment received Aid to Needy Blind payments and 35.7 percent received Aid to the Partially Self-Supporting Blind. The comparable figures for 1953-54 were 25.6 percent and 35.7 percent respectively.

CHICO STATE COLLEGE

four-year liberal arts college with a primary function of teacher training. A graduate year is offered in education leading to the M.A. degree. This college serves the northeastern section of the State and provides some courses of a terminal nature to meet the junior college needs of the Chico area.

Located at Chico

GENERAL ANALYSIS

Number of positions	190.9	222.1	264.1	42
Enrollment (full-time equivalent students)	1,619	2,000	2,350	350
				(17.5%)
Cost per student	\$764	\$735	\$753	\$18
				(2.4%)

An increase of 325 students in 1955 over the number budgeted for the current school year, plus an additional 350 students projected for 1956, results in an increase in the enrollment base of 675 students, or 40.2 percent, over the original budget for 1955-56.

Based on the application of established formulae, 18 teachers, in addition to those provided in the 1955-56 Budget, should have been added for the unanticipated increase in enrollment. However, only 1.8 teachers were provided from increased student fees. Largely because the enrollment increase in the current fiscal year was not met by a commensurate increase in faculty, the expenditures in the current year fell below those which could be justified by enrollment growth.

Even though increased enrollments create the need for normal increased expenditures of \$216,795 in the 1956-57 Fiscal Year, a portion of the \$300,390 total increase for this college will be caused by factors only partly related to enrollment. These include:

1. Normal salary adjustments during 1956-57, extension of the 1955-56 part-year salary adjustments for the full 1956-57 school year, and full-year use of positions established from student fees in 1955-56 \$54,973
2. Rental and operation of additional classroom and office space to offset the existing deficit in plant capacity 19,000
3. Special maintenance project of building alterations 3,250
4. Decline in payments from the Federal Government for tuition of veteran students 5,372
5. An electric organ to be financed by special student music fees which will amortize the cost of the organ over a 10-year period 4,000

Department of Education

FRESNO STATE COLLEGE

A four-year liberal arts college with a primary function of teacher training. Offers courses appropriate for a general or liberal arts education; offers vocational training in such fields as business, industry, public service, homemaking, and social service; and offers the preprofessional courses needed by students who plan to transfer to universities for advanced professional study. The 1949 Legislature authorized the college to grant the Master's degree.

A Division of Agriculture is operated at this school under authority of Chapters 1477 and 1490, Statutes of 1947, supported by Horse Racing Board breakage revenues deposited in the State College Fund.

Located at Fresno

FRESNO STATE COLLEGE—Continued

LINE	EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57	CHANGE FROM 1955-56
1	GENERAL ANALYSIS—Continued				
2					
3					
4	Although this college will continue to operate on two separate campuses during the 1956-57 Fiscal Year, well over one-half of the				
5	students will be located at the new campus. Instructional facilities at the old campus are being occupied by the Fresno Junior				
6	College as rapidly as they can be vacated by the state college, under a long-range program whereby the city school district will				
7	purchase the old campus site as soon as the state college can be transferred entirely to its new location.				
8					
9	General and Professional Divisions				
10					
11	In common with other liberal arts state colleges, to which the General and Professional Divisions closely correspond, a substantial				
12	enrollment increase is projected for the General and Professional Divisions in the 1956-57 school year.				
13	The enrollment increase of 375 students justifies two-thirds of the increase in operating funds for the General and Professional Divi-				
14	sions in 1956-57. The remainder of the \$381,605 increase in expenditures is caused by factors only partly related to increased				
15	enrollments, but which are necessary to maintain present levels of service. These include:				
16	1. Contributions to Teachers' Retirement Fund based on 3 percent of certificated pay rolls as required				
17	by Chapter 1395, Statutes of 1955				
18	2. Additional personnel to coordinate the development of long-range educational and building programs				
19	for anticipated future enrollments				
20	3. Special maintenance projects to reglaze a boiler, repainting interior of natatorium, and repainting and				
21	repairing stadium and ball park				
22	4. Bus rental to provide bus transportation between University Avenue and new campuses				
23	5. Decline in payments from the Veterans Administration for tuition of veteran students				
24	6. Operation and staffing of new facilities, including facilities completed, but only partly operated and				
25	staffed in 1955-56				
26					\$5,500
27					6,288
28					9,500
29					4,500
30					10,721
31					67,646

Division of Agriculture

An anticipated enrollment increase of 25 students over that of 1955-56 for this division of Fresno State College creates an increase in expenditures of \$43,767, or 10.5 percent, over 1955-56. In addition to increases in operating expenses and equipment, the 1956-57 budget contains an increase of \$15,678 for three maintenance positions and additional student assistants for servicing additional farm facilities.

Number of positions----- 151.6 179.1 215.9 36.8

ENROLLMENT AND UNIT COSTS

Enrollment (full-time equivalent students)----- 866 1,120 1,300 180
(16.1%)
Cost per student----- \$1,123 \$1,068 \$1,105 \$37
(3.5%)

An increase of 220 students in 1955 over the number budgeted for the current school year, plus an additional 180 students projected for 1956 results in an increase in the enrollment base of 400 students or 44.4% over the approved budget for 1955-56. Relief in only slight measure was provided by the addition of one teacher and an addition to operating expenses from excess student fees during the current year. This sharp upswing in enrollment creates an increase of \$241,156 in operating funds for this college in 1956-57 as follows:

SALARIES AND WAGES: An increase of \$194,517 or 19% over 1955-56, includes 19.1 teachers, 11 clerks, and 2 librarians based on student loads, 1.8 administrative professional positions required by growth, and 3 maintenance positions for additional campus facilities.

OPERATING EXPENSES: An increase of \$20,462 or 13.5% over 1955-56, includes \$7,625 for maintenance of new campus facilities, \$7,560 for instructional supplies, and \$5,227 for additional administrative supplies, services, test scoring and price increases.

EQUIPMENT: The total of \$77,418, an increase of \$21,163 or 37.6% over 1955-56, includes \$14,000 for new positions, \$25,000 in additional instructional equipment, and \$14,500 for library books to provide for the increased enrollment. Also included is a \$1,000 electric organ on the basis that special music fees will be established which will amortize the cost of the organ over a 10-year period.

REIMBURSEMENTS: An increase of \$8,187 or 8% over 1955-56 is composed of \$10,869 of regular student fees offset by a continued decline of \$2,792 in collections from the Federal Government for veteran students.

Department of Education

LONG BEACH STATE COLLEGE

A four-year liberal arts college with a primary function of teacher training. This school was established in the fall of 1949 in temporary quarters near the City of Long Beach. On June 7, 1950, the Director of Education accepted a gift of 316 acres of land from the City of Long Beach for a permanent campus site. During the first four years of its existence the college was limited to a two-year upper division curriculum. However, the college now offers work in all four years and one graduate year of its liberal arts program.

Located at Long Beach

GENERAL ANALYSIS

Number of positions----- 254 334 434.8 100.8

ENROLLMENT AND UNIT COSTS

Enrollment (full-time equivalent students)----- 2,344 3,250 4,400 1,150
(35.4%)
Cost per student----- \$591 \$595 \$581 -\$14
(-2.4%)

An unexpected enrollment increase of 450 students in fall, 1955, over the 2,800 budgeted for 1955-56, has been met by financing 12 additional teachers, 1.5 clerks, and related expenses from excess student fees.

This added enrollment plus a further anticipated increase of 1,150 students in 1956-57 will create a total increase in the enrollment base of 1,600 students, or 57 percent over the enrollment on which the 1955-56 Budget was based. Budgeting for the larger enrollment accounts for nearly all of the increase of \$620,486 over 1955-56. Operation and staffing of new facilities including a cafeteria, administration building, and faculty office building, accounts for \$59,258 of the total increase.

Department of Education

LOS ANGELES STATE COLLEGE OF APPLIED ARTS AND SCIENCES

A two-year upper division college with two primary functions: first, the training of students for gainful occupations in arts and sciences as related to business and industry; and second, the training of students for teaching in the public schools. Courses appropriate for a liberal arts education are also offered in fields normally given at other state colleges. The college is at present conducting classes on the campus of the Los Angeles City College under rental agreement with the Los Angeles City School District and on its own campus in East Los Angeles, five miles from the central business district. The temporary buildings on the San Fernando Valley Campus will be completed and classes will be offered for the first time at this new site in September, 1956. Los Angeles State College will therefore be operating three separate campuses during the 1956-57 Fiscal Year.

Located at Los Angeles

18					
19					
20	GENERAL ANALYSIS				
21					
22	Number of positions-----	331.1	471.8	641.7	169.9
23					
24	ENROLLMENT AND UNIT COSTS				
25	Enrollment (Full-time Equivalent Students):				
26	Vermont campus-----	3,781	3,250	1,700	-1,550
27	Ramona campus-----	-	1,550	4,000	2,450
28	San Fernando Valley campus-----	-	-	850	850
29					
30	Totals-----	3,781	4,800	6,550	1,750
31					(36.5%)
32	Cost per student-----	\$566	\$611	\$596	-\$15
33					(-2.5%)
34					
35	The opening of the new Ramona campus in February, 1956, contributed to an unanticipated increase in enrollment in 1955-56 of				
36	300 full-time students more than the 4,500 originally estimated. To meet this increase the employment of 19.7 teachers has				
37	been financed from additional student fees and transfer from rental allotments originally budgeted for payment to the Los				
38	Angeles City College.				
39	A further upswing in enrollments of 1,750 full-time equivalent students is anticipated for 1956-57. This increase plus the unexpected				
40	1955-56 enrollment of 300 excess students makes a total of 2,050 or 45.6 percent over the original estimates for 1955-56.				
41	To properly accommodate this large enrollment, and to permit operation of the new San Fernando campus for the first year in				
42	constructed facilities, an increase of \$973,482 or 33 percent over the 1955-56 school year is required. During the current school				
43	year, a limited night program in teacher education has been operating in rented high school facilities in the San Fernando				
44	Valley.				
45					
46	SALARIES AND WAGES: The increase of \$966,748 or 38.1 percent includes 105.2 teachers, 31.5 clerical and technical, 14 library,				
47	6.2 administrative professional and 16 maintenance positions on all campuses. A full-time instructor position has been added to				
48	assist in the preparation and administration of the building program.				
49					
50	OPERATING EXPENSES: A net increase of \$33,057, or 15.3 percent, consists primarily of the cost of operating the new facilities,				
51	offset by a decrease of \$151,640 in rental payments to Los Angeles City College for the use of the Vermont Avenue campus.				
52					
53	EQUIPMENT: The total of \$153,833, an increase of \$17,988, or 13.2 percent, includes \$31,500 for equipping new positions,				
54	\$44,500 in additional instructional equipment, and \$62,000 for library books to provide for the enrollment increase.				
55					
56	REIMBURSEMENTS: The increase of \$99,644, or 19.8 percent, is caused by increased student fees offset, in part, by a decline				
57	in payments from the Veterans Administration and decreasing payments from Los Angeles City College for services rendered				
58	to them.				
59					
60	^a Composed of savings in salaries and wages, \$47,147; operating expenses, \$42,096; equipment, \$3,194; and excess reimbursements,				
61	\$30,942.				
62	^b Composed of savings in operating expenses.

GENERAL ANALYSIS

Number of positions-----	236.9	301.3	359.1	57.8
ENROLLMENT AND UNIT COSTS				
Enrollment (full-time equivalent students)-----	1,925	2,570	3,200	630 (24.5%)
Cost per student-----	\$709	\$699	\$688	—\$11 (—1.6%)

An increase of 170 students over the number budgeted in 1955 for the current school year, plus an additional 630 students projected for 1956-57, results in an increase in the enrollment base of 800 students, or 42%.

The pressure of the enrollment increase of 170 in the current year was alleviated by the addition of six new teachers, student assistants, and operating expenses from excess student fees. The enrollment estimated for 1956-57 creates an increase of \$405,147 over 1955-56, detailed as follows:

SALARIES AND WAGES: An increase of \$315,876, or 18.9% over 1955-56, includes 34.4 teachers, 10 clerical and technical positions, one library position, seven maintenance positions to care for additional facilities and grounds, and 5.2 administrative professional positions. A 0.5 teacher position has been allowed to assist with the building program.

OPERATING EXPENSES: An increase of \$44,280, or 19%, is made up in part of \$26,200 in expenses that will be incurred in renting two busses and additional classroom facilities to offset the existing deficit in plant capacity. The balance is caused by enrollment growth.

EQUIPMENT: The total of \$98,322, an increase of \$5,361, or 6% over 1955-56, includes \$30,000 in additional instructional equipment, \$30,000 in library books, and \$18,000 in equipment complements for new positions, all necessary to provide for the increase in enrollment.

REIMBURSEMENTS: There is a decrease in reimbursements of \$13,650, or 4.3%. This is caused by reimbursements from the Federal Government of \$22,107 for the Governor's Conference on Education in the current fiscal year. In the 1956-57 budget year, there will be an increase of \$21,667 in student fees, offset by a decrease of \$13,210 in payments from the Veterans Administration, due to a continued decline in the number of World War II veterans registered.

---------------	------	---	---

Department of Education
SAN DIEGO STATE COLLEGE

A four-year liberal arts college with a primary purpose of teacher training. Besides liberal arts courses and preprofessional courses offered students who plan to transfer to universities for advanced professional study, occupational curricula are offered in such fields as nursing, personnel management, social service, public administration, recreation, and business. San Diego State College also is the only college to offer a minor program in astronomy.

Located at San Diego

GENERAL ANALYSIS

Number of positions-----	428.8	516.6	608.3	91.7
ENROLLMENT AND UNIT COSTS				
Enrollment (full-time equivalent students)-----	4,614	5,460	6,250	790 (14.4%)
Cost per student-----	\$552	\$578	\$612	\$34 (5.8%)

During the 1955-56 school year, enrollments at this college exceeded expectations by 260 students. To alleviate the pressures of this increase, five teachers and seven clerical positions were added during the current year from increased student fee income. In the 1956-57 school year, an additional 790 students are anticipated. Approximately two-thirds of the \$666,610 increase in expenditures can be directly related to student growth. Other factors influencing the increase are only partly related to total enrollment growth and include the following:

1. A change in the composition of the enrollment requires an additional 11.2 teachers at a cost of \$46,480. These teachers are necessary to staff for:
 - a. Upper division classes that will require additional sections in the 1956-57 year in order not to exceed authorized class size limits.
 - b. Third year of nursing program.
 - c. Approved masters' programs in business administration and public administration.
 - d. Heavy increase in practice teaching enrollment.
2. Operation and staffing of new facilities, including a music-speech building addition, home economics cottage and building, and education building-----\$62,211
3. Coordination of the development of long-range educational and building programs for anticipated future enrollments-----9,498
4. An electric organ to be financed by special student music fees which will amortize the cost of the organ over a ten-year period-----4,000
5. A decline in payments from the Federal Government for tuition of veteran students-----24,176
6. Extension of 1955-56 part-year salary adjustments for the full 1956-57 school year, and full-year use of positions established from student fees in 1955-56.

SAN FRANCISCO STATE COLLEGE

A four-year liberal arts college emphasizing teacher training. The program for training teachers of exceptional children is one of the most extensive in the Nation. Contributing to this program is the state School for Cerebral Palsied Children, Northern California, located adjacent to the college campus.

Located at San Francisco

16					(12.4%)

GENERAL ANALYSIS

Number of positions----- 519.6 585.8 631.5 45.7

ENROLLMENT AND UNIT COSTS

Enrollment (full-time equivalent students)----- 5,271 5,630 5,850 220
 Cost per student----- \$556 \$615 \$666 (3.9%)
 \$51
 (8.3%)

An increase of 130 students in 1955 over the number budgeted for the current school year, plus an additional 220 students projected for 1956 results in an increase in the enrollment base of 350 students or 6.3 percent over the original budget for 1955-56. Relief during the current year was provided by the addition of six teachers, six clerks, and additional operating expenses from increased student fee income.

Although enrollment increases are responsible for approximately one-half of the \$429,390 increase in 1956-57 expenditures, other factors influencing the increase are only partly related to the total enrollment growth, including:

1. A change in enrollment composition requires 11.5 teachers at a cost of \$47,725. These teachers are necessary:

a. To staff for upper division classes that will require additional sections in the 1956-57 school year in order not to exceed authorized class size limits.

b. To staff for approved nursing program.

c. To staff for a heavy increase in practice teaching enrollment.

2. Operation and staffing of new facilities, including a new campus elementary school, a corporation yard, and a student health center, with related staff increases to provide a health program comparable to that at San Diego State College----- \$56,145

3. Special maintenance projects for painting----- 20,288

4. Decline in payments from the Federal Government for tuition of veteran students----- 18,731

5. Additional personnel to coordinate the development of long-range educational and building programs for anticipated future enrollments----- 9,498

6. An electric organ to be financed by special student music fees which will amortize the cost of the organ over a ten year period----- 4,000

7. Extension of 1955-56 part-year salary adjustments for the full 1956-57 school year, and full-year use of positions established from student fees in 1955-56.

SAN JOSE STATE COLLEGE

A four-year liberal arts college with a primary function of teacher training and a well-established vocational curricula in such fields as nursing education, police training, and occupational therapy. This college, oldest and largest of California's state colleges, trains approximately 10 percent of the new teachers graduating from this State's teacher-training institutions.

Located at San Jose

LINE	EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57	CHANGE FROM 1955-56
1	SUMMARY AND				
2	RECONCILIATION WITH APPROPRIATIONS				
3	General Fund				
4	SUPPORT				
5	Budget Act appropriation-----	\$3,513,958	\$4,232,613	\$5,098,453	
6	Allocations from Salary Increase Fund-----	—	103,777	—	
7	Total Available-----	\$3,513,958	\$4,336,390	\$5,098,453	
8	Unexpended balance, estimated savings-----	—36,478 ^a	—	—	
9	TOTALS, SUPPORT-----	\$3,477,480	\$4,336,390	\$5,098,453	\$762,063
10	Contributions to State Employees' Retirement Fund-----	219,514	289,187	335,238	46,051
11	TOTAL EXPENDITURES FOR SUPPORT-----	\$3,696,994	\$4,625,577	\$5,433,691	\$808,114 (17.5%)
12	GENERAL ANALYSIS				
13	Number of positions-----	606.6	751.6	851.2	99.6
14	ENROLLMENT AND UNIT COSTS				
15	Enrollment (full-time equivalent students)-----	7,157	8,300	9,200	900 (10.8%)
16	Cost per student-----	\$517	\$557	\$591	\$34 (6.1%)
17	In the 1956-57 school year, an additional 900 students are anticipated. Approximately two-thirds of the \$808,114 increase in expenditures can be directly related to the enrollment expansion. Other factors influencing the increase are only partly related to total enrollment growth and includes the following:				
18	1. A change in the composition of the enrollment requiring an additional 25.2 teachers-----				\$109,872
19	These teachers were necessary to staff for:				
20	a. Upper division classes that will require additional sections in 1956-57 in order not to exceed authorized class size limits.				
21	b. Heavy increase in practice teaching enrollment.				
22	2. Operation and staffing of new facilities, including a library addition and men's gymnasium-----				65,568
23	3. Rental and operation of additional classroom and office space to offset the existing deficit in plant capacity-----				20,200
24	4. Coordination of the development of long-range educational and building programs for anticipated future enrollments-----				9,498
25	5. An electric organ to be financed by special student music fees which will amortize the cost of the organ over a 10-year period-----				4,000
26	6. Special maintenance and repair projects-----				16,630
27	7. Decline in payments from the Federal Government for tuition of veteran students-----				19,935
28	8. Contributions to Teachers' Retirement Fund based on 3 percent of certificated pay rolls as required by Chapter 1395, Statutes of 1955-----				13,000
29	9. Extension of 1955-56 part year positions and salary adjustments for the full 1956-57 school year.

Department of Education

CALIFORNIA STATE POLYTECHNIC COLLEGE

A technical college providing occupational training in agriculture, engineering and industry, and in selected liberal arts fields. The college grants a bachelor of science degree in agriculture, engineering, and liberal arts; and has been accredited for granting a general secondary credential, a special secondary credential in vocational agriculture, a special secondary credential in physical education, and the special secondary limited credential in agriculture. In addition a program for graduate study leading to a master of arts degree is provided. Two-year vocational and three-year technical curricula are offered in all agricultural and engineering majors.

The college maintains two branches in Southern California—the Voorhis Campus located at San Dimas, and the nearby Kellogg Campus located at Pomona. The Voorhis Campus offers programs in agricultural inspection, citrus fruit production, and ornamental horticulture. The Kellogg Campus, consisting of 812 acres acquired by gift in 1949, is for the expansion of instructional facilities at this branch.

Campuses at San Luis Obispo, San Dimas, and Pomona

LINE	EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57	CHANGE FROM 1955-56
1	GENERAL ANALYSIS—Continued				
2					
3					
4	ENROLLMENT AND UNIT COSTS—Continued				
5					
6	For the first time in many years women students will be enrolled on the San Luis Obispo campus. It is anticipated that 300 freshman				
7	women students will enroll in 1956-57. The first permanent building, a large science classroom, will be completed in 1956-57 on				
8	the Kellogg-Voorhis Campus. These two factors are the major causes for the large enrollment increase of 1,085 or 27.9 percent				
9	in 1956-57. The cost of the increased enrollments is \$695,809 or 20.7 percent over 1955-56, detailed as follows:				
10					
11	SALARIES AND WAGES: An increase of \$609,068, or 21.7 percent, includes 49.7 teachers, 13.1 administrative professional posi-				
12	tions, and 17.5 clerical and technical positions to meet the enrollment increase. In addition, 17 maintenance and farm positions				
13	are added to maintain additional building and ground facilities. An instructor position is proposed to assist with the building				
14	program.				
15					
16	OPERATING EXPENSES: The increase of \$94,481, or 16.6 percent, consists of \$50,000 in general expense, instructional expense,				
17	library expense, and telephone expenses to meet enrollment increases, and \$35,000 in farm, plant maintenance, and utility				
18	costs due to expanded plant facilities.				
19					
20	EQUIPMENT: The total of \$124,346, an increase of \$9,816 or 8.6 percent over 1955-56, includes \$19,700 to provide equipment for				
21	new positions, \$39,000 in additional instructional equipment, and \$34,000 for library books to provide for additional enrollment.				
22					
23	REIMBURSEMENTS: An increase of \$25,698, or 7.2 percent, is caused by an increase of \$45,922 in student fees due to the enroll-				
24	ment increase, partly offset by a drop of \$23,083 in charges to the Veterans Administration due to a continued decline in				
25	enrollment of World War II veterans.

CALIFORNIA MARITIME ACADEMY

The academy educates and trains qualified young men to become licensed officers in the Merchant Marine. The course is three years and leads to the Bachelor of Science degree in Nautical Science, specifying navigation and seamanship for those in the deck course, marine steam, diesel and electrical engineering for those in the engineering course. Prior to graduation, candidates for the degree take the U. S. Coast Guard examination for licenses as third mates or third assistant engineers. Selected graduates are also issued appointments as ensign in the U. S. Naval Reserve, similar to those received by graduates who have taken Naval R. O. T. C. training in the 52 leading universities of the Country. The academic course is supported by training at sea approximately three months each year on the training ship Golden Bear, which is on loan to the State from the Federal Maritime Administration.

The State receives for the academy an annual subsidy (currently \$25,000) for general overhead from the Federal Government, which also pays to the State 68 7/10 cents per diem for subsistence of qualified Naval Reserve students, and pays approximately \$50,000 annually for the overhaul and drydocking of the training ship. The States of Maine, Massachusetts, and New York have similar maritime academies, similarly subsidized by the Federal Government.

Located at Morrow Cove (Vallejo)

22	Cost per student-----	\$2,289	\$2,197	\$2,110	(6.3%)
23					-\$87
24					(-3.9%)
25	The enrollment for 1955-56 is 141, with an anticipated estimated average enrollment for 1956-57 of 150, an increase of 9 or 6.3%.				
26	The budget presented shows an increase of \$6,713 or 2% in 1956-57 over 1955-56. The increase in salaries and wages of \$10,048 or 3.5% includes the establishment of two new positions. Provision has been made for a painter who will carry out a continuous program of maintenance rather than having the work done by contract. This should produce considerable savings.				
27	A laborer has been added to meet the requirements of expanding ground development and increases in plant.				
28	The increase in salaries and wages is partially offset by increased receipts of student fees of \$3,645 and a slight decrease in operating expense.

Department of Education

CALIFORNIA SCHOOL FOR THE BLIND

A residential school for general education of the blind, partially blind, and deaf-blind children through the elementary and secondary school levels. The education of the blind requires special equipment, particularly library and writing facilities, models for tactual study and apparatus for corrective physical education. Guidance service is rendered to preschool blind children and their parents, to graduates and ex-pupils by the school's field services. The deaf-blind unit is the only one in the western part of the United States where these doubly handicapped children may be educated.

Located at Berkeley

Department of Education

CALIFORNIA SCHOOL FOR THE DEAF, BERKELEY

The California School for the Deaf, Berkeley, is a residential school admitting mentally normal deaf children from 5½ to 21 years of age. Students are given elementary and high school general education, with special emphasis on development of language concepts. Students are given special speech instruction using oral techniques as well as finger spelling and lip reading. Opportunities are provided for learning a trade in one or more of the following fields: home economics, commercial art, printing, cabinet making, shoe repair, baking, and business techniques. Opportunity is provided for the students to qualify for attendance at Gallaudet College in Washington, D. C., the only college in the United States providing collegiate instruction for deaf people.

31	Analysis							
32								
33	This program is budgeted at the current year's level. The increase is due to an increase in the number of students from 36 in 1955-56							
34	to 44 in 1956-57. In addition to the funds budgeted herein the Bureau of Vocational Rehabilitation will provide about \$11,000 to							
35	defray costs of these students as follows: tuition, \$7,500; maintenance, \$3,300; and diagnosis, \$200.

Department of Education

CALIFORNIA SCHOOL FOR THE DEAF, RIVERSIDE

A residential school admitting mentally normal deaf children 5½ to 21 years of age. Pupils are given elementary and high school education, training in speech development and lip reading, and an opportunity to learn the fundamentals of a trade.

An additional teacher has been budgeted for a class in motor winding which will start in September, 1956. The remainder of the program is budgeted at the current level of services. The second unit of construction is essentially completed and will provide for the present enrollment of 335. The final phase of construction, which will provide for a maximum enrollment of 500 students, was financed in the 1955-56 Budget and is scheduled for completion in the 1957-58 Fiscal Year. The schedule above relates estimated costs per student in terms of activities at this institution.

SCHOOL FOR CEREBRAL PALSID CHILDREN, NORTHERN CALIFORNIA

A residential school for the education and intensive treatment of children afflicted with cerebral palsy. Students are enrolled on the average from 3 to 24 months, depending upon the severity of their handicap and the degree of difficulty in establishing an educational, medical, and therapy program. The majority of the students remain with the school in excess of 12 months. Upon establishment of such a program, the child is returned to his local community for continued medical supervision, treatment, and special education. A diagnosis and treatment center is maintained through cooperation with the University of California School of Medicine at San Francisco, which provides diagnosis and clinical treatment for children with cerebral palsy who are referred to the center.

Under the provisions of Chapter 1766, Statutes of 1955, the school may now accept for enrollment children with other similar handicaps such as aphasia.

Located at the San Francisco State College Campus

GENERAL ANALYSIS

Number of positions	41.7	54.1	56.9	2.8
ENROLLMENT AND UNIT COST				
Average enrollment—resident students	32	34	34	-
Average cost per student (excluding diagnostic and treatment costs for nonresident children)	\$10,330	\$10,487	\$11,036	\$549 (5.2%)

Provision is made for continuation of the existing level of services. The three positions shown as "proposed new" under Instruction and Care are for the purposes of providing services to residents, formerly performed at the University of California under contract with the school. The 1955-56 budget made provision for the transfer of 9.4 positions from the contract with the University to the staff of the school. It was found that the transfer of the three positions shown as "proposed new" had to be deferred until 1956-57. Maintenance and Operation of Plant has been increased by two janitor positions in 1955-56 and 1956-57 by the transfer of two positions assigned these duties, but financed from temporary help in the Instruction and Care unit.

OAKLAND ORIENTATION CENTER

The center admits blind persons as trainees in an intensive program designed to assist blind persons in becoming more self-sufficient, and in cases where feasible, partially prepares them for useful and remunerative work in trades, professions, private business, private industry, or public service. The center also provides a residence for blind persons admitted prior to the separation of the orientation and the workshop manufacturing functions in 1951.

LOS ANGELES CENTER, CALIFORNIA INDUSTRIES FOR THE BLIND

Provides sheltered factory employment to blind and partially blind persons, some of whom are unable to obtain, or retain, jobs in private industry. Industrial training and vocational guidance is also given to enable blind persons to contribute to their own support. The administrative and related expenses are supported by the General Fund and the manufacturing activities are financed from working capital supplied by the Manufacturing Revolving Fund, as shown in the Appendix.

OAKLAND CENTER, CALIFORNIA INDUSTRIES FOR THE BLIND

Oakland Center, California Industries for the Blind, provides sheltered factory employment to blind, partially sighted and physically handicapped persons most of whom are not able to obtain employment in private industry but need to be able to contribute to their own self-support. Administrative and related expenses are supported by the General Fund and the manufacturing activities are financed from working capital supplied by the California Industries for the Blind Manufacturing Fund as shown in the Appendix. This center specializes in the manufacture of domestic and industrial type of corn brooms. Other products manufactured at this center are staple set street brooms, pillow cases, mailing bags and sanitary brushes. Sewing and assembly projects are also carried on at this center.

32					
33	The budget provides for the continuation of the present level of activities but a stock clerk and an intermediate typist-clerk positions				
34	are being transferred from the California Industries for the Blind Manufacturing Fund to the General Fund consistent with the				
35	plan of allocation of costs now in effect. The over-all decrease is explained by transfer of the Opportunity Work Center to the				
36	general activities of the Department of Education, in accordance with Chapter 1020, Statutes of 1955, partially offset by				
37	increase of approximately \$10,000 in special repair and maintenance projects.

Department of Education

SAN DIEGO CENTER, CALIFORNIA INDUSTRIES FOR THE BLIND

Provides sheltered employment to blind, visually handicapped and some physically handicapped men and women who are unable to obtain employment in private industry but who need an opportunity to enable them to contribute to their own self-support. This center specializes in the manufacture of wet and dry mops and other related items. The administrative expenses are supported by the General Fund while supervision and related manufacturing expenses are supplied from the California Industries for the Blind Manufacturing Fund, as shown in the Appendix.

Department of Education

STATE TEACHERS' RETIREMENT SYSTEM

administers through the State Teachers' Retirement Board the Teachers' Retirement Act. Computes, collects, records, and refunds contributions, and computes and pays retirement benefits. Members of the system consist of certificated employees of the Public School System and employees of the state departments holding valid teaching credentials who have elected to join the State Teachers' Retirement System.

STATE SCHOLARSHIP COMMISSION

administers the scholarship program authorized by Chapter 1846, Statutes of 1955. The commission may award 640 scholarships during 1955-56 and 1,280 during the Fiscal Year 1956-57. Payments are made in the year subsequent to the award.

22					
23	1956-1957 will be the first full year of operation for the State Scholarship Commission. The commission will operate for six months only during the 1955-56 Fiscal Year.				
24	Because of the newness of the program, there has been no experience upon which to base budget estimates. The 1956-57 cost estimates are based upon the policies adopted by the commission. This program calls for the payment of 640 scholarships at a cost of \$300,000 in 1956-57 and the award of 1,280 scholarships in 1956-57 for which payment will be made in 1957-58. It is anticipated that the applicant will pay the cost of an academic examination and the commission will bear the cost of determining financial need in 1956-57.

GENERAL SUMMARY

The proposed support budget of the University of California for 1956-57 provides for expenditures totaling \$98,008,584, including contributions to the State Employees' Retirement Fund of \$3,745,000. Of this amount, \$71,098,455, or 72.5 percent, is requested from state sources: \$70,829,663 from the State General Fund; \$138,792 from the Fair and Exposition Fund; \$100,000 from the Real Estate Fund; and \$30,000 from the Accountancy Fund. The balance, \$26,910,129, is from university sources, including balances carried forward from prior year income and state appropriations.

The budget provides for an increase of \$6,045,119, or 6.6 percent, in expenditures from all sources. The appropriations from the State General Fund will increase \$6,353,811, or 9.9 percent, while that portion from university sources decreases \$325,484 or 1.2 percent, due largely to the fact that 1954-55 balances in the amount of \$1,545,847 that ordinarily would have been carried forward to 1956-57 were required to be used in 1955-56 to meet general salary increases in lieu of state funds appropriated. Because of this, prior year balances carried forward to 1956-57 total \$906,197 compared to \$4,067,138 utilized in 1955-56, a decrease of \$3,160,941, or 77.7 percent.

The increase of \$6,045,119, or 6.6 percent in 1956-57 expenditures compares to an enrollment increase of 2,913, or 7.7 percent. Related to the original budget estimate for 1955-56, the anticipated enrollment increase equals 3,908, or 10.7 percent.

The budget as proposed by the Regents requested state appropriations of \$72,348,455 and the use of university funds in the amount of \$25,660,129 for current operations. As here submitted the proposed state appropriations are \$71,098,455. The reduction of \$2,150,000 is made up of the following modifications: (1) a reduction of \$650,000 in the provision for enrollment increases from \$1,000,000 to \$350,000; (2) a reduction of \$250,000 in the reserves for contingencies from \$979,300 to \$729,300; (3) an increase of \$1,250,000 in the amount of university funds estimated to be available to meet current operations.

The areas in which the increases occur are shown below by campus or major activity.

ANALYSIS OF INCREASES

State-wide Activities

Budget Increase -----\$483,769

The \$483,769 increase in operating budgets, state-wide, includes only one large item, an increment of \$106,774, or 5.6 percent in Regents' contributions to the academic retirement system, required by projected growth in faculty pay roll. The balance of the increase is distributed fairly evenly and includes \$29,031 for officers of the Regents, \$30,958 for the admissions offices, north and south, \$25,000 for the state-wide cancer research program; all other increases are less than \$20,000.

c Net current expenditures (including contributions to the State Employees' Retirement Fund) after deducting current revenue from sources other than state appropriations. Excludes expenditures, income, and enrollment, if any, for the following activities and functions, together with the proportionate amount of maintenance and operation of plant and state-wide expenditures attributable thereto:

- (1) Summer sessions, extension, vocational education.
- (2) Organized research activities, such as the Agricultural Experiment Station, the Scripps Institution at La Jolla, Lick Observatory, the Institute of Experimental Biology, etc. However, expenditures for research and investigation carried on by academic personnel under departmental auspices are included; these are particularly significant in the medical centers at San Francisco and Los Angeles.
- (3) Auxiliary enterprises, such as dormitories and dining halls.
- (4) Organized activities of educational departments, such as the University Creamery at Davis, and the Optometry Clinic at Berkeley, which are supported out of their own income. However, teaching hospital expenditures in excess of their income are included in computing expenditures per student.
- (5) Student aid and annuity and agency fund payments.

LINE	EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57	CHANGE FROM 1955-56
1	ANALYSIS OF INCREASES—Continued				
2					
3					
4					
5	State-wide Miscellaneous Provisions				
6					
7	Budget Increase -----			\$1,348,306	
8					
9	The net total of \$3,740,249 for miscellaneous lump sum provisions budgeted on a university-wide basis for allocation in augmentation				
10	of departmental budgets includes: \$2,640,000 for the 1956-57 full year's cost of the academic and nonacademic general salary				
11	increases granted in 1955-56; \$1,467,000 for the regular program of academic promotions and of merit salary adjustments, both				
12	academic and nonacademic; \$350,000 for enrollment increases not provided for in the detailed departmental budgets; and \$504,900				
13	in provisions for contingencies other than enrollment increases. These amounts are partially offset by an increase in estimated				
14	salary savings from \$1,056,331 in 1955-56 to \$1,400,000 in 1956-57.				
15					
16	Berkeley Campus				
17					
18	Budget Increase -----			\$1,191,063	
19					
20	Of the \$1,191,063 or 5.1 percent increase proposed at Berkeley, general campus activities account for \$891,148, which is spread fairly				
21	widely in the light of expected increases in student load.				
22	Departments in which there are substantial increases include electrical engineering, mathematics, physics, and chemistry, all of which				
23	must participate in the increasing demand for technically trained professional personnel; and the School of Education which				
24	must meet enrollment increases and greater demands for secondary teacher and school administrator training.				
25	Other activities which lead to budget increases is the new program for the degree master of business administration inaugurated in				
26	1955-56, an honors course in American civilization, and an integrated course in the social sciences to better serve the needs of				
27	students in the sciences and professional curricula. The last two courses are supported from endowment income.				
28	Some increase is necessary for books, binding, and staff in the library, reflecting its growth to two million volumes, and its develop-				
29	ment into the third most important library in the United States, according to the American Library Association.				
30					
31	Davis Campus				
32					
33	Budget Increase -----			\$427,844	
34					
35	An increase of \$427,844 or 5.4 percent is proposed for the Davis campus. Of this amount \$106,051 is concerned with general campus				
36	activities, and the remainder for agricultural sciences and business office activities set forth below. The increase for general				
37	campus activities reflects a substantial increase in student enrollment, and will largely go toward the strengthening of eight				
38	teaching departments. It was estimated previously that there would be an average of 1,975 students at Davis in 1956-57, but that				
39	total has nearly been reached this year, and it now appears that there will be at least 2,200 students next year. The growth in				
40	enrollment also necessitates added personnel and increased provision for books and periodicals in the library.				
41					
42	La Jolla Campus				
43					
44	Budget Increase -----			\$50,013	
45					
46	The increase proposed for La Jolla is \$50,013 or 4.8 percent. In major part it reflects increased cost of ship operation, although some				
47	increase is proposed in the professional staff of the Marine Life Research Program, and in provisions for basic equipment items.				
48					
49	Los Angeles Campus				
50					
51	Budget Increase -----			\$736,127	
52					
53	While the total increase at Los Angeles is \$1,096,468 or 5.3 percent, \$360,341 of this amount is allocated to the medical center.				
54	The increase for general campus activities, aside from agriculture and the business office, discussed later, totals \$591,586 or				
55	5.1 percent. Enrollment is expected to reach an all-time high on the Los Angeles campus in 1956. The proposed increase				
56	in budget will enable the staff to meet this problem and provide some general strengthening in critical teaching areas, although				
57	the largest single item is an increase of \$149,833 for the student health service, reflecting primarily a change by the medical				
58	center hospital to a full-cost basis of billing for its services. The new two-year program leading to the degree of master of				
59	business administration, which has already been approved, will require a budget increase of \$66,872. The School of Business				
60	Administration has experienced a 26 percent increase in enrollment over the fall of 1954. Library deficiencies which have				
61	been accumulating for the past several years and which are now urgent require an increase of \$76,823. The College of				
62	Engineering is faced with increasing student loads and expanding industrial needs and requires an increase of \$60,895. An				
63	increase of \$34,380 is proposed in the new budget for the School of Education.				
64	Research in the field of air pollution is continued, but at an estimated level of \$100,000 compared to \$199,800 in 1955-56.				
65					
66	Los Angeles Medical Center				
67					
68	Budget Increase -----			\$360,341	
69					
70	The increase proposed for the medical center at Los Angeles covers only the most urgent items involved in operation of the facility				
71	and provision for an increase in medical students from 174 to 190. To carry this added teaching load five new academic positions				
72	are provided, covering radiology, medicine, psychiatry and physical medicine. To meet the normal ratio of one resident house staff				
73	member for each four beds, an increase in this staff is proposed. Also included are additions to the budget for utilities, supplies and				
74	expense, and maintenance of large laboratory equipment, based on current experience in the new quarters. A minor increase of				
75	\$8,100 is proposed for nursing.				
76	The Los Angeles teaching hospital budget is increased by \$202,561, predicated upon optimum occupancy during the 1956-57 year and				
77	expansion of out-patient clinic provisions to care for an estimated increase of 15,000 visits.				
78

UNIVERSITY OF CALIFORNIA—Continued

LINE	EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57	CHANGE FROM 1955-56
1	ANALYSIS OF INCREASES—Continued				
2					
3					
4	Mount Hamilton				
5	Budget Increase -----				\$14,077
6	The proposed increase for Mount Hamilton, while it constitutes a 6.7 percent rise, is minor in amount, \$14,077, and provides for one				
7	librarian, one research assistant and a small increment for more adequate repair and maintenance of physical plant.				
8					
9					
10	Riverside Campus				
11	Budget Increase -----				\$315,911
12	The total increase at Riverside, \$315,911 or 9.2 percent, includes \$65,972 for agricultural sciences, \$85,227 for auxiliary enterprises				
13	offset by income, and \$58,189 for other business office functions. The increase for general campus activities amounts to \$106,223,				
14	and is needed for a general strengthening of the College of Letters and Science in line with present and estimated enrollment in-				
15	creases. Included in the list of important items is the establishing of a student placement or employment office, increased costs				
16	of the higher work load upon student health service, slight additions for personnel and book acquisition in the library, and				
17	some support for organized research.				
18					
19					
20	San Francisco Medical Center				
21	Budget Increase -----				\$562,811
22	An increase of \$562,811 or 5.7 percent is proposed for the San Francisco medical center, which includes hospital operation. When				
23	allowance is made for teaching hospital budget increases which are almost fully met by expected increases in income, the net				
24	budget increase amounts to \$364,576.				
25	The increase results primarily from operation of the new Moffitt Hospital, and extensions in cancer and cardiovascular research. The				
26	new facilities in the hospital for the Cancer Research Institute will make possible the inauguration of a long-anticipated and				
27	carefully planned expansion of the cancer research program, involving a budget increase of \$17,210 for new professional research				
28	personnel, operation of 32 beds for clinical studies, and supporting investigations in the basic sciences. The extension of cardio-				
29	vascular research provided by its budget of \$18,238 is limited in scope, and the major developments needed must await comple-				
30	tion of facilities late in the year. Increases in dentistry, pharmacy, and nursing are all small and justified by enrollment in-				
31	creases and other problems.				
32	The budget increase of \$198,235 for the Moffitt Hospital is almost entirely covered by income and is predicated upon optimum (75%)				
33	occupancy in 1956-57, with consequent need for an additional 15 interns and residents and 3 dietetic interns, to meet an esti-				
34	mated bed patient load of 40,000, and ambulatory patient load of 125,000. The ratio of personnel to hospital beds will be set at				
35	2.09 and the ratio of nursing hours per patient day at 3.61, both slightly less than the average in comparable hospitals.				
36					
37					
38	Santa Barbara Campus				
39	Budget Increase -----				\$169,857
40	The total increase proposed for Santa Barbara is \$169,857 or 5.9 percent, but of this \$44,760 is in the business office, partly offset				
41	by increased income, and \$4,435 is for summer session, fully offset by estimated income. The increase for general campus activi-				
42	ties amounts to \$120,662, and is largely devoted to departments of instruction and research, particularly at the lower division				
43	level, where enrollment growth has been heaviest, and to the implementing of the limited graduate program which has been ap-				
44	proved. An increase based on student demand is also proposed for the library, and more adequate administrative assistance is				
45	established for the office of the provost. The fall of 1955 enrollment at Santa Barbara is up 17 percent over the fall of 1954				
46	and continuation of this upward trend into next year is expected.				
47					
48					
49	Agricultural Sciences				
50	Budget Increase -----				\$375,373
51	The budget provisions for agricultural sciences appear as part of the budgets for several of the campuses and under state-wide ac-				
52	tivities. In total, the increase for agricultural sciences amounts to \$375,373 or 2.6 percent, which, in the main, will enable activi-				
53	ties to be maintained at about the 1955-56 level. Practically no changes are proposed in the teaching or extension programs.				
54	Modest increases are provided for important research activities, including animal diseases, plant diseases, weed control, soils,				
55	irrigation, food technology, floriculture, and ornamental horticulture, vegetable crops, and the work at the newly developing Forest				
56	Products Laboratory and South Coast Field Station.				
57	A special item of \$58,792 has been provided in the budget for research on the currently critical spotted alfalfa aphid problem; it is				
58	proposed that this item be financed from the Fair and Exposition Fund.				
59					
60					
61	Business Office				
62	Budget Increase -----				\$625,409
63	The total increase proposed for all business office activities on a university-wide basis amounts to \$625,409 or 6.3 percent. Of this				
64	amount \$156,331 is for expanded residence hall, bookstore and other auxiliary enterprises principally at Davis and Riverside,				
65	and will be offset by increases in income. The remaining increase of \$469,078 will go largely for increased building and				
66	grounds maintenance costs on all campuses, and greater expenses for utilities, particularly at Berkeley and Los Angeles.				
67	The over-all unit cost of maintenance will be returned to approximately the 1954-55 level of 63.3 cents per square foot.

LINE	EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57	CHANGE FROM 1955-56
1					
2					
3					
4					
5	Current revenue to university funds was budgeted by the University to increase by \$1,585,457 or 6.8 percent. The Department of				
6	Finance estimates that additional income in the amount of \$1,250,000 can be made available by the University for current				
7	operations, bringing the total to \$26,003,932, an increase of \$2,835,457 over 1955-1956. The changes in the income of the Univer-				
8	sity of California other than from the State General Fund are shown below:				
9	Student Fees, Regular Sessions-----				\$594,200
10	Student fees for California residents are maintained at the current level, \$42 per semester, and the increase is due to increased				
11	enrollments.				
12	Student Fees, Summer Sessions-----				\$102,099
13	The increase reflects an anticipated increase in enrollments and a slight increase in fee at Berkeley.				
14	Sales and Services-----				\$440,312
15	The increase in sales and services reflects the high occupancy of the teaching hospitals in both San Francisco and Los Angeles				
16	(\$472,166) offset by an anticipated decrease in miscellaneous revenues.				
17	Auxiliary and Service Enterprises-----				\$195,899
18	This increase is due mainly to a continued expansion in residence and dining hall operations on the various campuses and				
19	increased sales at the bookstore at Riverside.				
20	Overhead on Federal Contracts-----				\$200,000
21	The overhead payments from the Federal Government on contracts with the University are budgeted at \$1,200,000 in 1956-57,				
22	compared to \$1,000,000 in 1955-56 and reflect an increased amount from that source.

HASTINGS COLLEGE OF LAW

The Hastings College of Law was founded in 1878 by S. C. Hastings with the grant of \$100,000 to the State through the Regents of the University of California. By stipulation in the original agreement the State must pay the sum of 7 percent interest on the grant or repay the \$100,000 in full to a Hastings heir. According to the act creating the college, it is affiliated with the University of the State.

The college offers facilities for the acquisition of learning in all branches of the law, and to this end it has established a complete curriculum of studies and matriculates students who are granted the degree of "Bachelor of Laws" by the University of California.

Located in San Francisco

				(0.15%)

The enrollment of the Hastings College of Law is estimated to increase to 473 in 1956-57, an increase of 55 or 13.1%. It is anticipated that the enrollment will increase to 750 by 1965. Two and a half new professional positions are included for the 1956-57 Fiscal Year as fourth year classes are to be available in 1956-57 in addition to two sections of a first year class in each of the 1955-56 and 1956-57 Fiscal Years.

Revenues show an increase of \$8,363 primarily from increased registration fees and bar review course fees. The college continues to operate at a deficit estimated at \$152,115 for 1956-57, the college making up the difference out of surplus accumulated during the immediate postwar years.

In accordance with the policy established by the Legislature in 1954, funds sufficient to cover the cost of maintaining and operating the college buildings (\$42,000) in addition to the required amount of \$7,000 is included as General Fund financing.

^a Constitutes the annual interest payment of \$7,000 on the original gift required by Section 20152, Education Code, and an amount sufficient to pay for the cost of operating and maintaining the college building.

^b Funds of the college are not maintained in the Treasury. Neither the revenues or expenditures of these funds are included in the over-all budget totals.

BOARD OF CONTROL

The board makes rules and regulations governing the presentation and audit of claims relating to the amount and methods of traveling on official business of the State, and relating to the making of merit awards. Other functions include considering, auditing, recommending to the Legislature claims against the State for which no appropriation has been made, and hearing appeals in accordance with the purchasing procedure.

STATE CONTROLLER

The State Controller is the accounting and disbursing officer for the State, maintaining the accounts of all funds and appropriations, determining the legality of all payments and receipt of moneys due the State and disbursing all moneys withdrawn from the Treasury. He supervises the administration of state inheritance and gift taxes; collects the motor vehicle fuel license tax, motor vehicle transportation license tax, and petroleum and gas assessments; administers the tax refunds to nonhighway users of motor vehicle fuel; administers laws concerning county budget procedures; reports state, county, city, district, and street and highway financial transactions; supervises general procedures concerning delinquent property taxes and administers property tax-deeded to the State; administers unclaimed property laws; and field audits expenditures by local governments under the state school building aid programs, social welfare and public health subventions, and the local postwar construction programs.

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57
		54-55 (Filled)	55-56 (Auth.)	56-57 (Auth.)			
1	AUDITS DIVISION						
2	This division audits all claims against the State for correctness, legality, and for sufficient provisions of law for payment. It field						
3	audits expenditures by counties, cities, and other local governmental agencies, under the state school building aid programs,						
4	social welfare and public health subventions, and postwar construction programs, to determine the State's share of the costs of						
5	the programs.						
6	Analysis						
7	The major part of the \$20,737 increase over 1955-56 is for two new positions to audit the increased work load anticipated from the						
8	completion of a greater number of school building aid projects and the increased number of juvenile camps.						
9	SALARIES AND WAGES

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57
		54-55 (Filled)	55-56 (Auth.)	56-57 (Auth.)			
1							
2	DISBURSEMENTS DIVISION						
3							
4	This division issues the Controller's warrants drawn on the State Treasury; administers the State's centralized pay roll system,						
5	including the United States Savings Bond deduction program; and provides the mechanized services for the maintenance of						
6	the central control accounts and the treasury trust accounts.						
7							
8	Analysis						
9							
10	The \$8,031 net decrease below the revised estimate for 1955-56 consists of the following major changes in program:						
11	1. Three new positions at a cost of approximately \$14,500 for increased pay roll work load volume, and to permit reorganiza-						
12	tion made necessary by the addition of new and more complex programs within the past two years.						
13	2. In 1955-56 the division prepared for possible integration of the Federal Old Age and Survivors Insurance and the State						
14	Employees' Retirement System at an approximate cost of \$16,000. The plan was refused by the state employees in a						
15	November, 1955, referendum. No money has been included in the 1956-57 Fiscal Year for this purpose.						
16	3. There is a \$14,600 decrease in the purchase of equipment.

1	MOTOR VEHICLE FUEL FUND						
2							
3							
4	This division enforces the collection provisions of the Motor Vehicle Transportation License Tax Act, the Motor Vehicle Fuel License						
5	Tax Act, the tax on insurance companies, and the petroleum and gas production assessments; and administers the refund						
6	of motor vehicle fuel license tax to nonhighway users, collecting in the process sales tax on the purchases subject to such tax.						
7							
8	Analysis						
9							
0	The added cost of \$9,985 is for an additional position of intermediate typist-clerk and related expenses, which will release field						
1	representatives from clerical duties, permitting them to apply more time to a growing volume of field collection and refund						
2	activity.						
3

		54-55 (Filled)	55-56 (Auth.)	56-57 (Auth.)			
1	REDEMPTION TAX FUND						
2	Analysis						
3	This division administers the general procedures for tax sales, tax deeds, and redemptions of lands sold or deeded to the State for						
4	nonpayment of taxes; administers property tax-deeded to the State; advises county officials regarding the levying and collection						
5	of taxes on property; and renders services to the counties relative to delinquent tax accounting.						
6	The only significant change in program is the State Controller's plan to close the Ventura field office, thereby permitting the abolishment of one intermediate typist-clerk at an estimated annual savings of \$3,900.

56							
57							
58	DIVISION OF ASSESSMENT STANDARDS						
59							
60	This division has the administrative responsibility of equalizing the assessment of local property between counties. To fulfill this						
61	responsibility the division is required to issue cost and other appraisal data to the county assessors, to prepare maps for county						
62	use, and in general to assist the county assessors in the performance of their duties.						
63							
64	Analysis						
65							
66	The \$198,547 increase for 1956-57 provides for the re-establishment of 19 positions eliminated from the 1955-56 budget because of a						
67	delay in the effective date of Section 1831 of the Revenue and Taxation Code (Chapter 1466, Statutes of 1949). In 1952-53 the						
68	division had 12 appraisers and eight clerical positions advising and assisting county assessors. The 1953 Legislature added 66						
69	appraisers and four clerks for the sample appraisals required by Section 1831. During 1955-56 the division reduced its advisory						
70	staff to four appraisers. Because of a resulting backlog of such work, the division proposes in 1956-57 to use 16 of the new						
71	appraisers on the advisory program and two on the sample appraisal work.						
72	Twenty new drafting and delineator positions will be used in expanding the division's completely reimbursable County Contract Map-						
73	ping program. A number of additional counties are expected to request this service in 1956-57.

50	VALUATION DIVISION						
51							
52	This division administers the assessment of the public utility properties in the State.						
53							
54	Analysis						
55							
56	The additional \$13,972 for 1956-57 provides for an increase in the number of tax district boundary changes. In 1950 the division						
57	had 46 authorized positions and received 970 district boundary change filings. It anticipated that approximately 2,700 such						
58	filings will be received in 1956.

43	RETAIL SALES TAX DIVISION						
44	This division assesses and collects the retail sales and use taxes.						
45	Analysis						
46	The \$255,610 increase for 1956-57 provides for six additional field representative positions for a growing volume of sales tax accounts and related compliance problems—particularly delinquent accounts receivable; further expansion of the highly productive out-of-state phase of the audit program; an anticipated reduction in employee turnover and vacant positions; and \$30,000 for automobile replacements. In recent years there has been an average increase of 5,000 to 7,500 sales outlets annually in California without a corresponding increase in the division's staff.

1	ALCOHOLIC BEVERAGE CONTROL DIVISION						
2	Analysis						
3	Prior to January 1, 1955, this division assessed and collected the alcoholic beverage excise taxes, and administered the licensing and enforcement provisions of the Alcoholic Beverage Control Act. Effective January 1, 1955, Section 22 of Article XX of the State Constitution, and Chapter 20, Statutes of 1954 (First Extraordinary Session) created a Department of Alcoholic Beverage Control to which the responsibility for licensing and enforcement was transferred. The assessment and collection of alcoholic beverage excise taxes remains with the Board of Equalization. There is no significant change in program anticipated for 1956-57.

Division of Highway Taxes

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57
		54-55 (Filled)	55-56 (Auth.)	56-57 (Auth.)			
1							
2	MOTOR VEHICLE TRANSPORTATION TAX, ITINERANT						
3	MERCHANTS, AND MOTOR VEHICLE FUEL FUNDS						
4							
5	This division administers the Motor Transportation License Tax Act, the Itinerant Merchants Act, assesses the motor vehicle fuel						
6	tax and liquefied petroleum taxes, and assesses and collects the use fuel tax.						
7							
8	Analysis						
9							
10	The \$23,164 increase for 1956-57 over the revised estimate for 1955-56 provides principally for placing delinquent accounts and						
11	other aspects of return accounting on tabulating equipment, and two additional positions for increased use fuel tax work load.						
12	Since June 30, 1952, there has been an increase in the number of use fuel tax permits from 5,606 to 9,620 on June 30, 1955.						
13	It is estimated that there will be 11,300 permits outstanding by June 30, 1957.

GENERAL ANALYSIS

Number of positions----- 1,351.6 1,445.7 1,471.4 25.7

In general the proposed budget provides for the increased work load in the various divisions resulting primarily from the staffing and related expenses for new facilities which will be completed during the budget year; the inclusion of full-year costs for buildings completed in the current fiscal year; and staffing and related expenses for the establishment of the Division of Organization and Cost Control by Chapter 1857, Statutes of 1955.

The major increases are summarized as follows:

New positions for increased work load in the various divisions-----	\$87,588
Staffing new facilities-----	20,546
New division established by Chapter 1857, Statutes of 1955-----	18,596
Full-year maintenance costs for building completed in the current fiscal year-----	80,000

SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57
	54-55 (Filled)	55-56 (Auth.)	56-57 (Auth.)			

ADMINISTRATION DIVISION

Analysis

The increase results primarily from the proposed addition of one technical and one clerical position for the legal section and one clerical position for the investment section. All positions are added on the basis of increased work load.

19	AUDITS DIVISION						
20							
21	Analysis						
22							
23	The decrease in the budget is due to the reduction of 16 positions. These savings have resulted from the adoption of a two-year audit						
24	cycle as approved by the Legislature in the 1955 Session and for the anticipated reduction in audit activities due to the establish-						
25	ment of the Auditor General. Eleven positions are reduced as a result of the two-year audit program, and five positions as a result						
26	of the establishment of the Auditor General.						
27

21	BUDGET DIVISION						
23	Analysis						
25	The budget proposes to add one technical position and one clerical position to the financial research section to augment the present						
26	staff doing research on revenue and population estimating. The addition of these two positions will reduce the excessive over-						
27	time required by the existing staff and will allow more time for improvements in the population estimating work. There have been						
28	substantial increases in the number of requests for special population analyses.

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57
		54-55 (Filled)	55-56 (Auth.)	56-57 (Auth.)			
1	DIVISION OF ORGANIZATION AND COST CONTROL						
2	The division was created by Chapter 1857, Statutes of 1955, to provide consultation and coordination to the departments and agencies						
3	of the State Government with respect to organization planning and application of controls over manpower and costs, as directed						
4	or requested to conduct studies in such fields, and in the field of application of classifications to jobs and positions; and to con-						
5	duct research and exchange information in the field of management.						
6							
7	Analysis						
8							
9	The budget provides for the chief of the new division and his secretary. Staffing to meet the requirements will be provided by transfer						
10	from the management analysis section of the Budget Division and perhaps from the Audits Division. In addition staff services						
11	will be available from other divisions of the Department of Finance.						
12

1	PROPERTY ACQUISITION DIVISION						
2	Analysis						
3	The increase is due principally to the addition of two new positions and related expenses in order that the division may assume the						
4	negotiation of a portion of the leases now being accomplished by the state agencies concerned. This continues to implement the						
5	policy that further centralization of the leasing function will insure more standardization of space utilization throughout the						
6	State.

21	BUILDINGS AND GROUNDS DIVISION						
22	The division maintains state-owned and leased buildings and grounds in Sacramento, San Francisco, and Los Angeles.						
23	Analysis						
24	The proposed increase in this budget is made up principally of the following:						
25	1. Full year occupancy of new facilities (Employment Building) as compared to part-year costs during 1955-						\$80,000
26	56 Fiscal Year (reimbursable)						
27	2. Nineteen new positions for Veterans Affairs Building expected to be occupied about March, 1957 (reim-						20,546
28	bursable)						
29	3. Six new positions, four to meet increased work load of the maintenance staff in Sacramento resulting from						
30	new state buildings completed since 1952-53; and two in Los Angeles, one to provide proper police staffing						32,400
31	and one to provide staffing for an additional switchboard added in the current year

Department of Finance

FAIRS AND EXPOSITIONS DIVISION

Exercises general supervision over the district, county, and citrus fairs. Prepares a master premium list, approves premium lists and operating budgets of the fairs. Prepares claims for distribution of funds appropriated from the Fair and Exposition Fund and recommends allocations for Capital Outlay.

GENERAL ANALYSIS

Number of positions----- 13.4 13.9 13.9

The over-all decrease results primarily from the completion of the customer's surveys and research project in the 1955-56 Fiscal Year, amounting to \$15,000. The proposed budget provides for continuation of the same program level.

GENERAL ANALYSIS

Number of positions----- 75.7 75.5 75 -----0.

A 12-day State Fair is proposed for 1956-57. This is one day more than in the past. In order to provide funds for the additional day of operation, \$42,900 has been added to various items in the budget. However, this increase is more than offset by an additional \$80,500 in revenues estimated as a result of the additional day of operation.

The remaining increase is made up principally of the following:

Not offset by increased revenues:

Twenty thousand dollars increase for additional advertising in the southern area of the State; \$6,000 for a brochure to attract additional exhibitors; \$11,000 increase to provide a better night show, more contests, and free attractions; \$4,000 increase for legal services and directors' expenses; \$3,000 increase for salary increases to ticket takers, sellers, and ushers.

Offset by increased revenues:

Fifteen thousand dollars increase in wine sampling collecting; \$25,000 increase in special attractions for the Canadian Mounties; and \$5,500 increase in racing temporary help to provide the required staff to run 12 races per day for each racing day.

GENERAL ANALYSIS

Number of positions-----	26.5	27.5	29.5	2
The budget provides for an increase which is primarily related to increased work load required in connection with the opening July 1, 1956, of the new Horticultural Exhibit Hall.				
SALARIES AND WAGES: The increase is due principally to providing two new positions to properly service the new horticultural area.				
OPERATING EXPENSES: The increase provides \$5,000 for horticultural exhibit expense, \$3,100 for special maintenance of the parking lots, and \$2,000 for souvenir and postcards, which is completely offset by increased revenues.

GENERAL ANALYSIS

The committee was created by Chapter 1717, Statutes of 1955, for the purpose of considering the factors involved in the classification of the various fairs seeking apportionment under the provisions of Section 92 of the Agricultural Code, after which the committee shall classify such fairs. The initial meeting of the committee will be held in January, 1956. Funds are authorized for expenditure during 1955-56 and 1956-57. The budget proposes the expenditure of traveling expenses for members of the committee for both fiscal years.

Department of Finance

STATE LANDS DIVISION

Administers the public lands belonging to the State, consisting of school land, swamp and overflowed land, salt marsh, tide and submerged lands, and other sovereign lands. Principal revenue-producing function is the leasing of the public lands for the extraction of oil, gas, and minerals.

21	GENERAL ANALYSIS				
22	<i>Number of positions</i>	<i>760.3</i>	<i>795</i>	<i>865</i>	<i>70</i>
23	The budgeted increase for 1956-57 over the revised estimate for 1955-56 is provided for the following added work and program changes:				
24			<i>Number of positions</i>	<i>Cost</i>	
25	1. A substantial growth in the number of corporations subject to the provisions of the Bank and Corporation Tax Law		8	\$38,000	
26	2. A continued increase in volume of personal income tax returns		30	189,000	
27	3. Related services of cashiering, accounting, and review of protested assessments (partial conversion of temporary help)		15	33,000	
28	4. The resulting increase in the inventory of collection cases, and reduction in backlog of collection cases (conversion of temporary help)		15	-	
29	5. Relocation of the Franchise Tax Board's Sacramento office		-	-26,400	

^a Composed of savings in salaries and wages, \$31,704; operating expenses, \$49,359; and equipment, \$2,491.

1								
2	ADMINISTRATION DIVISION							
3								
4	In addition to the general administration of the state income and franchise tax programs, this division includes the agency's account-							
5	ing, statistical, collection, legal, and special investigative functions.							
6								
7	Analysis							
8								
9	The \$48,638 increase for 1956-57 over 1955-56 is for 30 permanent positions at a cost of approximately \$85,000—offset by a \$55,000							
10	decrease in allotments for temporary personnel; and \$7,500 for equipment required by relocation of the headquarters office.							
11	The additional positions are needed to service the added work discussed in the analyses of the Franchise and Personal Income Tax							
12	Divisions. During the five-year period, while the volume of tax returns have increased about 100 percent, the size of the Admin-							
13	istration Division's staff has grown 80 percent. This comparison takes 30 new positions into consideration.							
14

57	FRANCHISE TAX DIVISION						
58	This division administers the Bank and Corporation Tax Law.						
59	Analysis						
60	A \$46,561 increase is provided for the purpose of processing an estimated 15 percent increase in bank and corporation returns. In the						
61	1950-51 Fiscal Year 45,047 corporations were required to file returns. Currently there are 81,000 such corporations, and in						
62	excess of 90,000 are anticipated by June 30, 1957. During the past five years, while there has been an 80 percent increase in						
63	corporations, the Franchise Tax Division staff has increased from 93.5 to a proposed 119.8 positions (including temporary						
64	help), or less than 30 percent.

2	PERSONAL INCOME TAX DIVISION						
3							
4	This division administers the Personal Income Tax Law.						
5							
6	Analysis						
7							
8	The \$206,448 increase for the budget year in excess of the revised estimate for 1955-56 is due for the most part to a continuing						
9	growth in the volume of income tax returns filed. Five years ago 1,543,548 returns were received by the division; in 1955						
10	there were 3,050,000 received; and next year 3,400,000 are anticipated. This amounts to a 120 percent increase in work load.						
11	During the same period the divisions staff will have grown only 55 percent.

GENERAL ANALYSIS

Number of positions 37.5 38 39 1

The State Treasurer's program for 1956-57 will be substantially the same as that provided for the prior fiscal year.

The \$41,277 increase is due principally to a \$8,150 insurance premium paid every three years, and \$32,500 for additional storage facilities in the State Treasurer's vault to house a steadily growing volume of securities.

23	GENERAL ANALYSIS				
24	Number of positions	2,313.8	2,496.2	2,803.2	307
25	The principal changes from the current fiscal year are the proposed increase of 270 positions in the uniformed strength of the Highway Patrol to provide a more adequate degree of enforcement and the addition of supporting personnel and equipment for more effective operations.				

SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57
	54-55 (Filled)	55-56 (Auth.)	56-57 (Auth.)			

ADMINISTRATION

This function includes the office of the commissioner and the following staff sections: general administration, accounting, personnel, office services, facilities, motor transport, and stores and equipment.

Analysis

Two additional positions are proposed for the work load resulting from the recommended increase in uniformed strength, one of which is for the accounting section and one for the personnel section. Ten thousand dollars has been included in the 1956-57 Fiscal Year to provide for an independent study of the uniformed strength, organization, and operation.

SALARIES AND WAGES

				SALARY RANGE

DEPARTMENT OF INDUSTRIAL RELATIONS

The department administers the state laws relative to labor through its nine divisions. In general, it is the duty of the department to foster, promote, and develop the welfare of the wage earners of California; to improve their work conditions; and to advance their opportunities for profitable employment.

DIVISION OF ADMINISTRATION

The Division of Administration is composed of the director's office, the supervisor of industrial accident self-insurance plans, the accounting office, and all general housekeeping services and fiscal management.

Analysis

Provision is made for increases in rent at locations where renewal of existing leases must be negotiated at higher rates or additional personnel in field offices necessitate additional space. Replacement of automobiles includes those automobiles outside of the metropolitan areas which were not included in the state pool.

29	DIVISION OF INDUSTRIAL ACCIDENTS						
30							
31	The Industrial Accident Commission is responsible for the adjudication of cases arising under the Workmen's Compensation Law.						
32							
33	Analysis						
34							
35	One associate counsel and stenographer are proposed for each panel of the Industrial Accident Commission to implement Chapter						
36	1822, Statutes of 1955, which requires that a decision of the Industrial Accident Commission, either granting or denying a peti-						
37	tion for reconsideration, be in writing, and to state the reasons. These positions have been established in the current year,						
38	financed from salary savings, but are shown as proposed new positions in 1956-57.

22	DIVISION OF INDUSTRIAL SAFETY						
23	The Division of Industrial Safety is vested with supervisory and jurisdictional responsibilities necessary for the protection of employees from injuries connected with or arising out of their employment. The division administers laws pertaining to safety, issues safety orders, investigates and studies causes of industrial injuries, prepares and distributes information on prevention of accidents, and makes inspections of places of employment for compliance with minimum standards for safety.						
24	Analysis						
25	Four safety engineers are proposed on the basis of additional work load in boiler inspections and one safety engineer is proposed to provide more uniform electrical code enforcement and service in the San Joaquin Valley. Two clerical positions are proposed as supporting staff for the additional engineers.

DIVISION OF INDUSTRIAL WELFARE						
The Division of Industrial Welfare has five major functions as follows: (1) enforcement of 11 industry orders regulating the minimum wages, maximum hours and working conditions of women and minors; (2) enforcement of Labor Code sections concerning the Eight-hour Law for Women, weight lifting restrictions, seating requirements and equal pay; (3) licensing and regulating industrial homework; (4) enforcement of a prohibitory order restricting garment manufacturing in homes; (5) issuance of permits for a special minimum wage, permits for exemptions from certain provisions of the orders and defense production permits.						
Enforcement is achieved by (1) investigation of complaints by hearings or inspections; (2) regular field inspections to prevent violations; (3) legal action through the prosecuting attorney's office or justice of the peace courts; (4) processing of requests for permits by field investigation.						
Analysis						
One agent is included for the San Diego area based on an increased complaint load. Four agents are included for proposed new offices in San Bernardino, Bakersfield, Stockton, and Redding. An office in San Jose is proposed and would be staffed by transferring an existing position from San Francisco. With this increased staff and decentralization, a more adequate inspection and enforcement program will be set up extending to a greater number of establishments and working women. Clerical help for the requested agent positions is also included in an amount of five half-time clerical positions.						
Administration

16	Revision of Minimum Wage Orders						
17	Analysis						
18	The purpose of this activity is to revise the minimum wage orders relating to the employment of women and minors. Sections 1178						
19	and 1190 of the Labor Code establishes the wage board procedure for promulgation of such orders which have the same force as						
20	law. The 11 orders are being reviewed as a result of changing economic conditions since the last revision in August, 1952. One						
21	order is currently being revised and the other 10 are proposed for revision in 1956-57.

43	TOTALS, DIVISION OF INDUSTRIAL WELFARE				\$253,352	\$277,985	\$355,099
44	DIVISION OF LABOR LAW ENFORCEMENT						
45	The Division of Labor Law Enforcement is responsible for the administration and enforcement of labor laws not specifically under						
46	the jurisdiction of other state agencies. Among these are laws relating to payment of wages, child labor laws, laws regulating						
47	private employment agencies, and laws relating to ventilation and sanitary conditions of places of employment, Weekly Day						
48	of Rest Law, and Public Works Law.						
49	Analysis						
50	An additional deputy labor commissioner is proposed for each of the San Diego, Long Beach and Stockton areas on the basis of						
51	existing case load. Two clerks are included as supporting staff for the modified assignments of existing staff and the additional						
52	deputies.

42	Net Totals, Division of Labor Law Enforcement -----				\$618,759	\$681,105	\$718,460
43	DIVISION OF APPRENTICESHIP STANDARDS						
44	The establishment and functioning of the Division of Apprenticeship Standards is provided by the Shelley-Maloney Apprenticeship Labor Standards Act of 1939. This act creates an Apprenticeship Council, which includes the Director of Industrial Relations as an ex officio officer, and provides that the council will establish standards for minimum wages, maximum hours, working conditions of apprentices; and advance their opportunities for profitable employment.						
45	Analysis						
46	This budget reflects a major work load increase resulting from increased indentured apprentices and accompanying registrations, completions, and cancellations. Under a formula computation with estimated work load, provision is made for eight additional apprenticeship consultants and five clerks as supporting staff. No program change is reflected in this budget.						
47	SALARIES AND WAGES				SALARY RANGE

51	DIVISION OF HOUSING						
52	The work of this division includes the administration and enforcement of laws relating to hotels, apartment houses, dwellings, auto						
53	courts, resorts, motels and labor and trailer camps. The division disseminates information regarding housing and construction						
54	to owners, architects, builders, and the general public and also investigates reports of substandard housing conditions throughout						
55	the State.						
56	Analysis						
57	Two district representatives are included in this budget for inspecting and licensing additional auto courts, resorts, motels, trailer						
58	parks and labor camps. One clerk is included as supporting staff.

28	DIVISION OF LABOR STATISTICS AND RESEARCH						
29							
30	This division collects and compiles facts and statistics relative to the condition of labor in the State; publishes monthly statistics of						
31	employment, and, in cooperation with the Department of Employment, prepares monthly estimates and forecasts on civilian em-						
32	ployment and unemployment within the State. It works in conjunction with other state agencies and the U. S. Bureau of Labor						
33	Statistics in the collection and presentation of this data. The division makes studies and investigations in the field of industrial						
34	relations. It compiles statistics of industrial accidents for use in accident prevention work; administrative statistics for the In-						
35	dustrial Accident Commission, and performs similar services for other divisions of the department. All new factories are required						
36	by law to be registered with the division.

OFFICE OF FIRE MARSHAL

Enforces state fire prevention laws and regulations in the unincorporated areas of the State and assists the local authorities in the enforcement of state laws and regulations inside the corporate cities upon the request of the fire chief or the local government. Scope of work includes: general fire prevention, hospital inspections, Flammable Materials Act enforcement, schools and night clubs, and inspections of state institutions.

Headquarters Office at Sacramento

51	GENERAL ANALYSIS				
52					
53					
54	Number of positions.....	47.3	49.9	51.4	1.5
55	Provision is made for continuation of the same level of activity as currently authorized plus one new position for increased work load.				
56					
57	SALARIES AND WAGES: Increase of \$12,208 is due to one new position for work load, continuation of the fireworks program authorized by the 1955 Session of the Legislature, and decreased salary savings due to more stable employment conditions.				
58					
59	OPERATING EXPENSES: Decrease of \$3,860 is primarily due to a reduction of \$5,000 for research for hazards caused by cleaning solvents and processes and various small increases for increased work load.				
60					
61	EQUIPMENT: Increase of \$646. The \$8,991 budgeted provides for replacement of four automobiles, one additional automobile and other small equipment.				
62					
63	^a Composed of savings in salaries and wages, \$4,633; operating expenses, \$12,012; equipment, \$440. and loss in reimbursements, \$9,025.				
64					
65	^b Composed of savings in operating expenses.

DEPARTMENT OF JUSTICE

Under the direction of the Attorney General, the chief law officer of the State, the Department of Justice interprets laws and renders opinions, represents the State and its officers in civil litigation and on appeal from trial courts in criminal cases, operates the state teletype system, compiles statistics pertaining to crime, maintains central fingerprint and modus operandi files, assists peace officers in both criminal and civil investigations, and enforces the State Narcotics Act.

48	GENERAL ANALYSIS	578	636.2	677.4	41.2
49	Number of positions				
50	The budget as proposed includes 10 additional legal positions to reduce the backlog of cases in the Division of Civil Law and to provide a more adequate staff to process current work load. The budget also provides for the necessary clerical assistance for the attorneys, an increase in general office and teletype staff, and additional personnel in the Bureau of Criminal Identification and Investigation and the Bureau of Narcotic Enforcement to meet demands on these bureaus.				
51	a Composed of savings in salaries and wages, \$4,894; operating expenses, \$37,452; equipment, \$4,196; and excess reimbursements, \$4,048.				
52	b Composed of excess reimbursements.				

DEPARTMENT OF JUSTICE—Continued

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57
		54-55 (Filled)	55-56 (Auth.)	56-57 (Auth.)			
1	DIVISION OF GENERAL ADMINISTRATION						
2	Includes the Office of the Attorney General, the accounting and personnel sections, the stenographic pool, the teletype system, and						
3	other service functions.						
4	Analysis						
5	Seven new legal stenographer positions are recommended to provide the required clerical assistance for the additional attorneys in						
6	the Division of Civil Law. Three additional positions are proposed to meet increased work load in the accounting section and						
7	an increase of four positions is provided for the increase in volume of teletype traffic. One new clerical position is recommended						
8	for the San Francisco office to assist in filing of documents with the courts or county clerks, sorting and distribution of mail,						
9	and related duties. Such a position was approved in the budget for the 1955-56 Fiscal Year but due to a subsequent develop-						
10	ment of a more critical need in Los Angeles, the department found it necessary to transfer the position to the Los Angeles office.						
11	In the equipment category an amount of \$3,409 is proposed for carpeting the suite of the Attorney General plus the sum of \$1,777						
12	for some new furniture to equip this expanded suite of offices.

64							
65	Bureau of Criminal Identification and Investigation						
66							
67	This bureau maintains central files of fingerprints, modus operandi, crime records of felons, registrations of sex offenders, and furnishes information contained in such files to law enforcement agencies; provides expert, technical assistance to local law enforcement agencies through the staff of investigators and criminologists; and renders assistance to local law enforcement agencies in the specialized fields of questioned document examinations and polygraph (lie detector) operation.						
68							
69							
70							
71	Analysis						
72	Based upon current experience and the projection of recent trends, the volume of work in this bureau will require 15 additional positions: two in the fingerprint section; nine in the special services section; two for the record section; one in the investigation section; and one additional criminologist.						
73

61	Bureau of Narcotic Enforcement						
62							
63	This bureau is responsible for the enforcement of the provisions of the State Narcotics Act governing the use, sale, possession, or						
64	transportation of narcotics and harmful drugs.						
65							
66	Analysis						
67							
68	Three narcotic inspector positions established during the current year are recommended for continuation on a permanent basis.						
69	In addition one new narcotic inspector position for the San Francisco office is proposed to partially reduce excessive overtime.						
70	One additional half-time clerical position is recommended for the Sacramento office to provide for increases in the enforcement						
71	staff of this office in recent years and to avoid insofar as possible using inspectors for clerical relief.						
72

^b Both mental ill and mental defective cared for in these hospitals.

^c By definition, these figures include prior hospitalization in a California state mental hospital only, whereas, the figures prior to 1954 include hospitalization in any state or federal facility.

DEPARTMENT OF MENTAL HYGIENE—Continued

GENERAL ANALYSIS

The activities of Department of Mental Hygiene are functionally grouped as follows:

- A. **DEPARTMENTAL ADMINISTRATION.** The department carries on the activities of general direction of the hospitals, clinics, special programs, collection activities, deportations and transfers, guardianships, statistics, food administration, nursing service, maintenance service, community services, and private institution inspections.
- B. **RESEARCH, TEACHING, AND CLINICAL FACILITIES.** This group includes the Langley Porter Clinic at the University of California, School of Medicine at San Francisco and the Neuropsychiatric Institute at the University of California at Los Angeles, School of Medicine, which are hospitals and clinics for treatment of early curable types of mental disorders and centers for teaching and research. This group also includes the outpatient clinic program embracing clinics headquartered in the Cities of Los Angeles, San Diego, Fresno, Sacramento, Berkeley, Riverside, and Chico.
- C. **STATE HOSPITALS FOR MENTAL ILL AND MENTAL DEFICIENT.** This group includes the following:
- Eight state hospitals for the care of mental patients:
Agnews, Atascadero, Camarillo, Mendocino, Metropolitan, Napa, Patton, and Stockton.
 - Four state hospitals for the care of mental defective patients:
Fairview, Pacific, Porterville, and Sonoma.
 - Two state hospitals for the care of both mental ill and mental defective patients:
DeWitt and Modesto.
- Treatment and care are provided at these hospitals for the mental ill, mental defective, alcoholics, narcotic addicts, sexual psychopaths, and defective and psychopathic delinquents with emphasis being on treatment centers rather than custodial institutions.

MAJOR PROGRAM AUGMENTATIONS AND COSTS

The following summary by program accounts for the greater part of the proposed increase of \$7,647,894 (10.6%) over the 1955-56 expenditures. These increases provide the work load adjustments required to meet population and price changes at presently recognized standards of staffing and supply; they provide also for improvements in the level of service.

Additional personnel (other than nursing) for staffing new facilities:

a. The new Fairview State Hospital preparatory to receiving patients in the latter part of 1957	\$147,691	
b. A 488-bed receiving and treatment unit at Metropolitan	58,584	
c. A 486-bed tuberculosis unit at Napa	104,058	
d. A 302-bed annex to the hospital unit at Pacific	52,458	\$362,791

Additional personnel (other than nursing) for other population growth and special programs 439,142

Increase in operating expense and equipment:

a. Increases primarily for feeding, clothing, housekeeping, and regular medical supplies to meet price and population changes	\$702,702	
b. Transfer of heretofore minor capital outlay projects to maintenance of structures	775,910	
c. Increase in equipment	18,757	
d. Additional funds for new special drugs	158,388	1,650,757

Additional nursing personnel:

a. To provide for staffing of new facilities and for hospital ward reclassification resulting from changes in types of patients and prescribed treatment	\$910,773	
b. For increased and improved ward coverage representing 3 percent additional nursing personnel throughout the hospitals	853,200	1,763,973

Additional man years of personnel from fuller employment in authorized position 773,479

Increased cost in authorized positions for full-year employment and salary adjustments 1,453,996

Additional positions including physician/psychiatrists, dentists, laboratory technicians, surgical nurses, and rehabilitation technicians 500,749

Additional psychiatric team for Los Angeles Outpatient Clinic 52,674

Staffing for Neuropsychiatric Institute for a limited teaching research and training program 52,190

Additional funds for expansion of family care program 103,493

DEPARTMENT OF MENTAL HYGIENE—Continued

STATE HOSPITALS FOR MENTAL ILL AND MENTAL DEFICIENT

NEW POSITIONS

The following 1,020.3 new positions totaling \$2,978,959 for the mental ill and mental deficient hospitals, although included in the various hospital budgets, represent standard classes used at all of the mental hospitals and are, therefore, discussed functionally as groups as well as individually under each hospital. Operating expenses and equipment are discussed only under each individual hospital.

Nursing Personnel

WARD STAFFING

42 Senior psychiatric nurse	\$142,189
117 Psychiatric nurse	370,864
547 Psychiatric technician trainee	1,250,920
706 Total	\$1,763,973

This budget includes additional ward staffing to correspond with anticipated work load increases, and also provides a moderate improvement in the department-wide level of service. A new receiving and treatment unit at Metropolitan, a new tuberculosis unit at Napa and a new hospital annex at Pacific will be activated during the budget year. Staffing of these new units after adjustments for ward classification and overcrowding changes requires a net total of 376 additional positions at the currently authorized staffing level by type of patient. In addition 330 new positions are provided to improve the direct nursing care of mental ill and mental retarded patients in our state hospitals. The distribution of positions are indicated in the following schedule:

NURSING PERSONNEL—WARD STAFFING

Totals		1,276		426	-50	376	330	706	

AREA SUPERVISION

10 Supervising psychiatric technician	\$41,940
Positions are required for supervision of two additional nursing areas. One to be established at Pacific and one at Porterville State Hospitals. Ten new wards will be added at Pacific in February, 1957, and Porterville will have a total of 38 wards activated with 2,500 patients by the close of the current fiscal year requiring an additional area supervisor. Each area requires five positions for 24 hours, 7 days per week coverage.	

PATIENT GROUP LEADERS

3 Psychiatric technician (patient group leader)	8,964
For the purpose of initiating a "pre-industrial" therapy program at Agnews State Hospital, three positions as patient group leaders are required. This program enables patients to be integrated into a work program with therapeutic benefits at an earlier date by providing personnel for adequate supervision.	

DEPARTMENT OF MENTAL HYGIENE—Continued

STATE HOSPITALS FOR MENTAL ILL AND MENTAL DEFICIENT—Continued

NEW POSITIONS—Continued

Medical and Laboratory Personnel

1	Assistant medical administrator	\$11,400
2	An assistant medical administrator is required at Camarillo State Hospital. This is the largest hospital with an average population in excess of 7,000 patients and the superintendent is in need of assistance in administering the extensive medical treatment program.	
3	6 Clinical psychologist II	36,360
4	Six additional positions are provided to increase the level of service in this phase of the treatment program by 3 percent for mental ill and 9 percent for mental retarded patients. This increase is considered essential in conjunction with other proposed increases in the treatment program to maintain a balanced treatment team.	
5	1 Senior dentist	8,520
6	One additional senior dentist position is required at Pacific State Hospital for work load resulting from an estimated average population increase from 2,666 to 3,079 patients during the 1956-57 Fiscal Year.	
7	11 Dental assistant	32,868
8	Eleven additional positions are proposed for 10 hospitals in order to provide each dentist position with a full-time assistant. This added staff will increase the effectiveness of the dental program through better utilization of the professional dentist time.	
9	29 Physician and surgeon II	299,976
10	Twenty-nine new positions are provided in order to raise the level of care and treatment accorded patients. One additional position is for increased work load at the presently authorized level of service. The balance of 28 positions will provide a 6 percent increase in level of service. In line with other advances proposed in the mental hygiene program, it is considered desirable to provide additional doctors in order to effect a significant improvement in the treatment program.	
11	17 Clinical laboratory technician	\$67,932
12	3 Neuropathology technician	12,582
13	20 Total	\$80,514
14	Five clinical laboratory technician positions are provided to increase hospital laboratory staffing to 85 percent and 100 percent of the department's goal for mental ill and mental deficient patients respectively. In addition to these five positions, which are established on a position to hospital population ratio, 15 additional positions are proposed—one each to staff the receiving and treatment units at Metropolitan and Stockton State Hospitals; two positions for Napa State Hospital to staff the receiving and treatment unit and provide additional staff for the enlarged tuberculosis unit; two positions for the tuberculosis unit at Patton State Hospital; and three positions each for Pacific, Porterville and Sonoma State Hospitals to establish diarrheal and other enteric disease control units. These diseases are an acute problem at the hospitals for mentally retarded patients and laboratory staffs are essential for proper control.	
15	1.6 X-ray technician	5,808
16	One X-ray technician position is provided for the new 500 bed receiving and treatment unit at Metropolitan State Hospital as separate X-ray facilities have been included in this new unit of the hospital. In addition, one-tenth position each is required at the six hospitals having only one X-ray technician position to provide vacation and holiday relief in order that the X-ray service may be provided without interruption.	
17	3 Surgical nurse	11,988
18	Three additional positions are proposed to provide for increased work load at the receiving and treatment units at Metropolitan and Mendocino State Hospitals and the new 302-bed annex to Pacific State Hospital. This will provide a staff of four surgical nurses at each of these hospitals.	
19	1.7 Chiropodist	9,813
20	The extension of four part-time positions to full time at DeWitt, Mendocino, Metropolitan, and Porterville State Hospitals is proposed. This will provide a full-time chiropodist position at 12 hospitals for treatment of defective feet and foot disorders.	
21	1 Pharmacist	\$5,232
22	1 Laboratory helper	2,706
23	2 Total	\$7,938
24	A position of laboratory helper is provided for increased pharmaceutical work load at Camarillo State Hospital due to the large population and treatment program and to eliminate the need for patient help in the pharmacy. A second full-time pharmacist position is included for Stockton State Hospital for added work load, servicing the hospital, receiving and treatment unit and for relief. Patient load is comparable to Napa and Patton and this position will provide similar staffing.	

Other Treatment Personnel

1	Physical therapist II	4,512
2	One additional position is proposed for Porterville State Hospital to provide sufficient staff for full operation of this program which was started during the 1955-56 Fiscal Year.	
3	4 Recreational therapist	\$16,776
4	2 Occupational therapist I	7,992
5	4 Industrial therapist	16,776
6	10 Total	\$41,544

DEPARTMENT OF MENTAL HYGIENE—Continued

STATE HOSPITALS FOR MENTAL ILL AND MENTAL DEFICIENT—Continued

NEW POSITIONS—Continued

Other Treatment Personnel—Continued

The addition of 10 rehabilitation therapist positions will provide a 2 percent improvement in the level of this service. In working directly with patients through supervision of various activities, and in training nursing personnel to carry on some activities on the wards, the rehabilitation therapist performs an important function in the departmental treatment program. An increase in the rehabilitation therapy activity is considered necessary in relation to other increases proposed to provide a balanced treatment program.

1	Supervising psychiatric social worker	\$5,496
4	Senior psychiatric social worker	19,920
5	Total	\$25,416

Five additional positions are provided for increased work load at Metropolitan, Napa, and Pacific Hospitals to maintain the presently authorized level of service. Social workers at the hospitals obtain information for medical use from relatives, help patients with family problems, and work closely with the doctors in regard to releasing and placing patients.

Teaching Personnel

5	Elementary teachers	\$22,020
1	Student professional assistant	2,844
6	Total	\$24,864

Activation of the new juvenile unit at Camarillo State Hospital was projected in the current budget with a capacity of 144 patients and the teaching staff was provided on a basis of one teacher for each 20 students. Actual capacity of 170 has developed and two additional teachers are required for this increased work load.

Three additional teachers and one student assistant are proposed for Porterville State Hospital for a student enrollment of 180. This will provide a teacher to student ratio of approximately 1 to 11 and place Porterville on a comparable basis with Pacific and Sonoma State Hospitals.

Administrative Personnel

1	Service and supply supervisor	6,360
With an average population in excess of 7,000 patients, additional administrative assistance is required at Camarillo State Hospital for proper performance of necessary service and supply activities. This position will relieve the business manager of the many and varied tasks essential to operation of the hospitals' physical plant.		
2	Telephone operator	5,976
Two additional positions are included for Metropolitan State Hospital to provide for coverage of a two-position switchboard. Completion of the new receiving and treatment unit and administration building will require expanded telephone facilities.		

Clerical Personnel

2	Intermediate account clerk	\$5,976
6	Intermediate typist-clerk	18,678
8	Total	\$24,654

One each intermediate account clerk position for Metropolitan and Pacific State Hospitals are provided for personnel and pay roll section work load increases based on a standard of one clerk for each 250 positions.

Five intermediate typist-clerks are included for medical clerical pools at various hospitals. These positions are based on a ratio of one typist for each three professional staff members. To maintain this ratio the additional positions are required. One intermediate typist-clerk is provided for clerical duties in the X-ray department of the new receiving and treatment unit at Metropolitan State Hospital. A similar position has been provided at other hospitals with receiving and treatment units to relieve the technical staff of routine clerical duties.

Food Service Personnel

1	Institution food administrator I	4,512
An additional position of institution food administrator I is provided for therapeutic diet supervision of the new 486-bed tuberculosis unit at Napa State Hospital. This position will direct feeding of the tubercular patients in accordance with the food control and dietary prescriptions by the medical staff.		
2	Cook	7,260
Two additional cook positions are provided for the new tuberculosis unit food preparation needs at Napa State Hospital.		
1	Baker I	3,630
A second baker position is included for Atascadero State Hospital to provide sufficient help to operate on a 9- to 10-hour basis, six days per week. To provide sufficient baked goods this operation is necessary and one existing position is not sufficient.		

DEPARTMENT OF MENTAL HYGIENE—Continued

STATE HOSPITALS FOR MENTAL ILL AND MENTAL DEFICIENT—Continued

NEW POSITIONS—Continued

Food Service Personnel—Continued

1	Food service supervisor I	\$2,988
61	Food service assistant	165,066

62	Total	\$168,054
----	-------	-----------

A third position of food service supervisor I is provided for supervision of employees and patients in the new third division dining rooms at Camarillo State Hospital. With the opening of a new juvenile unit, additional dining facilities are required. An increase of 61 food service assistant positions are proposed for dining room and kitchen assignments. Three positions for Mendocino, 10 positions for Patton, and four for Sonoma are included to staff congregate dining rooms of receiving and treatment buildings at these hospitals for which additional staff has not previously been provided. Eight additional positions are provided for Stockton to staff Cottage 12's three remodeled congregate dining rooms. These dining rooms now require 13 positions for adequate staffing. Eleven positions at Metropolitan, 10 positions at Pacific, and 15 at Napa, are provided to staff dining rooms for a new receiving and treatment building, a new hospital annex, and a new tuberculosis unit at these hospitals respectively.

Housekeeping Personnel

1	Janitor foreman II	\$3,810
19	Janitor	56,772

20	Total	\$60,582
----	-------	----------

One janitor foreman and 12 janitors are provided for cleaning the new tuberculosis unit at Napa State Hospital. Patient help will not be utilized here and staffing is comparable to that authorized at the Patton and Sonoma tuberculosis units. Three janitors are included for Metropolitan to care for the 65,000 square feet of floor area in the new receiving and treatment unit and administration building. Three janitors are included for maintenance of about 91,000 square feet of floor area at the new hospital annex at Pacific State Hospital.

One additional janitor is included for coverage of the new 99-bed receiving and treatment building at Sonoma State Hospital.

1	Assistant seamstress	2,844
---	----------------------	-------

An additional position is provided at Pacific State Hospital for increased work load in the mending room resulting from a sizable population increase.

Laundry Personnel

1	Laundryman	\$3,138
3	Laundress	8,964
5	Laundry helper	13,530

9	Total	\$25,632
---	-------	----------

One laundryman, two laundress, and two laundry helpers are provided for Mendocino State Hospital to operate the facilities and equipment in the new addition to the laundry. It is planned to increase laundry operations from 50,000 to 75,000 pounds annually requiring a total staff of 15 positions.

One laundress and two laundry helpers are provided for increased work load due to activation of the new receiving and treatment building at Metropolitan State Hospital. One laundry helper is included for Pacific State Hospital for increased work load resulting from the new hospital annex completion.

Maintenance and Operating Personnel

15	Maintenance personnel	62,556
----	-----------------------	--------

One each refrigeration engineman position is provided at Atascadero, Mendocino, Metropolitan, and Pacific State Hospitals to maintain the large amount of refrigeration and ventilation type equipment installed at these hospitals. This will bring to 10 the number of hospitals having such a position.

One locksmith position, previously established for one year at Modesto State Hospital, is proposed for continuation on a permanent basis to provide for a continuing work load of lock repair and replacement. Locksmiths now are authorized at seven other hospitals on a permanent basis.

One carpenter, one painter, and one building maintenance man are provided for maintenance of the three new ward buildings and the new hospital annex at Pacific State Hospital.

Proper maintenance of the new juvenile unit at Camarillo, the new receiving and treatment unit at Metropolitan, and the new tuberculosis unit at Napa requires an additional building maintenance man at each of these hospitals.

One additional stationary fireman position is included for Patton State Hospital to provide a staff of five positions for 24-hour, 7-day coverage of the boiler plant. One additional stationary engineer is included for maintenance of mechanical equipment at each of the following three new buildings: the new receiving and treatment buildings at Metropolitan and Sonoma, and the new tuberculosis unit at Napa State Hospital.

(10)	Institution firemen (part time)	4,800
------	---------------------------------	-------

Five part-time firemen each at Camarillo and Pacific State Hospitals are included for adequate fire protection of existing and recently constructed new buildings.

5	Groundsman and flower gardener	15,690
---	--------------------------------	--------

These new positions are required to care for 53 acres of landscaping around 12 new ward buildings and a recreational field at Pacific State Hospital.

3	Automotive equipment operator	10,890
---	-------------------------------	--------

Two additional positions are provided at Pacific State Hospital for food delivery service and other hauling services to the new wards and the hospital annex. One additional position is required at Mendocino State Hospital for increased work load to provide relief for existing drivers and eliminate the need to use other personnel for automotive operation.

DEPARTMENT OF MENTAL HYGIENE—Continued

STATE HOSPITALS FOR MENTAL ILL AND MENTAL DEFICIENT—Continued

NEW POSITIONS—Continued

Farming Personnel

1 Assistant institution dairyman	\$3,810
1 Hog ranch operator	3,810
1 Vegetable gardener	3,810

3 Total \$11,430

Farming operations were begun at Atascadero State Hospital during the current year by two positions authorized in the 1955-56 Budget. With actual production operations underway, the additional three positions will be required as planned.

Fairview State Hospital

70 Positions 147,691

The 70 positions to be established on a staggered basis represent the complement of employees necessary for administration, support and subsistence, care and welfare, and maintenance and operation of plant in order to have the programs of the hospital equipped and functioning when patients are received.

1,020.3 Totals, New Positions—Mental Ill and Mental Deficient Hospitals \$2,978,959

Department of Mental Hygiene

DEPARTMENTAL ADMINISTRATION

Under the administration function, the department carries on the activities of general direction of the hospitals, clinics, special programs, fiscal accounting and budget control, collection activities, deportations and transfers, guardianships, statistics, personnel services, food administration, nursing service, maintenance service, community services, and private institution inspections.

1	GENERAL ANALYSIS				
2					
3					
4	Number of positions—Administration-----	107.9	115.4	125.1	9.7
5	Number of positions—Bureau of Patients Accounts-----	68.8	73.9	86.3	12.4
6	Number of positions—Extramural Care-----	178.5	177.6	179.4	1.8
7					
8	Totals -----	355.2	366.9	390.8	23.9
9					
10	Administration				
11					
12	Analysis				
13					
14	The \$52,622 increase in salaries and wages represents \$13,710 increased cost of authorized positions, \$2,192 increase in salary				
15	savings, and \$41,104 for 8.8 new positions as follows:				
16	Statistics:				
17	One additional junior research technician and one intermediate typist-clerk to provide adequate coverage for the analysis				
18	of statistical data on mentally ill for a period of one year. One additional intermediate typist-clerk for the reports				
19	unit to meet work load.				
20	Rehabilitation Therapy:				
21	One additional chaplain (Jewish) to allow adequate coverage of all the hospitals by establishing three areas.				
22	Maintenance:				
23	An associate construction analyst to help carry the sections requirements of major and minor construction planning and				
24	programming.				
25	Private Institution Inspection:				
26	A field representative for inspection and licensing services as the number of private institutions has increased from 163 to				
27	over 300, with no increase in positions.				
28	Guardianships:				
29	One each additional assistant counsel, agent I and intermediate stenographer-clerk position to meet the continued increased				
30	work loads of this section.				
31					
32	Operating expenses show a net increase of \$26,635 due primarily to increase traveling required for the new positions and				
33	increase in rent to allow for the move into new quarters during 1956-57, plus moving expenses.				
34	The \$20,589 for equipment is composed of \$7,337 for replacement and \$13,252 for additional equipment. Equipment of new positions				
35	and \$3,000 for films for the community services film library are the significant additional items.
